

Is allbyresults.com legit? TrustSniffer's high-trust assessment: 80/100

allbyresults.com

Verdict

80
OUT OF 100

HIGH TRUST

allbyresults.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

A Chinese-language informational site for the movie '熊出没之夺宝熊兵' offering plot summary, character bios, galleries, reviews, and screening/playback information. Content appears editorial and community-driven with comments and ratings.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

- Automated classification: Not Scam.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2006.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is a Chinese-language informational and fan site dedicated to the animated film “熊出没之夺宝熊兵” (“Boonie Bears: To the Rescue”), presenting plot information, character biographies, galleries, reviews, ratings, series recommendations, and viewing-schedule information. Its apparent purpose is editorial audience engagement, potentially supported by advertising, affiliate streaming links, or promotional partnerships rather than direct financial services.

Scam/Impersonation Risk

No scam, phishing, impersonation, or other identity contradiction was observed. The homepage presents structured editorial material, including film details, character information, user ratings, and viewing information, without a login form, sensitive-data form, wallet connection, or detected credential-collection mechanism. Behavioral telemetry did note substantial interaction with external network destinations, but this was not accompanied by cloaking, hidden forms, password submission, wallet activity, clipboard manipulation, or other abuse patterns; the signal is therefore more consistent with embedded or third-party content than with a confirmed fraud mechanism. The site's “official information station” presentation should remain an unverified site claim rather than proof of an authorized relationship with the film's rights holder.

EVIDENCE

- The homepage contains plot, character, gallery, review, rating, and screening-information sections and records no red-flag content indicators.
- The homepage analysis found no login form, sensitive form, hidden form, wallet connection, or external password submission.
- Evaluated external reputation checks recorded zero malicious detections and no confirmed phishing or impersonation finding.
- The domain was registered on 2025-05-20 and is approximately 1.25 years old.

Regulatory Verification Notes

This is an informational entertainment site rather than a service presenting itself as a regulated financial or investment entity, so no financial licence claim was identified as relevant to its stated business model. The analyzed content does not independently verify the operator behind the “official information station” wording, and no licensing or registration number is presented in the available site material; this is a transparency and affiliation-verification matter, not evidence of a scam. The available technical and reputation signals are

nevertheless consistent with a functioning, established-looking website, while the site's real-world operator remains unverified.

EVIDENCE

- The homepage identifies the service as an information and viewing guide for the film and related series content, with no financial-service or regulated-investment offering.
- The site's TLS certificate is issued by YR1 at DV validation level and is valid through 2026-11-13.
- The site's hosting infrastructure is served through AS54801, identified with Zillion Network Inc.
- The site's registration record identifies Gname.com Pte. Ltd. as registrar.

What to Verify Next

Before any credential submission, payment, or redirected viewing transaction, independently confirm that the claimed official affiliation and any destination service are authorized and genuine. Review the applicable terms, privacy information, refund or cancellation arrangements, and payment protections where a third-party viewing or commercial flow is offered. Official contact channels should be confirmed through an independent route rather than relying solely on information presented on the site.

EVIDENCE

- The homepage labels the service as an “official information station,” creating a specific affiliation claim suitable for independent confirmation.
- The viewing schedule names Tencent Video and iQIYI as playback destinations, providing concrete third-party destinations for validation.
- The homepage presents “立即观看” (“watch now”), “免费试看” (“free preview”), and “高清播放” (“HD playback”) actions, which should be checked for destination and commercial terms before use.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate informational website with a high-trust, low-risk posture. No contradictory scam or impersonation signals were observed, although the real-world operator and claimed affiliation are not independently verified.

Infrastructure Integrity

The site resolves through hosting associated with AS54801 and Zillion Network Inc.; no CDN or WAF was detected, and no origin-candidate infrastructure was identified. This represents a conventional direct-hosting posture rather than an edge-protected deployment, but the available infrastructure evidence does not indicate a malicious hosting pattern.

Closing Assessment

Normal informational browsing is proportionate to the assessment; any credential or payment interaction should remain conditional on independent confirmation of the operator, destination service, applicable terms, and available payment protections.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of allbyresults.com.

- The request stayed on allbyresults.com. It was not redirected to another domain. CLEAR
- Registration is published under Gname.com Pte. Ltd.. CLEAR
- DNS for this domain is served by share-dns.com, across 2 name servers. NOTED
- The registration is paid up to 2027-05-20. NOTED
- The earliest public archive of this site is from 2006-03-23. CLEAR
- It is hosted on ZILLION-NETWORK. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about allbyresults.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
