Key findings

- Automated classification: Not Scam.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2018.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Anandmishra.org is an informational constituency website for Anand Mishra, presented as a former IPS officer and Member of the Bihar Legislative Assembly representing Buxar, Bihar. It provides biographical information, public-service updates, achievements, events, media, contact channels, and grievance submission rather than offering a commercial, investment, or payment-based service.

Scam/Impersonation Risk

No contradictions were observed: the supplied evidence identifies no phishing, impersonation, blacklist, malicious-content, or brand-conflict indicators. The site's public-facing content is consistent with a political or constituency representative site, and its forms are limited to contact, grievance, and subscription functions without login, password, wallet, or payment collection. Dynamic testing did observe external requests and page-content changes after interaction, but these were not accompanied by hidden sensitive forms, wallet activity, clipboard manipulation, cloaking, or other confirmed abuse behaviors. The identity remains apparent rather than independently verified, so the site should not be treated as conclusive proof of the real-world operator's identity.

EVIDENCE

- The homepage presents “Anand Mishra - MLA, Buxar | Bihar,” with biography, achievements, constituency services, events, media, and contact content.
- The homepage contains two non-sensitive public-service forms described as contact, grievance, and subscription forms; no login or password form was detected.
- Technical interaction testing recorded 2 successful runs, 2 external XHR requests, 2 external POST requests, 4 console errors, and 1,662 maximum DOM changes after interaction, while recording 0 wallet-connect runs, 0 wallet-drainer runs, 0 clipboard-write events, and 0 hidden forms.
- The registration record shows creation on 2025-11-24, with an age of 0.73 years; archived presence is recorded from 2018-09-29 through 2024-08-13, spanning 7 years.

Regulatory Verification Notes

The website's apparent purpose is public representation and constituency communication, not a regulated financial or commercial activity. It makes no financial licensing claim or regulatory-registration claim, so financial licensing is not applicable on the face of the presented business model; the relevant transparency point is instead that the public pages should be read as identity and service information rather than as independent proof of office or governmental affiliation. The available identity signals are consistent with Anand Mishra's stated public role, but identity verification is not conclusive. No matching broker-reputation entry was identified, which is contextual support only and not a licensing determination.

EVIDENCE

- The homepage title identifies Anand Mishra as “MLA, Buxar | Bihar” and describes him as an ex-IPS officer and Member of the Bihar Legislative Assembly.
- The site's content map includes biography, manifesto or vision, achievements and projects, constituency services, news, media, events, and contact information.
- The site's hosting record identifies AS26496, AS-26496-GO-DADDY-COM-LLC — GoDaddy.com, LLC, US.
- The site's transport encryption uses a DV certificate issued by YR1, valid until 2026-10-04 04:29:12 UTC.

What to Verify Next

Before high-value or sensitive engagement, an independent confirmation should establish that the named individual controls the website and that its public-service channels correspond to official constituency channels. Any request received through the site should be cross-checked against independently sourced legislative or constituency contact information, and grievance submissions should contain only the minimum information necessary for the stated purpose. Public claims about projects, funding, medals, and constituency achievements should be corroborated through official government or legislative records where material reliance is contemplated.

EVIDENCE

- The homepage publishes claims including 6 national or state medals, ₹13,420 crore in roads, a development pipeline exceeding ₹1,000 crore, and more than 400 students benefited.
- The homepage lists external social-presence channels on Instagram, X, Twitter, YouTube, Facebook, and LinkedIn.
- The site's forms analysis identifies 2 forms and records no sensitive-form destination or untrusted form destination.

Summary Verdict

The overall posture is **moderate trust** and the evidence supports a legitimate-looking, low-fraud public-information website without observed scam or impersonation contradictions. The site's apparent connection to the stated public representative is plausible but not independently proven, so the assessment supports ordinary informational use while retaining uncertainty around identity assurance and consequential engagement.

Infrastructure Integrity

The site benefits from a CDN/WAF protective layer, and the observed address was an edge address rather than an independently visible origin address. This reduces direct exposure of the origin infrastructure but is a mitigating control only; it does not establish the operator's identity or official affiliation.

EVIDENCE

- The observed edge address is 118.139.182.157 on AS26496.
- The hosting organization is AS-26496-GO-DADDY-COM-LLC — GoDaddy.com, LLC, US, with the infrastructure record locating the service in Singapore.
- The transport certificate is DV-validated, issued by YR1, and expires on 2026-10-04.

Closing Assessment

Informational browsing and routine constituency engagement are proportionate, while high-value commitments or disclosure of sensitive information should follow independent confirmation of the relevant person, office, and communication channel.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, behaviour in a sandbox.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Dynamic Interaction Caution

- The structure of the page changed sharply while it was loading.
Behaviour in a sandbox rule:BEHAV_DOM_DENSITY_SPIKE
- The page sent data to a destination TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=5

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of anandmishra.org.

- The request stayed on anandmishra.org. It was not redirected to another domain. [CLEAR](#)
- Registration is published under GoDaddy.com, LLC. [CLEAR](#)
- DNS for this domain is served by domaincontrol.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2031-11-24. [CLEAR](#)
- The earliest public archive of this site is from 2018-09-29. [CLEAR](#)
- It is hosted on AS-26496-GO-DADDY-COM-LLC, from a server in SG. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about anandmishra.org at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
