Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2015.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This is the corporate website of AL MAOULI BUILDING CLEANING SERVICES LLC (AMBCS), presenting commercial, residential, and specialist cleaning services in Dubai and Oman. Its apparent business model is the sale of contract-based and recurring cleaning and janitorial services to businesses, property owners, and residential customers.

Scam/Impersonation Risk

A material external reputation contradiction is present. Multiple external reputation checks recorded malicious or suspicious detections, and the domain is confirmed blacklisted by evaluated sources. This finding conflicts with the site's otherwise conventional presentation as a cleaning-services company, which includes service descriptions, contact details, social links, and no observed login form, credential collection, wallet connection, or other phishing-oriented interaction. The available evidence does not establish brand impersonation, phishing functionality, or an identity contradiction between two legal-entity names; however, the confirmed blacklist is sufficient to make sensitive interaction inappropriate.

EVIDENCE

- The homepage presents AMBCS as a Dubai-and-Oman cleaning company offering residential deep cleaning, office, retail, restaurant, school, warehouse, post-construction, event, and other facility-cleaning services.
- External reputation assessment recorded 4 malicious and 2 suspicious detections among 6 evaluated detections, with an external blacklist flag set to true.
- The homepage's behavioral assessment recorded no login form, hidden form, wallet connection, wallet-drainer activity, clipboard hijacking, cloaking, or suspicious inline scripts.
- Domain registration continuity is 11.3347 years.

Regulatory Verification Notes

The About and Contact content identifies AL MAOULI BUILDING CLEANING SERVICES LLC and describes operations in Dubai and Oman, with office-address information, phone details, a P.O. box, and published contact channels. The site does not present a license number or licensing authority in the supplied content, so the legal and regulatory standing of the service provider remains a verification matter rather than an established fact. The technical registration record names AL MAOULI BUILDING CLEANING SERVICES, which is broadly consistent with the on-page business identity, but the available evidence does not independently verify the real-world operator. Transport security is present, although domain-validated TLS confirms encryption rather than corporate identity.

EVIDENCE

- The About page states that AMBCS has provided commercial and residential cleaning services since 2010 and describes its mission, procedures, and service capabilities.
- The Contact page supplies phone numbers, a P.O. box, office-address information, and email contact channels.
- The technical registration record lists the owner as "AL MAOULI BUILDING CLEANING SERVICES."
- TLS is valid through 2026-11-03T09:14:05+00:00, issued by YR2 at DV validation level.

What to Verify Next

Before any contract, site visit, deposit, or payment, the proposed counterparty should confirm the company's registration and applicable cleaning or facilities-management permissions directly with the relevant Dubai and Oman authorities. Contact details should be independently corroborated through an offline or separately sourced business record, and any quotation should be matched to a signed agreement specifying the legal contracting entity, service location, payment destination, cancellation terms, and liability arrangements.

EVIDENCE

- The site's About and Contact pages provide the business name, operating locations, and contact particulars that can be compared with official registries.
- The service pages describe a broad range of commercial and residential engagements, making confirmation of the contracting entity and scope important before payment.
- The site contains no sensitive submission form, so verification should occur through independently sourced channels rather than through credential or payment entry on the website.

Summary Verdict

The overall posture is **critical trust risk** for sensitive interaction. The apparent cleaning-services purpose and coherent on-page identity do not offset the confirmed external reputation contradiction, and the available evidence is insufficient to support account, credential, or financial engagement.

Infrastructure Integrity

The site resolves to hosting on AS46606, Unified Layer, in the United States, with a single observed IP address and no CDN or WAF edge identified. A valid DV certificate issued by YR2 provides transport encryption, but the hosting and certificate posture are mitigating technical conditions only and do not resolve the external reputation finding.

Closing Assessment

The site should be limited to non-sensitive viewing while independent business, regulatory, and payment checks are completed; login, credential submission, deposits, and other financial interactions should not proceed beforehand.

Written analysis generated 2026-08-19 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Analysis engine signal:direct_threat

- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of ambcs.ae.

- The request stayed on ambcs.ae. It was not redirected to another domain. CLEAR
- The earliest public archive of this site is from 2015-04-19. CLEAR
- It is hosted on UNIFIEDLAYER-AS-1, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about ambcs.ae at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that

evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
