

Is ameechapman.com legit? TrustSniffer's high-trust assessment: 100/100

ameechapman.com

Verdict

100

OUT OF 100

HIGH TRUST

ameechapman.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Official-looking WordPress-based artist site for Amee Chapman (Sagebrush Soul) with biography, music, tour dates, press kit and shop. Social embeds present; no requests for sensitive data or financial transactions beyond typical commerce/booking context.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://www.ameechapman.com/>

What ameechapman.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2002.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

Amee Chapman's "Sagebrush Soul" is an artist and portfolio website presenting biographical material, music releases, tour information, a press kit, merchandise, and booking contact options; its apparent business model is promotion and monetization through music, performances, merchandise, and related bookings.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or other contradictory signals were observed. The site's content is consistent with an artist portfolio, and its observable behavior showed no login form, sensitive-data form, wallet activity, clipboard manipulation, or suspicious external posting. A limited abuse-report signal relates to a shared hosting address rather than the website specifically; it was treated as non-attributable because the address is shared infrastructure, whitelisted, and associated with zero-confidence reporting. The overall evidence therefore supports an apparently legitimate, low-risk site, while not independently proving the real-world operator's identity.

EVIDENCE

- The homepage presents an artist identity, music content, tour-related material, and booking navigation without phishing or impersonation indicators.
- The site behavior showed no password forms, hidden sensitive forms, wallet-provider activity, wallet-drainer activity, or clipboard-writing activity.
- The domain was registered in 2002 and is approximately 24.52 years old.
- Historical records contain 119 snapshots spanning 2002–2025, covering 24 tracked years.

Regulatory Verification Notes

The visible business model is ordinary artist, performance, merchandise, and booking activity rather than an activity that presents itself as regulated financial services. A formal legal-entity name, licensing statement, or registration number was not identified in the available identity and business material; this is a transparency item for independent confirmation, not evidence of a scam. The site's apparent legitimacy is supported by its long registration history, clean contradiction checks, established social presence, and valid transport security, although the operator's real-world identity remains likely rather than independently verified.

EVIDENCE

- The registrar is Domain.com, operated by Network Solutions, LLC; the recorded creation date is 2002-02-20 and the expiry date is 2027-02-20.
- The site's transport encryption uses a certificate issued by WE1 with DV validation, valid through 2026-10-31.
- The available identity and business pages provide artist-focused information but do not identify a formal regulated license or registration number.
- No match was returned in the reviewed broker-reputation dataset.

What to Verify Next

Before credential or payment interactions, an independent party should confirm that the booking or merchandise contact route corresponds to the intended artist and should review applicable merchant identity, return, fulfilment, and payment-protection terms. Any booking payment or ticket transaction should also be completed only through a payment method offering appropriate dispute or chargeback protections. If a regulated service is later offered, its licensing should be checked directly with the relevant jurisdictional registry.

EVIDENCE

- The booking page is the designated route for commercial engagement and should be cross-checked through an independent channel.
- The shop page is the relevant transaction surface for reviewing merchant and payment terms.
- The site links to social profiles on Instagram, Facebook, SoundCloud, and Spotify, providing independent channels for identity comparison.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website with a high-trust, low-risk posture and no observed scam or impersonation contradictions. The classification supports normal browsing and ordinary site use, but the operator’s identity should be regarded as likely rather than independently proven.

Infrastructure Integrity

The website is protected by Cloudflare’s CDN/WAF infrastructure, and the observed addresses are CDN edge servers rather than identified origin systems. This reduces direct origin exposure and is a mitigating security characteristic, although protective hosting alone does not establish legitimacy.

EVIDENCE

- Served from AS13335, CLOUDFLARENET – Cloudflare, Inc., US.
- Observed Cloudflare edge IPs are 162.159.136.54 and 162.159.137.54; no origin candidate was identified.
- TLS uses WE1-issued DV validation and remains valid to 2026-10-31.

Closing Assessment

Normal browsing and ordinary engagement are proportionate to the assessed posture; independent confirmation of merchant identity, transaction terms, and payment protections should precede credential submission or payment.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Signals weighed against the site

- AbuseIPDB: 4 reports on hosting IP 162.159.137.54 (Cloudflare, Inc., Content Delivery Network), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	76%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of ameechapman.com.

- The request stayed on ameechapman.com. It was not redirected to another domain.

CLEAR
- Registration is published under Domain.com - Network Solutions, LLC.

CLEAR

- DNS for this domain is served by mydomain.com, across 2 name servers. NOTED
- The registration is paid up to 2027-02-20. NOTED
- The earliest public archive of this site is from 2002-03-05. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about ameechapman.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
