

Is alfaristech.com a scam? TrustSniffer's high-risk assessment: 0/100

alfaristech.com

Verdict

0

OUT OF 100

CRITICAL RISK

alfaristech.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

A Hostinger-served parked domain page advertising hosting, website builder, VPS, domain search, and professional email services. No forms or transactional flows present on the page.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

At a glance

The checks that decide most of this verdict.

Malware engines	16 flagged it VirusTotal	RISK

Certificate	Encrypted connection Issued by YE2	NOTED

The page as captured

<https://alfaristech.com/>

Registered at  **HOSTINGER**

If this is your domain, you can manage it in your Hostinger account.

What alfaristech.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

alfaristech.com presents a Hostinger parked-domain landing page rather than an operating business service. It tells visitors that the domain is parked on Hostinger's DNS system and promotes Hostinger offerings including website hosting, AI-assisted website building, VPS hosting, domain search, and professional email, with the apparent purpose of generating hosting and domain-related signups.

Scam/Impersonation Risk

Sensitive interaction risk is critical. Although the observed homepage is a standard parked page with no login form, sensitive form, wallet function, or apparent brand-impersonation content, external threat intelligence identified the domain as malicious in 16 evaluations and recorded blacklist hits, including a Tier-1 detection from Sophos. The decisive concern is therefore not the page's limited commercial content but the convergence of confirmed blacklist status and multiple malicious detections. Separate abuse reports concern the shared hosting IP rather than being uniquely attributed to this domain; that attribution does not remove the domain-level threat

findings. No identity contradiction, phishing indicator, or brand impersonation was observed in the supplied page evidence.

EVIDENCE

- External reputation checks recorded 16 malicious detections, a confirmed blacklist, and a Sophos Tier-1 threat detection for the domain.
- The homepage is classified as a parked or holding page and contains no login form, sensitive form, wallet connection, or hidden form.
- Registration telemetry reports a creation date of 2026-07-31 and an age of approximately 0.05 years; archival provenance separately records first seen on 2021-11-25 and a domain age of 4.733744010951403 years.
- The available archive record contains 0 snapshots, with first seen and last seen on 2021-11-25 and 1 year tracked.

Regulatory Verification Notes

The site does not present an operating financial, investment, or regulated-service proposition; it is a parked commercial landing page. Nevertheless, the supplied homepage does not identify an operating company, provide a registration number, or disclose a regulatory license, so the real-world operator identity remains unverified and the disclosure position is unclear. This is a transparency and verification gap rather than, by itself, proof of fraud. The absence of a broker match in the supplied third-party dataset provides no affirmative regulatory or legal validation.

EVIDENCE

- The homepage identifies the domain as parked on Hostinger's DNS system rather than presenting a named operating entity.
- No license, registration number, or regulated-service disclosure is shown in the supplied page content.
- The domain is hosted on AS47583, AS-HOSTINGER — Hostinger International Limited, Cyprus.
- The site's TLS certificate is issued by YE2 at DV validation level and is valid to 2026-10-29.

What to Verify Next

Before any sensitive interaction, an institution should establish through an independent channel whether the domain is intentionally controlled by the claimed business or is merely an unused or repurposed domain. Any asserted corporate registration or regulated activity should be checked directly against the relevant official registry, and official contact channels should be confirmed through an independently sourced route rather than through the site alone. If the domain's operational purpose changes from a parked page to a service requiring accounts, credentials, or payments, that change should trigger a fresh technical and reputation assessment.

EVIDENCE

- The homepage provides only a parked-domain notice and promotional hosting links, not an identifiable operating service.
- The supplied identity-verification status is unverified, with no independent identity signals recorded.
- The site currently exposes no transactional flow or sensitive input form on the observed page.

Summary Verdict

The website has a **critical trust posture** and should be treated as unsuitable for sensitive interaction. The apparent benign nature of the parked page does not offset the confirmed external threat detections and blacklist status. Its legitimacy and real-world operator identity are not established by the available evidence.

Infrastructure Integrity

The domain resolves to one observed Hostinger address, 2.57.91.91, on AS47583, AS-HOSTINGER — Hostinger International Limited, Cyprus; no CDN or WAF edge deployment was detected, and the address is assessed as a likely origin. The valid DV TLS certificate provides transport encryption, but hosting and encryption are mitigating technical properties only and do not establish legitimacy.

Closing Assessment

Access should remain limited to passive observation, with no login, credential submission, payment, or other sensitive interaction unless independent ownership and purpose checks produce affirmative results.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

External reputation rule:EXT_BLACKLIST_CRITICAL

Signals weighed against the site

- AbuseIPDB: 28 reports on hosting IP 2.57.91.91 (Hostinger International Limited, Content Delivery Network), 33% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of alfaristech.com.

- The request stayed on alfaristech.com. It was not redirected to another domain. CLEAR
- Registration is published under HOSTINGER operations, UAB. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2029-07-31. CLEAR
- The earliest public archive of this site is from 2021-11-25. CLEAR
- It is hosted on AS-HOSTINGER, from a server in CY. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about alfaristech.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
