

Is almadaroyg.com.py a scam? TrustSniffer's high-risk assessment: 0/100

almadaroyg.com.py

Verdict

0

OUT OF 100

CRITICAL RISK

almadaroyg.com.py shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Website for Almada Royg, an accounting firm based in Asunción offering comprehensive accounting, tax, labor, corporate and legal advisory services and selling pre-formed corporations. Contact phone and email are published; site appears informational and commercial for professional services.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://almdaroyg.com.py/>

What almdaroyg.com.py served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

Almda Royg is a Paraguayan professional-services website presenting an accounting and corporate-advisory practice in Asunción, with an apparent business model based on accounting, tax, labor, corporate and legal advisory services together with the sale of pre-formed corporations.

Scam/Impersonation Risk

The site's presentation is coherent and does not itself show a login form, phishing form, wallet interaction, or obvious high-risk financial promotion. However, **confirmed blacklist and malicious-detection signals create a material contradiction to the otherwise professional appearance**: external reputation assessment recorded ten malicious detections and two suspicious detections, including a Tier-1 threat detection, and the domain was present on external blacklist sources. No conflicting legal-entity names, direct brand impersonation, or phishing mechanism were identified in the supplied page findings, but the external detections are sufficient to require a high-risk treatment for credentials, financial transactions, or transmission of sensitive business

documents. The domain also has multi-year continuity, which is a limited provenance signal but does not neutralize the current reputation conflict.

EVIDENCE

- The homepage presents a professional accounting and corporate-services identity with descriptive content and no detected login or sensitive submission form.
- External reputation telemetry recorded 10 malicious detections, 2 suspicious detections, and a confirmed blacklist result from 2 external blacklist sources.
- The domain continuity record indicates an age of 8.03 years.

Regulatory Verification Notes

The site describes services covering fiscal, labor, accounting, corporate and legal advisory matters and advertises the sale of constituted companies. Those activities require independent confirmation of the operating entity, the professionals responsible, and any applicable Paraguayan authorizations; the supplied evidence does not establish those matters. The site's identity remains unverified, and governance disclosures are unclear. The absence of a matched third-party broker profile is only a neutral contextual signal, not evidence of licensing or legitimacy. A valid transport certificate and stable technical delivery provide technical assurance for the connection, not proof of the business or its regulatory standing.

EVIDENCE

- The site's "Nosotros" content states that the practice serves national and foreign companies from 2005 and is based in Asunción.
- The services and "Venta de Sociedades" sections describe accounting, tax, labor, corporate, legal-advisory and pre-formed-company services.
- The site's transport encryption uses a valid DV certificate issued by YE1, expiring 2026-09-27.
- The site is served through AS47583, identified as AS-HOSTINGER / Hostinger International Limited, CY.

What to Verify Next

Before any sensitive engagement, an independent check should confirm the legal existence of Almada Royg, the identity of the responsible professionals, and the authority to provide the advertised advisory and company-formation services through the relevant Paraguayan registries or professional bodies. Any proposed company purchase should be validated directly with the competent corporate registry, including the company's status, beneficial ownership, liabilities and authority of the seller. Contact channels should be confirmed through an independently obtained telephone number or offline business record, and payment should use a method offering dispute and recovery protections. Until those checks are complete, the site should be limited to non-sensitive review rather than credential submission, document transmission or financial commitment.

EVIDENCE

- The homepage and “Nosotros” content provide service and location claims but do not independently verify the operating entity.
- The “Venta de Sociedades” and FAQ content establish that company-formation or company-sale services are part of the proposed engagement.
- The contact page publishes contact details suitable for comparison against an independently sourced business record.

Summary Verdict

The website has a professional informational presentation and some indicators of operational continuity, but the convergence of confirmed external blacklist and malicious-detection signals results in a **critical sensitive-interaction risk posture**. The apparent business identity is not independently verified, and the current evidence does not support treating the site as suitable for sensitive or financial interaction.

Infrastructure Integrity

The site resolves to a single likely origin address rather than a detected CDN edge, and the hosting infrastructure is provided by Hostinger International Limited. This arrangement is technically straightforward but offers limited protective separation from the origin; it is a mitigating infrastructure fact only and does not offset the external reputation findings.

EVIDENCE

- Resolved hosting: AS47583, AS-HOSTINGER / Hostinger International Limited, CY; IP address 185.213.81.190, country DE.
- Infrastructure analysis recorded 1 unique IP, 0 edge IPs, and 1 likely origin IP.
- No CDN was detected.

Closing Assessment

Sensitive interaction should be deferred unless independent identity, regulatory and corporate-record checks produce satisfactory results; credentials, confidential documents and financial commitments should not be submitted on the basis of the website alone.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by analysis engine, external reputation.

01 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of almadaroyg.com.py.

- The request stayed on almadaroyg.com.py. It was not redirected to another domain. CLEAR
- The earliest public archive of this site is from 2018-08-09. CLEAR
- It is hosted on AS-HOSTINGER, from a server in DE. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about almadaroyg.com.py at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that

evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
