What andresruiz.cl served when TrustSniffer captured it on 2026-08-22. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This is a personal executive-advisory website for Jorge Andrés Ruiz Ríos, presenting fractional CEO services, board advisory, corporate governance, contract and licensing support, and AI-driven business transformation for prospective B2B clients.

Scam/Impersonation Risk

The site's content presents a coherent professional-consulting model and does not show login forms, hidden forms, wallet-connect functionality, credential-harvesting behavior, or explicit brand impersonation. However, this benign presentation is outweighed by confirmed blacklist status and multiple malicious detections from external reputation sources. The available evidence therefore supports a **high risk for sensitive interactions**, while not establishing that the site is impersonating a specific brand or that an identity contradiction exists. The domain is associated with Jorge Andrés Ruiz Ríos in the registration record, but the site's apparent identity remains independently unverified.

EVIDENCE

- The homepage describes fractional CEO, board-advisory, governance, AI-transformation, and contract-related services rather than a consumer financial or credential-collection operation.
- The homepage contains one contact or meeting-scheduling form and no detected login form, hidden form, wallet connection, or password submission.
- External reputation checks recorded 3 malicious detections and a confirmed blacklist hit.
- The domain registration record shows creation on 2012-10-26 and an age of 13.83 years; historical records show 11 archive snapshots from 2013 through 2024, with 12 years tracked.

Regulatory Verification Notes

The site presents an individual-led advisory practice and identifies professional credentials including Commercial Engineer, former Operations and Finance Manager, and an AI certification associated with IE University. It also advertises legal-protection, tender, contract-management, governance, and licensing-support capabilities, but no license authority or license number is claimed on the reviewed pages. That is a material disclosure gap for any engagement involving regulated advice, public-sector contracting, or licensing support. The individual identity is plausible and registration-linked, but not independently verified; the absence of a matching third-party broker record is only contextual and does not constitute regulatory approval. The site's self-presented metrics—"98.4 / 100" for an AI-and-finance optimization index, "+\$50M USD" in macro contracts, and "100% Viable" legal compliance—should be treated as marketing claims rather than verified credentials or performance evidence.

EVIDENCE

- The homepage identifies Jorge Andrés Ruiz Ríos and lists executive, finance, governance, and AI-related credentials.
- The homepage claims "+\$50M USD" in macro contracts and "100% Viable" legal compliance without supporting documentation visible in the supplied content.
- The registration record lists NIC Chile as registrar, creation date 2012-10-26T21:35:48Z, expiration date 2026-11-25T18:35:48Z, and registrant name JORGE ANDRES RUIZ RIOS.
- The site's transport encryption uses a DV certificate issued by YR1, valid until 2026-11-01T13:39:15+00:00.

What to Verify Next

Before any engagement, an independent offline or registry-based confirmation should establish that Jorge Andrés Ruiz Ríos is the contracting party and that the proposed advisory services are properly authorized for the relevant jurisdiction and client sector. Claimed university credentials, prior contract experience, and the basis for the site's performance metrics should be corroborated through independent sources. Official contact channels should also be confirmed through an independently established professional profile before documents, credentials, or payment information are exchanged.

EVIDENCE

- The homepage provides a meeting-scheduling and contact-filter form for requesting engagements.
- The homepage links to a LinkedIn profile as the principal external professional-social reference.
- The homepage offers a downloadable “Dossier de Dirección (PDF)” containing further business and credential claims.
- The reviewed business-model content states that services are monetized through consulting contracts, fractional executive retainers, and paid advisory engagements.

Summary Verdict

The website should be treated as a low-trust service site with elevated exposure for sensitive interactions. Its professionally presented consulting content does not offset the confirmed external reputation contradictions, and the available evidence is insufficient to support credential submission, financial engagement, or reliance on its claims without independent validation.

Infrastructure Integrity

The site resolves to a single server address in the United States and is hosted on AS22612, NAMECHEAP-NET / Namecheap, Inc.; no CDN was detected. This provides identifiable hosting context but offers no substantive assurance regarding the operator or the site's legitimacy.

EVIDENCE

- Hosting infrastructure: AS22612, NAMECHEAP-NET - Namecheap, Inc., US.
- Resolved server IP: 104.207.71.150.
- Infrastructure records identify one unique IP and one likely origin IP, with zero detected edge IPs and no CDN detected.

Closing Assessment

Activity should remain limited to passive review until the operator, credentials, service authority, and external reputation have been independently confirmed; credentials, confidential documents, and financial transactions should not be submitted in the interim.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Analysis engine signal:direct_threat

- Most of what the page loaded came from other domains rather than from this one.

Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH

Identity verification

Status	LIKELY
--------	--------

Identity score	73/100
----------------	--------

Identity verification confidence	74%
----------------------------------	-----

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of andresruiz.cl.

- The request stayed on andresruiz.cl. It was not redirected to another domain. [CLEAR](#)
- Registration is published under NIC Chile. [CLEAR](#)
- DNS for this domain is served by apoyopyme.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2026-11-25. [NOTED](#)
- The earliest public archive of this site is from 2013-04-23. [CLEAR](#)
- It is hosted on NAMECHEAP-NET, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about andresruiz.cl at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
