

Is amusinc.com.au legit? TrustSniffer's high-trust assessment: 100/100

amusinc.com.au

Verdict

100

OUT OF 100

HIGH TRUST

amusinc.com.au appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 45%.

What this site appears to be

Amusinc Pty Ltd (est. 1992) is an Australian supplier of crane and redemption machines, arcade equipment, plush toys and spare parts. The site lists products, contact details (phone, email) and a physical address in Sunshine, Victoria. No financial services, login, or crypto activity detected.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2007.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Amusinc is an Australian business and product-catalogue website presenting crane and redemption machines, arcade equipment, plush toys, spare parts, cashless payment systems, warranties, and venue-support services. Its apparent business model is direct supply, installation, servicing, and support for amusement equipment used by Australian venues.

Scam/Impersonation Risk

No contradictions were observed: the available evidence contains no phishing, impersonation, confirmed blacklist, malicious-content, or conflicting-identity indicators. The homepage and product pages describe a conventional business-to-business and ecommerce model, while the About page identifies Amusinc Pty Ltd and describes a long operating history in the coin-operated amusement sector. The site's claims that it is the "BEST provider" and "number one provider" are promotional assertions rather than independently substantiated proof, but they do not, in this context, create an identified impersonation signal. The overall content is consistent with an apparently legitimate, low-risk supplier site, although the real-world operator identity remains independently unverified.

EVIDENCE

- The homepage and Products pages list crane machines, chocolate machines, token changers, NAYAX cashless payment systems, arcade games, plush toys, and spare parts as commercial offerings.
- The About page states that Amusinc Pty Ltd was established in 1992 and has been associated with the coin-operated industry since 1980.
- Domain registration continuity: registered 2007 and approximately 18.76 years old; historical records show 107 snapshots spanning 2007–2025, covering 19 years.

Regulatory Verification Notes

This is presented as an amusement-equipment supplier rather than a financial, investment, or crypto service, so the supplied pages do not indicate a financial-services licensing model. The site provides business contact details, a telephone number, a physical address in Sunshine, Victoria, and Terms of Trade, warranty, and spare-parts information. The on-page disclosure position remains unclear for independently confirming the operating entity, and the site's stated corporate history should therefore be treated as an on-site representation rather than proof of identity. Registration records name Web Address Registration Pty Ltd as registrar and AMUSINC PTY LTD as the registrant; these are useful administrative indicators but do not independently verify the operator. No adverse broker-dataset match or external malicious-content finding was present.

EVIDENCE

- The Contact page publishes a telephone number, email contact, and a physical address in Sunshine, Victoria.
- The Terms of Trade, Warranty and Spares, and Spare Parts Orders pages provide commercial-service and transaction-related information.
- The site's transport encryption uses a DV certificate issued by YR1, valid until 2026-09-29.
- The site is served from AS55803, HOSTOPIA-AU – Hostopia Australia Web Pty Ltd, AU.

What to Verify Next

Before credential or payment interactions, an independent counterparty check should confirm that the legal entity named in the site's commercial documents corresponds to the relevant Australian business-register record and to the independently obtained contact details. For purchases, the buyer should review the Terms of Trade and warranty provisions, confirm delivery and return arrangements directly through an independently sourced channel, and use payment methods offering appropriate transaction protection. Any venue-installation or service commitment should be documented in writing before funds or equipment are exchanged.

EVIDENCE

- The About page supplies the site's stated company name and operating-history claim for independent comparison.
- The Contact page provides the business contact and location details needed for an offline or independently sourced confirmation.
- The Terms of Trade and warranty pages identify the documents most relevant to purchase, delivery, service, and remedy checks.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website operating with a low-risk commercial profile. The high-trust classification is supported by converging historical, content, behavioral, transport-security, and external-reputation signals, while the operator’s real-world identity is not independently verified.

Infrastructure Integrity

Observed site behavior was stable, with no cloaking, hidden forms, suspicious scripts, wallet activity, or suspicious network behavior detected during testing. This supports basic operational integrity, but technical stability remains a mitigating signal rather than proof of the operator’s identity.

Closing Assessment

Normal browsing and ordinary commercial engagement appear proportionate, subject to the independent merchant-identity, contractual, return-policy, and payment-protection checks described above.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of amusinc.com.au.

- The request stayed on amusinc.com.au. It was not redirected to another domain. CLEAR
- Registration is published under Web Address Registration Pty Ltd. CLEAR
- DNS for this domain is served by com.au, across 4 name servers. NOTED
- The earliest public archive of this site is from 2007-11-17. CLEAR
- It is hosted on HOSTOPIA-AU, from a server in AU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about amusinc.com.au at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
