

Is anniedorsen.com safe? TrustSniffer's low-trust assessment: 40/100

anniedorsen.com

Verdict

40

OUT OF 100

LOW TRUST

anniedorsen.com is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Artist Annie Dorsen homepage containing navigation to Projects, Calendar, News, Press, About, Contact, and legal links (Terms of Use, Privacy Policy, Website Credits). No forms or transactional flows detected.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://anniedorsen.com/>

What anniedorsen.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2011.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This website is an artist portfolio for Annie Dorsen, presenting projects, calendar and event information, news, press material, contact details, touring information, and standard legal pages. Its apparent purpose is informational and professional presentation rather than on-site financial or transactional activity.

Scam/Impersonation Risk

A confirmed blacklist detection creates a material trust concern despite the website's benign apparent function. The available page analysis found no login form, credential-collection flow, hidden form, wallet connection, transactional mechanism, or suspected brand impersonation, and the site presents itself as a personal artist portfolio rather than a financial or commercial service. Those content-level observations reduce evidence of an active scam mechanism on the captured pages, but they do not offset the confirmed blacklist signal; sensitive interaction should therefore be treated as elevated risk. No conflicting legal identities or direct impersonation indicators were observed.

EVIDENCE

- The homepage identifies “Annie Dorsen” and links to Projects, Calendar, News, Press, About, Contact, and Tech & touring; no transactional forms were detected.
- External reputation assessment recorded `external\_blacklist: true`; one malicious and one suspicious detection were also recorded among the evaluated results.
- Domain registration telemetry records creation on 2010-10-12, with an age of 15.86 years, through TUCOWS.COM, CO.
- Historical coverage is recorded from 2011-11-19 through 2026-08-11, representing 16 years tracked.

Regulatory Verification Notes

The site includes Terms of Use, Privacy Policy, Website Credits, About, and Contact navigation, but the supplied content does not establish a regulated financial, brokerage, or investment service and does not present a license, registration number, or licensing authority. This is a disclosure and verification gap rather than evidence of a scam by itself. The apparent portfolio business model is consistent with artistic projects, events, press, and possible off-site bookings or commissions; any commercial engagement would require confirmation of the contracting entity and applicable terms before payment or commitment. No broker match was identified in the available third-party broker context.

EVIDENCE

- The homepage navigation includes Terms of Use, Privacy Policy, Website Credits, About, and Contact.
- The captured page contains approximately 211 characters of visible text and provides no stated license authority or registration number.
- The site is hosted on AS54641, IMH-IAD - InMotion Hosting, Inc., US.
- The site's TLS certificate is DV-validated, issued by YR2, and valid to 2026-10-19.

What to Verify Next

Before any booking, commission, ticketing, or payment commitment, the proposed counterparty should be confirmed through an independently obtained contact route and the relevant event, venue, institution, or agency should confirm the association with the site. The contracting name, payment recipient, cancellation or refund terms, and any applicable business or professional registration should be checked against authoritative records rather than relying solely on the website. Credentials or financial details should not be submitted through an unexpected page or message associated with the domain.

EVIDENCE

- The site provides About and Contact navigation that can be compared with independently sourced professional or institutional contact records.
- Terms of Use and Privacy Policy are available for review before any engagement.
- The captured homepage has no login, password, payment, or other sensitive-data form.
- The displayed business model is informational and portfolio-oriented, with no on-site transaction flow detected.

Summary Verdict

The overall posture is **low trust with sensitive-interaction risk**. The site's presentation is consistent with a low-complexity artist portfolio, but the authoritative reputation contradiction materially limits confidence in its safe use for anything beyond passive review. The real-world operator identity also remains unverified.

Infrastructure Integrity

The site resolves directly to one likely origin address hosted by InMotion Hosting rather than behind a detected CDN or WAF. This provides a clear hosting path and a valid transport-encryption layer, but the hosting arrangement is only a technical mitigating signal and does not establish legitimacy or neutralize the external reputation concern.

Closing Assessment

Passive browsing is the proportionate use case; credentials, payments, and other sensitive interactions should be withheld unless the intended engagement is independently confirmed through trusted offline or institutional channels.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine.

01 Governance Risk - The registration record withholds contact details for the operator. Registration and ownership rule:KF_WHOIS_HIDDEN - Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check. Registration and ownership rule:KF_WHOIS_PRIVATE
02 Sensitive Interaction Risk The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor. Analysis engine signal:direct_threat

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of anniedorsen.com.

- The request stayed on anniedorsen.com. It was not redirected to another domain. CLEAR
- Registration is published under TUCOWS.COM, CO.. CLEAR
- DNS for this domain is served by webhostinghub.com, across 2 name servers. NOTED
- The registration is paid up to 2026-10-12. NOTED
- The earliest public archive of this site is from 2011-11-19. CLEAR
- It is hosted on IMH-IAD, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about anniedorsen.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
