

Is aninews.in legit? TrustSniffer's high-trust assessment: 100/100

aninews.in

Verdict

100

OUT OF 100

HIGH TRUST

aninews.in appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 55%.

What this site appears to be

Multisection Indian news website covering national and international news, politics, business, entertainment, sports and technology. Appears to be an established news publisher with editorial content and typical monetization through ads and syndication.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

This website is an Indian news and media publisher presenting national and international reporting across politics, business, entertainment, sports, technology, health, and other topical sections; its apparent business model is editorial publishing supported by advertising, syndication, and potentially sponsored content.

Scam/Impersonation Risk

No scam, phishing, impersonation, or other contradictory signals were observed. The homepage presents substantial editorial content, named news categories, current headlines, photo galleries, and video sections consistent with a functioning news publisher rather than a deceptive transaction site. External reputation checks were clean, and the site's established domain history further supports an evidence-consistent, apparently legitimate posture; this does not independently verify the real-world operator.

EVIDENCE

- The homepage identifies the service as ANI News and displays national, international, political, business, entertainment, sports, and technology coverage.
- The homepage contains no login form, sensitive form, wallet connection, or suspicious destination behavior.
- External checks recorded 0 malicious detections, 0 suspicious detections, and no blacklist or phishing result; the domain ranked 24189 and was within the top 1 million websites.
- The domain was registered on 2010-07-11 and is approximately 16.1 years old.

Regulatory Verification Notes

The observed business model is general news and media publishing, not a financial, investment, brokerage, or other regulated service. No licensing claim or license number is evidenced in the supplied site content; for an ordinary publisher this is not, by itself, a fraud indicator, but any separate commercial or regulated offering would require independent confirmation. The registration record names GoDaddy.com, LLC as registrar and Asian Films TV as the organization; because the operator has not been independently verified, those records should be treated as registration context rather than proof of the entity behind the publication.

EVIDENCE

- The homepage describes and displays editorial news coverage rather than a regulated financial product or investment service.
- The domain registration record lists GoDaddy.com, LLC as registrar and Asian Films TV as the organization.
- The site is served from AS13335, CLOUDFLARENET – Cloudflare, Inc., US.
- The transport certificate was issued by WE1 at DV validation level and is valid to 2026-10-27T17:47:03+00:00.

What to Verify Next

Before any credential or payment interaction that extends beyond ordinary news browsing, independently confirm the publisher's legal identity through an authoritative corporate or media-industry source. If the site presents a subscription, purchase, donation, or other paid service, review the applicable terms, refund or cancellation provisions, and payment-protection arrangements before proceeding. Any newly presented regulated service should also be checked against the relevant official licensing registry.

EVIDENCE

- The supplied identity evidence does not independently connect the ANI News presentation to a verified real-world operator.
- The observed homepage content establishes an editorial publishing purpose, so any separate paid or regulated activity should be validated as an additional service rather than assumed from the site's news presentation.

Summary Verdict

The overall posture is high trust and low risk, with the available evidence consistent with an established, apparently legitimate news website. The absence of contradictory threat or impersonation signals supports normal informational use, while the operator's real-world identity remains independently unverified.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure and resolves through AS13335 edge services, including observed edge IPs 104.20.27.156, 172.66.164.78, 2606:4700:10::6814:1b9c, and 2606:4700:10::ac42:a44e. This is a mitigating infrastructure signal that supports service resilience and reduces direct exposure of hosting systems, but it is not proof of ownership or legitimacy.

Closing Assessment

Ordinary browsing is proportionate to the assessed posture; before entering credentials or making a payment, the relevant independent identity, contractual, and payment-protection checks should be completed.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of aninews.in.

- The request stayed on aninews.in. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-07-11. NOTED
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about aninews.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
