

Is applecrackerdesign.com legit? TrustSniffer's high-trust assessment: 100/100

applecrackerdesign.com

Verdict

100

OUT OF 100

HIGH TRUST

applecrackerdesign.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Portfolio and small online storefront for an individual artist/designer (Laura J. McIntosh). Shows artist statement, gallery images with prices, contact email, and offers design/consultation services.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Applecracker Design is an artist and small-business storefront presenting the work of Laura J. McIntosh, including original artworks, jewelry, curated and restored objects, and indoor or outdoor design consultation services. Its apparent business model is direct sale of listed pieces together with paid sourcing, restoration, landscaping, and design assistance.

Scam/Impersonation Risk

No contradictions were observed. The homepage and gallery present a coherent individual-artist identity, named creative services, physical artwork descriptions, prices, and a contact route rather than financial, investment, or credential-harvesting functionality. The site has no login form, sensitive data form, wallet connection, hidden form, external posting activity, cloaking, or suspicious script behavior in the observed interactions. The available historical record is consistent with continuity rather than suspicious repurposing, although archival coverage is limited.

EVIDENCE

- The homepage identifies “Laura J. McIntosh,” describes art creation, sourcing and restoration, and design services, and links to gallery and contact content.
- The gallery content lists specific works such as “Egg II” at \$300, “Mars” at \$85, and “Hover” at \$85, with dimensions and materials.
- The site’s observed behavior recorded 2 successful runs, 0 external XHR or fetch requests, 0 hidden forms, 0 wallet-provider detections, and 0 suspicious inline scripts.
- The domain was created on 2019-06-04 and is approximately 7.22 years old; historical capture data records 99 snapshots with coverage from 2021-11-26 through 2025-07-11.

Regulatory Verification Notes

The business presented is an art and design service rather than an activity that necessarily implies financial or broker regulation. The site identifies the artist and describes its commercial services, but the supplied content does not establish an independently verified legal entity, regulated status, registration number, or licensing requirement. This is a verification and disclosure point, not evidence of impersonation or fraud. The transport and hosting indicators are technically coherent: the site uses a valid domain-validated certificate and established commercial hosting. No matching broker signal or malicious external reputation signal was identified in the available checks.

EVIDENCE

- The Artist Statement, Gallery, FAQ, and Contact navigation provides an identifiable individual name, service descriptions, product listings, and a direct contact route.
- The domain registration lists GoDaddy.com, LLC as registrar, with an expiry date of 2028-06-04.
- The site is served from AS398101, GoDaddy.com, LLC, US.
- TLS uses issuer YR2 with DV validation and is valid through 2026-11-09.

What to Verify Next

Before credential or payment interactions, the prospective customer should independently confirm that the named artist and business contact details correspond to the intended seller. The seller’s applicable terms, delivery arrangements, cancellation or return conditions, and payment-protection options should be obtained and reviewed before a purchase or paid consultation. If a proposed transaction involves an activity subject to local registration or licensing, that status should be checked with the relevant official registry rather than inferred from the website.

EVIDENCE

- The Contact page supplies the primary route for seller communication.
- The Gallery and homepage describe direct sales and paid consultation services but do not, in the supplied content, provide transaction terms or return conditions.
- The site has no sensitive form or login form in the observed page structure, so payment and credential handling should be assessed at the point of any future transaction.

Summary Verdict

The available evidence supports a **high-trust, low-risk posture** and is consistent with an established, apparently legitimate small-business website. No scam, phishing, impersonation, or conflicting-identity indicators were observed. The operator’s real-world identity remains independently unverified, so the positive conclusion should be understood as evidence-consistent rather than proof of legal identity.

Infrastructure Integrity

The site resolves to a single GoDaddy-hosted address, with no CDN or separate edge-IP layer detected. This is a straightforward hosting configuration and does not itself indicate maliciousness; the identified hosting environment and valid TLS provide ordinary transport and infrastructure consistency but are not proof of operator legitimacy.

Closing Assessment

Standard browsing and ordinary business engagement are proportionate to the observed risk posture, subject to routine independent checks of seller identity, transaction terms, and payment protection before credentials or funds are provided.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of applecrackerdesign.com.

- The request stayed on applecrackerdesign.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED
- The registration is paid up to 2028-06-04. CLEAR
- The earliest public archive of this site is from 2021-11-26. CLEAR
- It is hosted on GO-DADDY-COM-LLC, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about applecrackerdesign.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
