Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website is a minimal “Coming Soon” landing page for alifefinancial.com, stating that the site is under construction and offering no visible product, service, transaction facility, or clear explanation of its intended financial business model.

Scam/Impersonation Risk

The site presents a **critical sensitive-interaction risk** because external security intelligence recorded a confirmed blacklist hit and multiple malicious detections associated with the domain. The landing page itself contains no login, payment, or active service functionality, so it does not independently demonstrate an operational scam mechanism; however, the external detections are a material contradiction that outweighs the page’s otherwise limited and non-interactive presentation. Abuse reports associated with a Squarespace content-delivery IP are attributed to shared infrastructure and therefore do not, alone, prove that the reports concern this specific site. No conflicting legal-entity names or direct brand-impersonation indicators were observed in the supplied page content.

EVIDENCE

- The homepage is labelled “Coming Soon” and states that the site is under construction, with no interactive elements or active service.
- External reputation telemetry recorded 14 malicious detections and 0 suspicious detections across 19 effective results, together with a confirmed blacklist hit.
- Abuse reporting recorded 33 reports against IP address 198.185.159.144, attributed to Squarespace shared infrastructure rather than specifically to the website.
- Archive records show 1 snapshot first seen on 2023-02-24 and last seen on 2023-02-24, with 1 year tracked.

Regulatory Verification Notes

The available content does not provide an operating business description, legal terms, licensing information, registration number, or regulatory authority. This is a significant verification gap for a site using a financial-group name, although the page is only a placeholder and makes no visible financial offer. The registration record identifies Abundant Life Financial Group as the organization and Squarespace Domains II LLC as registrar, but the site's real-world operator remains independently unverified. No matching broker-reputation record was returned; that absence is contextual only and is not evidence of authorization or regulatory standing.

EVIDENCE

- The homepage contains only the “Coming Soon” and under-construction statements; no legal, licensing, or regulatory disclosures are displayed.
- The domain registration record lists creation date 2026-06-03 and an archive-reconciled domain age of 3.488021902806297 years.
- The registrar is Squarespace Domains II LLC; the registration record lists the organization as Abundant Life Financial Group.
- The site's transport encryption uses a DV certificate issued by YR1, valid until 2026-10-26T18:41:58+00:00.

What to Verify Next

Before any future engagement, an independent registry search should confirm whether Abundant Life Financial Group is a real and appropriately authorized entity for any financial activity eventually presented on the domain. Any claimed affiliation, account facility, investment product, or payment destination should be validated through an independently sourced telephone number or official corporate record rather than through contact details later published on the site. The domain should be reassessed if it begins accepting credentials, funds, applications, or other sensitive information.

EVIDENCE

- The captured homepage provides no corporate contact route through which the operator can be independently authenticated.
- No financial service, payment flow, account function, or return-related claim is currently exposed for validation.
- The registration record supplies an organization name but does not independently establish that the website is operated by that entity.

Summary Verdict

The overall posture is **critical**, with the site unsuitable for sensitive interaction and its legitimacy not established by the available evidence. The current placeholder presentation does not offset the confirmed external threat indicators, and operator identity remains unverified.

Infrastructure Integrity

The site is hosted by Squarespace, Inc. in the United States. Infrastructure data identifies no CDN edge IPs and four likely origin IP candidates; mainstream hosting and transport encryption provide limited technical mitigation but are not evidence of legitimacy.

EVIDENCE

- Hosted on AS53831 (SQUARESPACE — Squarespace, Inc., US).
- Resolved infrastructure comprises 4 unique IPs, including 4 likely origin candidates and 0 identified CDN edge IPs.
- The hosting registry is ARIN and the hosting country is the US.

Closing Assessment

Sensitive actions should not be undertaken unless independent corporate, regulatory, and security validation produces a clear basis for trust; passive observation is the only proportionate current use.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The page exchanged network traffic with destinations TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_TRAFFIC
- The page sent data to a destination TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS
- Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Signals weighed against the site

- AbuseIPDB: 33 reports on hosting IP 198.185.159.144 (Squarespace, Inc., Content Delivery Network), 30% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about alifefinancial.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
