## The page as captured

<https://alejandravergara.cl/>

What alejandravergara.cl served when TrustSniffer captured it on 2026-08-21. The page may look different now.

## Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2024.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

## Full analysis

### Security Alert

Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website presents itself as the online practice of Alejandra Vergara, a private Chilean attorney serving civil and family-law clients. Its pages describe legal consultations and services including divorce, mediation, child-support matters, arbitration, corporate assistance, and civil litigation, with contact and appointment facilities intended to acquire clients for paid legal services.

### Scam/Impersonation Risk

The site's visible content is consistent with a small professional-services practice and does not show a login form, payment workflow, wallet connection, or other obvious phishing mechanism. However, this benign presentation is materially contradicted by confirmed external blacklist findings and multiple malicious detections, including a Tier-1 security-vendor detection. The available evidence does not establish a brand-impersonation or conflicting-legal-identity finding, but the confirmed blacklisting creates a serious risk for sensitive interaction and overrides the otherwise ordinary appearance of the homepage. The website's real-world identity is only assessed as likely, not independently verified.

#### EVIDENCE

- Homepage: presents a civil and family-law practice under the name Alejandra Vergara, with professional biography, services, office details, and an appointment contact form.
- Homepage behavior: no login form, hidden form, password submission, wallet connection, clipboard hijacking, or wallet-drainer activity was detected.
- External reputation assessment: 11 malicious detections and 1 suspicious detection were recorded, with the domain also present on an external blacklist.
- Domain registration: registered 2021-12-02 and approximately 4.72 years old; registrar recorded as NIC Chile.

#### Regulatory Verification Notes

The available pages provide an attorney name, professional description, contact information, and an office-based service model, but the supplied content does not show a licensing authority, bar-registration number, or other independently verifiable professional-registration reference. This is a regulatory-transparency gap rather than proof of fraud. The site should therefore not be treated as a verified regulated legal provider solely because it presents legal services. Transport security and identifiable hosting are technical properties, not evidence that the operator is licensed or that the external blacklist findings are erroneous.

#### EVIDENCE

- Legal-services homepage: no license number or licensing authority is disclosed in the supplied page content.
- Hosting infrastructure: served from AS270014, identified as GRUPO CG LIMITADA, CL; registry recorded as LACNIC and country as Chile.
- Site transport encryption: TLS certificate issued by YR2 at DV validation level, valid to 2026-10-14T21:07:50+00:00.
- Archive record: 6 snapshots spanning 2024–2025, representing 2 years tracked; archival coverage is sparse relative to the recorded registration period.

#### What to Verify Next

Before any sensitive engagement, an independent check should confirm that Alejandra Vergara is currently authorized to provide legal services in the relevant Chilean jurisdiction and that the office address and telephone details correspond to her through an official or independently obtained source. Any proposed retainer, bank-transfer instruction, or document request should be validated through an offline channel or a trusted directory rather than relying solely on contact details supplied by the website. The external detections should also be escalated to the organization's security team before the domain is permitted for credentialed or financial use.

## EVIDENCE

- Homepage: provides a named attorney, telephone number, office address, business hours, and a contact form that can be cross-checked independently.
- Homepage links: includes a LinkedIn reference that may assist with identity correlation, but does not by itself verify professional authorization.
- Contact workflow: contains one appointment-oriented contact form and no sensitive form or untrusted submission destination was detected.

## Summary Verdict

The overall posture is **critical and unsuitable for sensitive interaction**. Although the site's content has the appearance of a conventional local law practice, confirmed external threat and blacklist signals create a decisive contradiction that prevents the website from being treated as trustworthy for credentials, confidential documents, payments, or other high-impact activity.

## Infrastructure Integrity

The domain resolves directly to a likely origin address, 177.221.140.238, hosted through AS270014 / GRUPO CG LIMITADA in Chile. No CDN or WAF was detected, so the site does not benefit from an identifiable mainstream edge-protection layer; the valid DV TLS certificate protects transport confidentiality but does not establish operator legitimacy.

## Closing Assessment

Organizational controls should restrict the site to passive viewing unless and until the external detections are resolved and the attorney's identity and authorization are independently confirmed; credentials, confidential legal materials, and financial transactions should not be submitted through the website in its current state.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

## What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

### 01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF\_WHOIS\_INCOMPLETE

### 02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Analysis engine signal:direct\_threat

- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

External reputation rule:EXT\_BLACKLIST\_CRITICAL

## Identity verification

|                                  |        |
|----------------------------------|--------|
| Status                           | LIKELY |
| Identity score                   | 73/100 |
| Identity verification confidence | 74%    |

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

## What TrustSniffer observed

First-party facts recorded during the assessment of alejandravergara.cl.

- The request stayed on alejandravergara.cl. It was not redirected to another domain. CLEAR
- Registration is published under NIC Chile. CLEAR
- DNS for this domain is served by msadns.net, across 2 name servers. NOTED
- The registration is paid up to 2027-12-02. CLEAR
- The earliest public archive of this site is from 2024-04-20. CLEAR
- It is hosted on AS270014, from a server in CL. NOTED

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about alejandravergara.cl at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
