

Is ajeventos.com legit? TrustSniffer's high-trust assessment: 100/100

ajeventos.com

Verdict

100

OUT OF 100

HIGH TRUST

ajeventos.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Corporate website for A.J. Eventos, a Colombian event marketing and logistics company. The site lists services, case studies, office contact details for multiple cities, and an about/portfolio section. No payment or credential collection observed.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2011.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

A.J. Eventos is a corporate website for an event marketing, advertising, production, and logistics business serving clients through services such as experiential marketing, mobile and outdoor advertising, BTL, digital marketing, and event production. Its apparent business model is based on client contracts, rentals, and service fees rather than online financial products or direct credential-based transactions.

Scam/Impersonation Risk

No contradictions were observed. The site presents a coherent corporate-services profile, including service categories, portfolio material, testimonials, and regional contact information, with no detected impersonation, phishing, credential-harvesting, wallet-connect, or payment-collection behavior. Available external checks produced no malicious or suspicious result, although reputation coverage was not comprehensive. The homepage also contains a contact-channel integrity anomaly: the published address **info@ajeventos.come** appears to use a deliverability-breaking domain ending that may represent a typographical error or possible typosquat; this is not, by itself, evidence of fraud.

EVIDENCE

- The homepage identifies A.J. Eventos as a marketing, advertising, event, and logistics business and includes portfolio and testimonial content.
- Interactive testing confirmed no login form, hidden sensitive form, external password submission, wallet provider, wallet-drainer behavior, clipboard hijacking, or suspicious inline script.
- Domain registration records show creation on 2010-04-06T15:04:41Z, with an age of 16.38 years and expiration on 2027-04-06T15:04:41Z.
- Historical records show 66 archive snapshots spanning 2011-02-02T21:43:22Z through 2026-05-18T12:09:25Z, covering 16 years.

Regulatory Verification Notes

The available pages provide an apparent operating identity—A.J. Eventos—and describe marketing and event services, but the real-world operator is not independently verified by the available evidence. No licensing claim, licensing authority, or registration number was identified; for this type of commercial service, that is a transparency and contracting matter rather than an indication of impersonation. The site's use of a privacy-protected registration record is an administrative limitation, not a contradiction, and the overall evidence remains consistent with an established, apparently legitimate business website.

EVIDENCE

- The about and portfolio material describes the company's marketing, advertising, event-production, and logistics activities, including an advertised "more than 20 years" of experience.
- The contact presentation lists office details for multiple cities, while the available identity material does not provide an independently verified legal-entity linkage or licensing number.
- The site is served from AS36454, WHG-DAL - WHG Hosting Services Ltd, GB.
- The transport certificate is issued by YR1 with DV validation and is valid to 2026-09-30T03:22:45+00:00.

What to Verify Next

Before a commercial engagement, the prospective counterparty should independently confirm the contracting entity, invoicing details, and authority of the person offering services. Where a specific event, advertising, rental, or production service requires a local permit or sector registration, that requirement should be checked with the relevant Colombian authority. Payment arrangements should use a channel offering appropriate business dispute and payment-protection rights, and official contact channels should be confirmed through an independent route before sensitive exchanges.

EVIDENCE

- The site's stated business model is service-based and involves client contracts, rentals, and service fees rather than an automated checkout or account platform.
- No payment or credential-collection form was observed during page and behavior analysis.
- The site's legal and identity presentation does not independently establish the real-world operator behind the A.J. Eventos name.

Summary Verdict

The overall posture is **high trust and low risk**, and the available evidence is consistent with an established, apparently legitimate website. Identity assurance remains qualified because the operator has not been independently verified, but no scam, phishing, impersonation, or other contradictory signal was observed.

Infrastructure Integrity

The site resolves through a direct hosting arrangement rather than a detected CDN or WAF edge layer, with one likely origin address and no identified edge IPs. This provides limited infrastructure protection against exposure and traffic-abuse risks, but it does not undermine the favorable site-level assessment.

EVIDENCE

- Infrastructure analysis identified one unique IP, zero edge IPs, and one likely origin IP.
- No CDN or WAF vendor was detected.
- Hosting infrastructure is associated with WHG-DAL - WHG Hosting Services Ltd, GB, in Colombia.

Closing Assessment

Routine browsing appears proportionate to the assessed risk; before credentials or payment interactions, ordinary independent checks of the counterparty, contractual terms, and payment protections should be completed.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of ajeventos.com.

- The request stayed on ajeventos.com. It was not redirected to another domain. CLEAR
- Registration is published under TUCOWS.COM, CO.. CLEAR
- DNS for this domain is served by colombiahosting.com, across 4 name servers. NOTED
- The registration is paid up to 2027-04-06. NOTED
- The earliest public archive of this site is from 2011-02-02. CLEAR
- It is hosted on WHG-DAL, from a server in CO. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about ajeventos.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
