Full analysis

Overview

This website is the online presence of Al's Quality Painting, a San Diego-area residential and commercial painting contractor. It presents interior and exterior painting, cabinet painting, wall retexturing, popcorn-ceiling removal, garage epoxy flooring, service-area information, a gallery, company information, and a free-quote contact form, with the apparent purpose of generating local service enquiries and paid project bookings.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, malicious-detection, or conflicting-identity signal was observed. The site's content is consistent with a local contractor rather than a credential-harvesting or investment platform, and its contact form requests ordinary lead information rather than passwords or payment credentials. Two abuse reports relate to a shared Amazon content-delivery IP, carry zero confidence, and are specifically attributed to shared provider infrastructure rather than to this website; they therefore do not establish site-specific abuse. The available evidence supports an apparently legitimate, low-risk website, while the real-world operator identity remains independently unverified.

EVIDENCE

- The homepage identifies “Al’s Quality Painting, Inc.,” presents San Diego County service areas, and displays license number 699636.
- The site’s behavior showed no login form, hidden form, wallet connection, clipboard hijacking, phishing indicator, or brand-impersonation pattern.
- External reputation checks recorded 0 malicious and 0 suspicious detections; the two IP abuse reports were attributed to shared Amazon infrastructure and discounted.
- Domain registration evidence: created 2002-07-23T20:08:29Z and approximately 24.09 years old; registrar: Wix.com Ltd.

Regulatory Verification Notes

The website provides a business name, physical address, telephone numbers, service descriptions, and a license number, which is materially stronger than an anonymous lead-generation page. However, the supplied evidence does not independently verify the license or establish the legal operator behind the site, so the identity and regulatory position should be treated as evidence-consistent rather than proven. The domain is long-established, the site has a sustained archival presence, and transport security is active. No separate broker-reputation match was identified. The site is therefore apparently legitimate, with licensing verification remaining a normal diligence item rather than evidence of a scam.

EVIDENCE

- The homepage and contact content provide the business name, address, phone numbers, quote form, and license number 699636.
- Archive records show first seen 2004-03-22T05:25:41Z, last seen 2025-10-10T13:01:54Z, and 22 years tracked.
- The domain was registered through Wix.com Ltd. and has an expiration date of 2029-07-23T20:08:29Z.
- Hosted on AS16509 (Amazon.com, Inc., US); TLS certificate issued by YR1 at DV validation level, valid to 2026-09-17T18:52:12+00:00.

What to Verify Next

Before entering into a substantial service contract, an independent check should confirm that license 699636 corresponds to the named painting business and covers the relevant work location. The contracting party should also be matched across the quote, invoice, service agreement, and payment recipient, with cancellation, warranty, and refund terms confirmed before payment. For any credential or payment interaction, official contact channels should be confirmed through an independent route rather than relying solely on information supplied in a message or advertisement.

EVIDENCE

- The site publishes license number 699636 but the available evidence does not independently verify it.
- The contact page provides a quote form collecting name, phone number, email address, ZIP code, and project details.
- The site describes free estimates and paid residential and commercial project work.
- The site's transport encryption is active with a DV certificate.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website with a low-risk interaction profile and no observed scam or impersonation contradictions. The classification is strong, but it does not independently prove the real-world operator's identity.

Infrastructure Integrity

The website is protected by a CDN/WAF arrangement using Amazon edge infrastructure. Observed edge addresses belong to AS14618 (Amazon.com, Inc., US), with no origin candidate identified; this reduces direct origin exposure and is a mitigating infrastructure characteristic, not proof of legitimacy.

Closing Assessment

Ordinary browsing and service enquiries are proportionate, while independent confirmation of the contracting business, service terms, and payment protections should precede credential submission or material payment commitments.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Signals weighed against the site

- AbuseIPDB: 2 reports on hosting IP 76.223.58.8 (Amazon.com, Inc., Content Delivery Network), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about alsqualitypainting.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
