

Is apnovavida.com a scam? TrustSniffer's high-risk assessment: 0/100

apnovavida.com

Verdict

0

OUT OF 100

CRITICAL RISK

apnovavida.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

A short maintenance notice for Igreja Apostólica Nova Vida (Portuguese); no forms or links detected and no financial or credential requests.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://apnovavida.com/>

What apnovavida.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website is a minimal Portuguese-language informational landing page for Igreja Apostólica Nova Vida, currently presenting a short maintenance notice rather than an operational service, account area, fundraising flow, or other transactional business model.

Scam/Impersonation Risk

Contradictory external threat signals are present despite the benign appearance of the current page. The domain is reported as blacklisted, with multiple malicious detections and a Tier-1 vendor flag, creating a material risk for sensitive interaction even though the captured homepage contains no login form, credential request, payment workflow, or evident deceptive behavior. No separate identity inconsistency or page-level brand-impersonation finding was established; however, the external detections are sufficiently serious that the site's limited current content should not be treated as evidence of safety.

EVIDENCE

- External scanning recorded 15 malicious detections, including a Sophos threat detection; blacklist status was reported by two external sources.
- The homepage is titled “Igreja Apostólica Nova Vida” and displays only a maintenance message, with no forms or links detected.
- The domain was registered on 2021-06-27 and is recorded as approximately 5.15 years old.
- Archive coverage records 90 snapshots spanning 2021-11-25 through 2025-07-10, across 5 tracked years.

Regulatory Verification Notes

The available site content does not provide a clear legal-entity, licensing, registration, or governance disclosure. For a local religious-information site, the absence of a financial service claim reduces the apparent regulatory scope, but it does not resolve the unverified connection between the domain and the named organization. The registration record uses PDR Ltd. d/b/a PublicDomainRegistry.com and identifies the registrant as Domain Admin under Privacy Protect, LLC; this is an ownership-opacity factor rather than proof of misconduct. The external broker-reputation dataset recorded no matching broker, which is contextual only and does not establish legal status.

EVIDENCE

- The registration record lists PDR Ltd. d/b/a PublicDomainRegistry.com as registrar and Privacy Protect, LLC (PrivacyProtect.org) as the organization, with the owner recorded as “Domain Admin.”
- The site is served from AS31898, ORACLE-BMC-31898 - Oracle Corporation, US.
- The transport certificate is issued by YR1, uses Domain Validation (DV), and is valid through 2026-10-29.
- The captured homepage contains a maintenance notice but no clear legal, licensing, or organizational disclosure.

What to Verify Next

Before any sensitive interaction, an independent source associated with Igreja Apostólica Nova Vida should confirm that this domain is the organization’s authorized website. Any future request for credentials, donations, financial details, software installation, or account access should be validated through an independently obtained contact channel and, where relevant, through the applicable official registry or payment-protection process.

EVIDENCE

- The current capture provides insufficient organizational detail for independent identity confirmation from the site alone.
- The site presents no operational account or payment workflow that can establish how sensitive interactions would be handled.
- External threat detections require confirmation that the domain has been reviewed and cleared before its risk posture is reconsidered.

Summary Verdict

The overall posture is critical, with the available evidence supporting a high-risk assessment for sensitive interaction. The site’s benign maintenance presentation does not offset the confirmed external reputation contradiction, and the real-world operator identity remains unverified.

Infrastructure Integrity

The site resolves through Oracle Corporation infrastructure on AS31898 in the United States. No CDN or WAF was detected, and the infrastructure record showed one resolved address without identified edge-IP or origin-candidate separation; the valid DV certificate provides transport encryption but does not establish legitimacy.

Closing Assessment

Interaction should be limited to passive viewing, with no login, credential submission, financial transaction, download, or other sensitive action unless independent organizational confirmation and a satisfactory security review are completed.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of apnovavida.com.

- The request stayed on apnovavida.com. It was not redirected to another domain. CLEAR
- Registration is published under PDR Ltd. d/b/a PublicDomainRegistry.com. CLEAR
- DNS for this domain is served by com.br, across 2 name servers. NOTED
- The registration is paid up to 2027-06-27. NOTED
- The earliest public archive of this site is from 2021-11-25. CLEAR
- It is hosted on ORACLE-BMC-31898, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about apnovavida.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
