Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2009.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Ålandsbanken's Swedish banking website presents personal, premium, private, and corporate banking services, including accounts, payments, lending, investments, insurance, wealth management, customer support, and secure banking access. Its apparent purpose is to provide institutional banking services and customer information through an established financial-services platform.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent Ålandsbanken identity, extensive banking content, office information, customer resources, and fraud-prevention guidance, with no detected phishing, impersonation, malicious-content, or deceptive-site indicators. The domain also shows long-running historical continuity consistent with an established institutional presence.

- Domain registered on 2008-12-22 and approximately 17.62 years old.
- 278 archive snapshots spanning 2009-04-25 to 2026-04-22 across 18 years.
- Homepage analysis recorded no red flags, no brand-impersonation indicators, and no sensitive external login form.

Regulatory Verification Notes

The site provides legal identity, contact channels, branch listings, customer resources, and regulatory information. No license number was captured in the assessed material; this is a transparency item for independent confirmation, not evidence of fraud or an identity contradiction. Available external reputation checks found no adverse malicious or blacklist result, and no broker-reputation match was identified.

- Homepage identifies Ålandsbanken and links to banking, corporate, customer-support, and fraud-prevention information.
- Hosting infrastructure: AS42649, Baffin Bay Networks AB, Sweden.
- TLS certificate issued by DigiCert Global G2 TLS RSA SHA256 2020 CA1, with OV validation, subject organization Ålandsbanken Abp, valid through 2026-12-19.

What to Verify Next

For regulated onboarding or institutional engagement, independently confirm the applicable authorization and legal entity in the relevant financial-services register, then match the registered details against the site's legal and contact pages. Standard account login and ordinary banking use are appropriate within the institution's normal security procedures.

- The homepage provides legal, contact, office, and customer-service material for comparison.
- The assessed pages include regulatory information and fraud-prevention guidance.
- The domain's registration is recorded through Abion AB, with expiry on 2027-02-06.

Summary Verdict

The website presents as a legitimate, established, and trustworthy banking platform with strong identity continuity, coherent institutional content, and no observed contradiction or impersonation signal. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site resolves to one identified origin address hosted by Baffin Bay Networks AB, with no CDN detected. This direct hosting arrangement supports attribution, while the provider's trusted infrastructure posture is treated as a mitigating technical signal rather than proof of legitimacy.

Closing Assessment

Prospective users may proceed with normal banking interaction and standard account activity, subject to the institution's usual authentication and transaction controls.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	76%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of alandsbanken.se.

- The request stayed on alandsbanken.se. It was not redirected to another domain. CLEAR
- Registration is published under Abion AB. CLEAR
- DNS for this domain is served by awsdns-19.org, across 4 name servers. NOTED
- The registration is paid up to 2027-02-06. NOTED
- The earliest public archive of this site is from 2009-04-25. CLEAR
- It is hosted on bbn, from a server in SE. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [alandsbanken.se](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
