

Is akhilautismfoundation.org legit? TrustSniffer's high-trust assessment: 80/100

akhilautismfoundation.org

Verdict

80

OUT OF 100

HIGH TRUST

akhilautismfoundation.org appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Informational nonprofit site for Akhil Autism Foundation describing mission, programs, impact stories, events, contact information and donation/volunteer CTAs. Appears legitimate and low-risk in terms of financial fraud.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2009.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

Akhil Autism Foundation is an informational nonprofit website presenting the foundation's autism-focused mission, programs, impact work, events, contact channels, and donation and volunteer opportunities. Its apparent business model is charitable fundraising and community support for autism education, treatment, research, and related services.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or conflicting-identity contradiction was observed. The homepage presents a coherent charitable purpose through named initiatives including Horticulture Therapy, NeuroDiverse Gardeners, Play In A Box, autism walkathons, sponsorship, volunteering, and donations; the supplied page analysis identified no content red flags or investment-related activity. One isolated external malicious detection remains an unconfirmed reputational signal, but it is not corroborated by the other supplied checks. Automated interaction recorded dynamic page changes and some non-whitelisted network activity, yet no cloaking, hidden forms, wallet activity, clipboard manipulation, or external password submission was detected; these observations do not establish phishing or impersonation.

EVIDENCE

- The homepage describes Akhil Autism Foundation's autism mission, impact stories, Horticulture Therapy, Play In A Box, NeuroDiverse Gardeners, events, and donation and volunteer calls to action.
- The domain was registered in 2008 and is approximately 18.24 years old.
- Archive records show 159 snapshots spanning 2009–2026, covering 18 years tracked.
- External reputation results recorded 1 malicious detection, 0 suspicious detections, 0 abuse reports, and no confirmed external blacklist finding.

Regulatory Verification Notes

The site presents itself as a New Jersey-based nonprofit and provides About, Our Story, Mission, Our Team, Financials, Impact, and Contact pages. That structure is consistent with an established charitable organization, but the supplied pages do not present a charitable registration number, license reference, or independently verified legal-entity record. This is a verification and disclosure gap rather than evidence of a scam. The available identity evidence therefore supports an apparently legitimate site, while the real-world operator remains not independently verified. No matching broker-related third-party reputational signal was supplied.

EVIDENCE

- The About, Our Team, Financials, and Contact pages identify the organization and describe its governance, activities, and contact pathways, but no registration or license number is shown in the supplied page content.
- The site is served from AS132937, Diadem-AS – Diadem Technologies Pvt. Ltd., IN.
- The domain registrar is IONOS SE.
- The transport certificate is issued by YR2, uses DV validation, and is valid to 2026-10-20.

What to Verify Next

Before credential or payment interactions, an institution should reconcile the foundation's stated legal name and jurisdiction with the relevant charitable-registry records, confirm that the donation recipient and payment destination correspond to the organization, and review the donation acknowledgement and payment-protection terms. Official contact channels should also be validated through an independently sourced route rather than relying solely on information presented on the site.

EVIDENCE

- The About and Financials pages provide the organizational claims and records to compare against an applicable charitable registry.
- The Donate and Contact pages define the operational points at which recipient, payment, and acknowledgement details should be checked.
- The site links to Facebook, Twitter, YouTube, and Instagram, providing additional channels for independent channel validation.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website with a high-trust, low-risk posture. The site's charitable content, sustained domain presence, coherent page structure, and absence of contradiction support that assessment, while operator identity remains likely rather than independently proven.

Infrastructure Integrity

The site resolves directly to a hosting address identified with AS132937 and Diadem-AS – Diadem Technologies Pvt. Ltd. in India; no CDN edge layer was detected and one likely origin address was identified. The site uses valid TLS with a known issuer and DV validation, which supports transport security but does not independently establish organizational legitimacy.

Closing Assessment

Ordinary engagement is proportionate to the assessment, with independent confirmation of organizational identity, donation terms, and payment protections completed before credentials or funds are submitted.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of akhilautismfoundation.org.

- The request stayed on akhilautismfoundation.org. It was not redirected to another domain. CLEAR
- Registration is published under IONOS SE. CLEAR
- DNS for this domain is served by infradn.com, across 2 name servers. NOTED
- The registration is paid up to 2027-05-28. NOTED
- The earliest public archive of this site is from 2009-01-27. CLEAR
- It is hosted on Diadem-AS, from a server in IN. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about akhilautismfoundation.org at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
