

Is allegro-assai.fr a scam? TrustSniffer's high-risk assessment: 5/100

allegro-assai.fr

Verdict

5
OUT OF 100
CRITICAL RISK

allegro-assai.fr shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Website for Allegro Assai, an amateur opera troupe in France. Contains a security notice about false detections, contact invitation, description of the ensemble and an upcoming performance. No forms or ecommerce detected.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Information de sécurité :

Notre site est actuellement signalé par erreur comme potentiellement dangereux par certains logiciels de sécurité (notamment Kaspersky).

What allegro-assai.fr served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2013.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

Allegro Assai is an informational French-language website for an amateur opera troupe, presenting the ensemble, its performances across France, cultural and private-event engagements, and an upcoming production based on works by Donizetti. Its apparent business model is cultural promotion supported through performances, event bookings, ticketing, or related contributions rather than online financial services.

Scam/Impersonation Risk

No brand-impersonation or phishing indicators were identified in the page content, and the homepage presents a coherent cultural purpose with no login, payment, or sensitive-data form. However, this benign presentation conflicts with confirmed external threat detections and a confirmed blacklist status. The homepage's notice that some security software has allegedly produced false detections—including a reference to Kaspersky—does not resolve the separate external reputation signal. Accordingly, the site should be treated as unsuitable for credentials, financial transactions, downloads, or other sensitive interaction until the contradiction is independently explained.

EVIDENCE

- The homepage identifies “Allegro Assai” as an amateur opera troupe and promotes the performance “Deux mariages et pas d’enterrement,” based on “La fille du régiment” and “Rita.”
- External reputation evidence recorded 6 malicious detections and 1 suspicious detection, together with a confirmed blacklist result.
- Domain registration: 2023-09-09 (~2.95 years old).
- Web-archive records: 108 snapshots spanning 2013–2026 (14 years tracked).

Regulatory Verification Notes

The site includes a “Mentions légales” reference, but the supplied page content does not independently establish the legal operator, organizational registration, or any regulatory authorization. This is a material disclosure gap for any payment, donation, booking, or commercial engagement, although it is not by itself proof of fraud. Identity verification remains unconfirmed, and the available evidence does not connect the website conclusively to a real-world entity. The absence of a broker-dataset match provides no licensing or regulatory assurance.

EVIDENCE

- The homepage displays a “Mentions légales” reference but supplies no independently verified operator details in the captured content.
- The site presents an informational cultural business model and contains no sensitive forms or ecommerce functionality.
- Hosted on AS16276, OVH - OVH SAS, FR.
- TLS certificate: issuer YE2, DV validation, valid to 2026-10-10T01:38:19+00:00.

What to Verify Next

Before any payment, donation, booking commitment, account creation, or download, an institution should obtain the operator’s legal identity and independently confirm it through relevant French business or cultural-organization records. Any ticketing or payment destination should be reached through an independently sourced channel and assessed for payment protection, refund terms, and beneficiary consistency. Official contact channels should also be confirmed through an offline or independently established route rather than relying solely on the website.

EVIDENCE

- The supplied content describes performances, festivals, private events, and cultural activities but does not provide verified commercial or organizational registration details.
- The homepage contains no forms, login functionality, ecommerce workflow, or external sensitive-data submission.
- The site’s legal-information reference is present but its underlying disclosures were not established in the supplied evidence.

Summary Verdict

The overall posture is **critical trust risk** because confirmed external threat detections and blacklist status outweigh the site’s otherwise benign cultural presentation and technically functioning web service. The operator’s real-world identity is not independently verified, so the site should not be treated as established or cleared for sensitive engagement.

Infrastructure Integrity

The website is served through OVH - OVH SAS infrastructure and is protected by a CDN/WAF layer; the observed addresses were edge infrastructure, and no origin server address was identified. This provides a limited exposure-mitigation benefit but does not establish legitimacy or offset the reputation contradiction.

Closing Assessment

Sensitive interaction should be suspended pending independent validation of the operator, the site’s security status, and any proposed payment or engagement channel.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of allegro-assai.fr.

- The request stayed on allegro-assai.fr. It was not redirected to another domain. CLEAR
- Registration is published under OVH. CLEAR
- DNS for this domain is served by anycast.me, across 2 name servers. NOTED
- The registration is paid up to 2026-09-09. NOTED
- The earliest public archive of this site is from 2013-07-10. CLEAR
- It is hosted on OVH, from a server in FR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about allegro-assai.fr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
