

Is andreflores.com.br legit? TrustSniffer's high-trust assessment: 80/100

andreflores.com.br

Verdict

80

OUT OF 100

HIGH TRUST

andreflores.com.br appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Portuguese-language local ecosystem portal named 'Ecosistema André Flores' offering news, a marketplace, community features, loyalty (GBits), and various microservices. Displays CNPJ and links to many internal modules; contains login/entrar affordances and cookie/privacy notices.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The Portuguese-language “Ecosystema André Flores” is a local community and services portal presenting regional news, community features, marketplace activity, loyalty functions, advertising, and paid digital services. Its apparent business model combines local information with commercial transactions and account-based access.

Scam/Impersonation Risk

No contradictions were observed: the available evidence contains no phishing, impersonation, blacklist, or malicious-content finding. The homepage includes an ordinary account-access function, but the captured behavior showed no hidden forms, external password submissions, wallet-connect activity, clipboard manipulation, or suspicious inline scripts. The site therefore presents as an established, apparently legitimate portal rather than an impersonation site, although the real-world operator identity remains independently unverified.

EVIDENCE

- The homepage contains one login form; no sensitive form, hidden form, or untrusted destination was detected.
- The domain was registered on 2004-09-15 and is approximately 21.94 years old.
- Archive chronology records first observation on 2013-09-23, last observation on 2025-11-07, and 13 years tracked.

Regulatory Verification Notes

The site's commercial scope includes a marketplace, loyalty or credit functionality, advertising, and paid services. The supplied content does not state a licensing authority or license number, so any regulated activity requiring authorization remains a disclosure and verification matter rather than evidence of wrongdoing. Registration information names Big Brasil Informatica Ltda.; this is a concrete registration record, but it does not independently prove that the named entity operates every service presented on the portal. Transport security is valid, although domain validation confirms encryption rather than legal identity.

EVIDENCE

- The homepage presents a CNPJ disclosure alongside links to multiple internal services.
- No licensing authority or license number is claimed in the supplied business-model content.
- The site is served from AS47583, AS-HOSTINGER - Hostinger International Limited, CY, with infrastructure resolving in LT.
- The TLS certificate is issued by YE1, uses DV validation, and is valid to 2026-10-30T09:04:06+00:00.

What to Verify Next

Before credential or payment interactions, the disclosed CNPJ should be matched independently against the applicable Brazilian corporate registry and the legal entity named in the relevant terms. Commercial users should also confirm the applicable return, refund, dispute, and payment-protection arrangements, and validate official support channels through an independent route rather than relying solely on contact details presented within the portal.

EVIDENCE

- The homepage displays a CNPJ that can be compared with the legal entity named in the terms and transaction documents.
- The portal exposes marketplace and paid-service functionality, making merchant, refund, and payment-protection terms relevant to transaction review.
- Cookie and privacy notices are presented on the site and should be checked for consistency with the stated account and service practices.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture. No scam or impersonation contradiction was identified, but confidence in connecting the portal

to a specific real-world operator remains limited; legitimacy should therefore be treated as apparent rather than proven.

Infrastructure Integrity

The site resolves directly to a single hosting address on Hostinger infrastructure, with no detected CDN vendor or edge-IP layer. This is a conventional hosting arrangement and neither establishes legitimacy nor introduces a material adverse signal on its own; the valid TLS deployment provides the principal transport-security control observed.

Closing Assessment

Ordinary browsing and proportionate account or transaction activity are reasonable within the stated posture, subject to the independent merchant-identity, terms, and payment-protection checks appropriate for any commercial website with an unverified operator identity.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of andreflores.com.br.

- The request stayed on andreflores.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by dns.br, across 2 name servers. NOTED
- The registration is paid up to 2027-09-15. NOTED
- The earliest public archive of this site is from 2013-09-23. CLEAR
- It is hosted on AS-HOSTINGER, from a server in LT. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about andreflores.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
