

Is amoyxm.com legit? TrustSniffer's high-trust assessment: 95/100

amoyxm.com

Verdict

95

OUT OF 100

HIGH TRUST

amoyxm.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Amoy厦门 is a Chinese-language regional blog about Xiamen (travel, neighborhoods, culture) with articles about local attractions, travel tips, and design/resource guides (e.g., Magnific/Freeplik). The site appears content-focused and long-running (site stats and ICP record present).

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2012.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is Amoy厦门, a Chinese-language regional blog focused on Xiamen, Minnan culture, local neighborhoods, travel guidance, attractions, history, and design resources. Its apparent business model is content publishing, potentially supported by advertising, affiliate links, or sponsored material rather than direct financial or account-based services.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or conflicting-identity indicators were observed. The homepage presents coherent editorial material, including Xiamen ferry and attraction guidance, local history, and Magnific/Freepik licensing articles; it does not present a login workflow, sensitive-data form, wallet connection, cryptocurrency feature, or credential-harvesting mechanism. An isolated external suspicious classification is a soft reputational signal, but it is not supported by malicious detections, blacklist evidence, abuse reports, or page-level fraud indicators. The available evidence is therefore consistent with an established, apparently legitimate content site, while not independently proving the real-world operator’s identity.

EVIDENCE

- The homepage is categorized as a regional blog and local-news site, with no reported red flags, phishing indicators, or brand-impersonation indicators.
- Domain registration records show creation on 2012-01-03 and an age of 14.64 years; the registrar is Chengdu west dimension digital technology Co., LTD.
- Historical records show coverage from 2012-01-16 through 2026-05-19, spanning 15 years tracked, with no suspicious repurposing or semantic drift detected.
- External reputation checks recorded 0 malicious detections, 1 suspicious classification, 0 abuse reports, and no blacklist hit.

Regulatory Verification Notes

The site appears to operate as an informational blog rather than as a financial, investment, payments, or other regulated service. The supplied page content does not present a licensing claim or license number; this is a limited disclosure gap relevant only if the site later promotes paid services, commercial offers, or regulated activities. The operator's real-world identity remains independently unverified, so the site's apparent legitimacy should not be treated as proof of a particular company or individual. Its long registration continuity, stable content profile, valid transport encryption, and identifiable hosting infrastructure nevertheless provide affirmative support for an established-site assessment.

EVIDENCE

- The homepage describes travel, local culture, history, and design-resource content and does not state a regulated business activity or licensing authority.
- The site is hosted on AS45090, TENCENT-NET-AP – Shenzhen Tencent Computer Systems Company Limited, CN.
- The site's TLS certificate was issued by YR1 at DV validation level and is valid to 2026-11-04T14:03:15+00:00.
- The domain is registered through Chengdu west dimension digital technology Co., LTD, with an expiration date of 2027-01-03T05:27:36Z.

What to Verify Next

Before any credential submission, paid transaction, or commercial reliance, an independent check should confirm the operator's legal identity, the provenance of any advertised service, applicable consumer or merchant terms, refund and return arrangements, and payment protections. If the site expands beyond editorial publishing, any claimed licensing or registration should be checked directly with the relevant official registry. Contact channels and material commercial claims should be validated through an independently sourced route rather than relying solely on information presented on the site.

EVIDENCE

- The homepage contains informational articles but does not establish an independently verified legal operator.
- The supplied content does not provide a licensing number or named licensing authority for independent registry comparison.
- The absence of sensitive forms and wallet-connect behavior supports treating the site primarily as an informational browsing destination.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website with a low scam and impersonation concern. The overall trust posture is high, supported by coherent long-running editorial content and convergent technical and reputation signals, although operator identity is not independently verified.

Infrastructure Integrity

The site is protected by a CDN/WAF layer, and the observed address was an edge endpoint rather than an exposed origin candidate. This reduces direct infrastructure exposure and is a mitigating security control, but it is not, by itself, proof of site legitimacy.

Closing Assessment

Ordinary informational browsing is proportionate; credentials, payments, or other consequential interactions should follow independent merchant-identity, policy, and payment-protection checks before proceeding.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of amoyxm.com.

- The request stayed on amoyxm.com. It was not redirected to another domain. CLEAR
- Registration is published under Chengdu west dimension digital technology Co., LTD. CLEAR
- DNS for this domain is served by myhostadmin.net, across 6 name servers. NOTED
- The registration is paid up to 2027-01-03. NOTED

- The earliest public archive of this site is from 2012-01-16. CLEAR
- It is hosted on TENCENT-NET-AP, from a server in CN. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about amoyxm.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
