

Is annuairesdz.com legit? TrustSniffer's high-trust assessment: 100/100

annuairesdz.com

Verdict

100

OUT OF 100

HIGH TRUST

annuairesdz.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

A French-language Algerian B2B directory site listing companies across many sectors, offering registration/adding business options and publishing sector articles. Appears to operate as a local listings and lead-generation platform.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2012.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This French-language website is an Algerian business directory and B2B lead-generation platform, presenting searchable company listings, sector information, business-registration options, and related commercial services for companies operating in Algeria and abroad.

Scam/Impersonation Risk

No contradictions were observed. The site's stated directory and B2B-service purpose is consistent with its visible content, and the supplied page analysis found no phishing indicators, brand impersonation, credential-harvesting workflow, malicious scripts, or suspicious payment or investment mechanism. External reputation checks also returned no malicious or suspicious detections, supporting a low scam and impersonation risk. The real-world operator remains independently unverified, so the positive assessment should be understood as evidence-consistent rather than proof of ownership.

EVIDENCE

- The domain was registered in 2012 and is approximately 14.17 years old; registration is recorded through OVH, SAS.
- Historical records contain 78 archive snapshots spanning 2012–2026, covering 15 years.
- The homepage contains no password form, hidden sensitive form, external password submission, wallet connection, or suspicious inline script.
- External checks recorded zero malicious detections, zero suspicious detections, no phishing-list match, and no impersonation signature.

Regulatory Verification Notes

The website presents itself as a commercial directory and B2B service rather than as a regulated financial or investment provider. No regulatory licence or licence number is claimed in the supplied site content, and no independent operator identity has been established; this is a transparency and verification matter, not evidence of fraud. The listing and registration workflows appear directed to business-directory participation, while the published company records and contact details support the stated commercial model. No matching third-party broker signal was identified.

EVIDENCE

- The homepage describes services for businesses and economic operators and provides registration and business-listing submission forms rather than sensitive financial forms.
- The site is served on AS16276 through OVH - OVH SAS, France.
- Transport encryption uses a DV certificate issued by YE2, valid through 2026-11-16.
- The homepage's visible content identifies the service as "Annuaire Economique Algériens" and displays business listings across sectors including health, construction, commerce, transport, and industry.

What to Verify Next

Before a paid listing, advertising placement, or other commercial commitment, the prospective counterparty should independently confirm the legal entity that will invoice or contract, obtain written pricing and service terms, and confirm refund or dispute provisions. The business's official contact channels should be validated through an independent route, and any representation made by a listed company should be confirmed directly with that company. Credential or payment use should remain subject to ordinary merchant-identity and payment-protection checks.

EVIDENCE

- The homepage provides an "Add your business" pathway and account-registration functionality.
- The homepage publishes a general telephone contact and contact details for featured businesses.
- The site's stated commercial model includes business listings, featured placements, B2B service packages, and lead generation.

Summary Verdict

The available evidence is consistent with an established, apparently legitimate website with a high-trust, low-risk posture and no observed scam or impersonation contradictions. Its public-facing content, long operating history, stable technical presentation, and clean external reputation support normal informational use, while the operator's real-world identity remains unverified.

Infrastructure Integrity

The site benefits from CDN/WAF protection using OVH - OVH SAS infrastructure, with observed traffic resolving through edge addresses and no origin candidate identified in the supplied infrastructure analysis. This reduces direct origin exposure and is a mitigating technical control, but it is not proof of operator legitimacy.

Closing Assessment

Routine browsing and ordinary directory interaction are proportionate to the assessed posture; independent commercial and payment-protection checks should be completed before any paid engagement or submission of credentials.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of annuairedz.com.

- The request stayed on annuairedz.com. It was not redirected to another domain. CLEAR
- Registration is published under OVH, SAS. CLEAR
- DNS for this domain is served by anycast.me, across 2 name servers. NOTED
- The registration is paid up to 2027-06-20. NOTED
- The earliest public archive of this site is from 2012-12-07. CLEAR
- It is hosted on OVH, from a server in FR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about annuairesdz.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
