

Is andaimescostadosol.com.br safe? TrustSniffer's low-trust assessment: 40/100

andaimescostadosol.com.br

Verdict

40

OUT OF 100

LOW TRUST

andaimescostadosol.com.br is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Small Brazilian equipment rental site (Andaimes Costa do Sol) with address, phone numbers, email, product listings and a contact form. Appears to be an ordinary local business presence.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What andaimescostadosol.com.br served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2019.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

Andaimes Costa do Sol is a Brazilian local-business website for construction-equipment rental in Cabo Frio, presenting an equipment catalogue, company information, telephone contacts, and a general contact form for prospective rental customers.

Scam/Impersonation Risk

The site presents as an ordinary equipment-rental business, and its pages do not show a login form, payment interface, credential-collection mechanism, or apparent brand impersonation. However, this benign presentation is outweighed by confirmed external blacklist status and multiple malicious detections associated with the domain. The site should therefore be treated as unsuitable for credential submission, financial interaction, or other sensitive engagement until the adverse reputation findings are independently resolved.

EVIDENCE

- External reputation checks recorded 3 malicious detections and 1 suspicious detection for the domain; blacklist status was also confirmed by external sources.
- The homepage and contact page contain one ordinary contact form with no sensitive fields, and behavioral testing detected no hidden forms, password submissions, wallet-connect activity, or clipboard manipulation.
- Domain registration telemetry records creation on 2017-02-15 and an age of 9.52 years.

Regulatory Verification Notes

The “Quem Somos” page identifies the business as Andaimes Costa do Sol and states that it has operated in construction-equipment rental since 1999. The site provides a Cabo Frio address, multiple telephone numbers, an email contact, and claims that its products conform to applicable technical and safety standards. These are on-site representations rather than independent proof of the operating entity. No licensing authority or license number is claimed on the reviewed pages, leaving a material regulatory-disclosure point to verify for the relevant rental activities. The independent identity connection remains unverified, while the confirmed blacklist findings materially weaken reliance on the site's self-description.

EVIDENCE

- The “Quem Somos” page states that the business has operated since 1999 and describes construction-equipment rental services.
- The “Contato” and homepage content provide a Cabo Frio, Rio de Janeiro address, telephone contacts, and a contact form.
- Hosting telemetry identifies AS266400, Ferenz Networks, Brazil.
- The site's TLS certificate is DV-validated, issued by YR1, and valid to 2026-10-14T15:30:07+00:00.

What to Verify Next

An institution considering engagement should independently confirm that the named local business exists at the stated address and that the telephone contacts connect to the same business, using an offline or independently sourced channel rather than relying solely on the website. Any required municipal, commercial, safety, or sector-specific authorization should be checked directly with the applicable Brazilian registry or authority before rental arrangements or payments are made. Contact and payment instructions should also be validated through independently obtained business records.

EVIDENCE

- The “Quem Somos” page contains the business description and operating-history claim requiring independent corroboration.
- The “Produtos” page lists scaffolding, supports, skips, ladders, power tools, saws, grinders, and pressure washers as available rental categories.
- The site provides a contact form and telephone details but does not present a licensing authority or license number on the reviewed content.

Summary Verdict

The overall posture is **low trust with elevated sensitive-interaction risk**. The website’s local-business presentation is internally coherent at the page-content level, but the confirmed external reputation contradictions and unverified identity prevent it from being treated as a reliable basis for credentials, financial transactions, or other sensitive activity.

Infrastructure Integrity

The site is directly hosted without a detected CDN or WAF layer, and the infrastructure exposes likely origin addresses rather than an edge-protected deployment. This provides limited defensive separation between the public service and its hosting environment and does not offset the adverse reputation findings.

Closing Assessment

Engagement should remain limited to non-sensitive review until the business identity, applicable authorizations, and transaction arrangements have been confirmed through independent channels.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about andaimescostadosol.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
