- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2011.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is Al Barid Bank's institutional French-language banking portal, presenting retail and business banking services such as accounts, cards, savings, loans, insurance, transfers, mobile banking, and branch access for Moroccan customers and residents abroad.

Scam/Impersonation Risk

No contradictions were observed across the site's identity, content, technical behavior, or external reputation signals. The homepage presents a coherent institutional banking model, includes security guidance against sharing sensitive information and using unofficial applications, and shows no phishing, impersonation, malicious-content, or deceptive high-yield indicators. Normal interaction, including account login and standard banking use, is appropriate.

- The domain was registered in 2010 and is approximately 16.19 years old.
- Historical records show 28 archive snapshots across 8 tracked years, from 2011 through 2018.
- The homepage is identified as an institutional banking site with no detected impersonation or phishing indicators.

Regulatory Verification Notes

The site provides legal, security, customer-support, and privacy information and clearly identifies a conventional banking business serving individuals, professionals, and companies. No licensing authority or registration number is claimed in the supplied site evidence; this is a transparency item for independent confirmation, not evidence of misconduct. No matching third-party broker-reputation record was identified.

- Hosted on AS329628 (AL BARID BANK - AL BARID BANK, MA).
- TLS certificate issued by GeoTrust TLS RSA CA G1 with OV validation for Al Barid Bank SA, valid to 2026-09-09.
- The homepage includes links for legal information, privacy, security guidance, customer support, and agency access.

What to Verify Next

Confirm the institution's current authorization and scope directly through the relevant Moroccan financial-services registry, and independently validate official support and customer-service channels before relying on them for material transactions.

- The site offers “Devenir Client,” agency-location, callback, and customer-support pathways on the homepage.
- The site’s security guidance directs customers not to disclose sensitive data online or use unofficial applications.

Summary Verdict

The website presents as a legitimate, established, and trustworthy banking institution with strong convergence across identity, content quality, technical integrity, historical continuity, and reputation signals. Its overall posture supports normal customer interaction and standard account activity.

Infrastructure Integrity

The site resolves directly to infrastructure associated with AL BARID BANK in Morocco, with no CDN or WAF identified. This direct institutional hosting posture provides identifiable infrastructure context, while the absence of a CDN is simply an architectural characteristic rather than a negative trust signal.

Closing Assessment

Standard banking interaction is appropriate, subject to ordinary financial-sector checks for authorization and transaction-specific requirements.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about albaridbank.ma at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
