- Public web-archive history exists since 2012.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

AP TRADE is a Russian corporate group founded in 1995 that presents distribution, construction, 3PL logistics, warehousing, partnerships, careers, company news, and investor information, with an apparent business model centered on commercial services and disclosed capital-market activity.

Scam/Impersonation Risk

No contradictions were observed. The site presents a coherent corporate identity, describes established distribution and logistics operations, and shows no phishing, impersonation, deceptive-form, or malicious-reputation indicators. Normal interaction, including account login where applicable and standard use of the site, is appropriate.

- The homepage identifies AP TRADE as a distribution and logistics group founded in 1995.
- The site contains no login form, hidden sensitive form, or untrusted form destination.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing finding.
- The domain is registered through RU-CENTER-RU; created in 2006 and currently approximately 20.18 years old.

Regulatory Verification Notes

The website provides substantive corporate, service, partnership, careers, news, and investor content. Its investor materials refer to bond issuance and digital financial assets, but the supplied evidence does not establish a specific regulatory license or registration number on the site; this is a verification point rather than evidence of misconduct. The available third-party broker context contains no match.

- The investor section describes bond issuance and several digital financial asset offerings.
- The site identifies distribution, construction, 3PL logistics, warehousing, and investor relations as core topics.
- The domain has 202 archive snapshots spanning 2012–2024, covering 13 tracked years.
- Hosted on AS8749 (REDCOM-AS - JSC _Redcom-Internet_, RU); TLS issued by GlobalSign RSA OV SSL CA 2018, OV validation, valid to 2027-01-19.

What to Verify Next

For any regulated investment activity, the applicable issuer, offering documentation, and registration status should be confirmed through the relevant official registry and independently sourced corporate records. Official

- contact and investor channels should also be cross-checked against independently obtained company information before material transactions.
- The site provides dedicated investor-information content rather than presenting a generic trading interface.
 - Company news, partnership, and career sections provide additional routes for confirming the stated business identity.
 - The careers area links to vacancies hosted on HH.ru.

Summary Verdict

AP TRADE presents as a legitimate, established corporate website with a strong and internally consistent identity, professional business content, sustained historical presence, and clean external reputation. Its overall trust posture supports normal website interaction and standard business engagement.

Infrastructure Integrity

The site resolves directly to infrastructure operated by REDCOM-AS in Russia, with no detected CDN or WAF layer and two likely origin addresses. This is a neutral hosting characteristic; the valid organization-validated GlobalSign certificate provides transport and entity-validation assurance but is not, by itself, proof of legitimacy.

Closing Assessment

Standard browsing, login, and ordinary business interaction are appropriate; material investment decisions should follow the normal independent documentation and registry checks applicable to the transaction.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of aptrade.ru.

- The request stayed on aptrade.ru. It was not redirected to another domain. CLEAR
- Registration is published under RU-CENTER-RU. CLEAR
- DNS for this domain is served by 214.208, across 3 name servers. NOTED
- The registration is paid up to 2027-05-31. NOTED
- The earliest public archive of this site is from 2012-10-28. CLEAR

- It is hosted on REDCOM-AS, from a server in RU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about aptrade.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
