

Is alardpublicschool.com a scam? TrustSniffer's high-risk assessment: 0/100

alardpublicschool.com

Verdict

0

OUT OF 100

CRITICAL RISK

alardpublicschool.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Alard Public School website pages focused on admissions for 2026-27, academic offerings, facilities, contact details and leadership messages. Contains phone numbers, physical address in Pune, and calls-to-action for admission enquiries.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://alardpublicschool.com/>

What alardpublicschool.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2016.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

Alard Public School is an educational website presenting admissions for the 2026–27 academic year, with information on Nursery through Class XII, curriculum, facilities, leadership, fees, prospectus access, and admission-enquiry channels; its apparent business model is to attract prospective students and collect tuition and related admissions revenue.

Scam/Impersonation Risk

The site's visible content is consistent with a private-school admissions presence and contains no observed login form, cryptocurrency feature, deceptive financial inducement, or obvious brand-impersonation pattern. However, this benign page presentation is outweighed by a confirmed blacklist status and multiple external malicious detections, including detections from Fortinet, Kaspersky, and Sophos. The available evidence therefore supports a serious sensitive-interaction risk even though no identity contradiction or direct impersonation signal was observed. The domain's established registration and historical continuity provide provenance context but do not neutralize the active reputation contradiction.

EVIDENCE

- External reputation checks recorded 9 malicious and 1 suspicious detections, with Fortinet, Kaspersky, and Sophos among the flagged vendors; the domain was also identified by the VT and EXTERNAL_BLACKLIST sources.
- The domain was registered on 2015-12-22 and is approximately 10.67 years old.
- Web-archive records show 105 snapshots spanning 2016–2026, covering 11 years.

Regulatory Verification Notes

The site presents About, management, leadership-message, admissions, fees, and “Mandatory Public Disclosure” pages, which is consistent with an operating school website. Nevertheless, the available content does not independently establish the real-world operator or provide a verified licensing authority and license number; this is a regulatory and disclosure matter rather than, by itself, proof of fraud. The identity connection is therefore only likely, not independently verified. The site uses transport encryption, but the certificate is domain-validated rather than an identity-validated organizational certificate.

EVIDENCE

- The site’s homepage and admissions pages identify Alard Public School, show a Pune location, and advertise admissions for Nursery through Class XII for 2026–27.
- The hosting infrastructure is AS47583, AS-HOSTINGER — Hostinger International Limited, CY; the resolved server country is UA.
- TLS uses issuer YE1 with DV validation and is valid to 2026-10-19T22:31:57+00:00.

What to Verify Next

Before any admissions submission, fee payment, or sharing of family or student information, the school’s operation should be confirmed through an independently obtained telephone number or an in-person route connected to the published Pune location. The “Mandatory Public Disclosure” material and any claimed educational authorization should be checked against the relevant education authority or registry, and payment instructions should be confirmed through an independently verified institutional channel rather than relying solely on the website. The official social presence and contact channels should also be cross-checked before proceeding.

EVIDENCE

- The site contains one admissions/contact enquiry form and no observed sensitive form or login form.
- The homepage publishes a Pune location and admissions telephone details, providing specific points for independent confirmation.
- The navigation includes “Mandatory Public Disclosure,” “Fees,” “Download Prospectus,” and “Admission Enquiry” pages.

Summary Verdict

The overall posture is **critical trust risk**, with the principal concern being confirmed external threat-reputation contradictions that materially outweigh the site’s otherwise coherent educational presentation and established

provenance. The website should not be treated as sufficiently trustworthy for sensitive interaction or financial reliance, and its apparent institutional identity remains unverified.

Infrastructure Integrity

The site is not detected behind a CDN, and resolution identified four likely origin IP addresses. This direct-hosting posture provides limited protective mitigation; the presence of standard TLS does not compensate for the external reputation findings.

Closing Assessment

Passive viewing may be used only for preliminary reference; admissions submissions, credential disclosure, personal-data sharing, and payments should remain suspended until the institution and transaction channels are independently confirmed.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.

Registration and ownership rule:KF_WHOIS_PRIVATE

- The registration record withholds contact details for the operator.

Registration and ownership rule:KF_WHOIS_HIDDEN

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

Analysis engine signal:direct_threat

External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	37%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of alardpublicschool.com.

- The request stayed on alardpublicschool.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2026-12-22. NOTED
- The earliest public archive of this site is from 2016-01-25. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about alardpublicschool.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
