Full analysis

Overview

The website is a public-facing informational site for Ark International School in Begusarai, Bihar, presenting the institution's educational mission, facilities, events, announcements, student results, and an enquiry form for prospective families.

Scam/Impersonation Risk

The site's stated purpose and observed interaction model are consistent with a conventional school-information website, and page analysis found no login form, password collection, wallet connection, or external sensitive-data submission. However, this benign presentation is outweighed by a **confirmed blacklist finding**, together with one malicious and two suspicious external detections. The homepage also contains unrelated fragments such as "Rolex Replica Watches" and "Breitling Replica Wat" within otherwise school-focused director content; this is a material content-integrity anomaly that could indicate compromise, contamination, or poor site administration. No direct brand impersonation or phishing form was identified in the page-level inspection, but the blacklist finding creates a significant risk for sensitive interactions.

EVIDENCE

- The homepage presents a school mission, facilities, announcements, student results, and an enquiry form, while the interaction analysis recorded no login, hidden form, wallet, or password-exfiltration behavior.
- The homepage's director-message content contains the unrelated phrases "Rolex Replica Watches" and "Breitling Replica Wat."
- External reputation telemetry records 1 malicious and 2 suspicious detections, with a confirmed blacklist status.
- The domain was registered in 2017 and is approximately 9.27 years old.

Regulatory Verification Notes

The apparent business model is offline education and enrolment rather than on-site financial transactions. The site provides school information and an enquiry route, but the available material does not establish the real-world operator's identity independently; the identity status therefore remains unverified. No education licence, registration number, or licensing authority is claimed in the supplied site content, which is a regulatory-disclosure gap requiring independent confirmation rather than proof of wrongdoing. The registrar and hosting details provide technical attribution, not evidence that the institution is legally authorised.

EVIDENCE

- The homepage and navigation identify the organisation as "ARK INTERNATIONAL SCHOOL" and provide links for About, Events, Gallery, Conduct & Behaviour, and Contact Us.
- The site's enquiry form requests a full name, email address, mobile number, and message; no payment field or sensitive financial form was identified.
- Hosting telemetry records AS199404, WHG-IN – WHG Hosting Services Ltd, GB.
- The site's TLS certificate is DV-validated, issued by YR1, and valid until 2026-11-14; domain registration records identify GoDaddy.com, LLC as registrar and MNDS TECHNOLOGY (OPC) PRIVATE LIMITED as the registrant organisation.

What to Verify Next

Before submitting personal information or relying on enrolment communications, an independent offline route should confirm that Ark International School operates at the stated Begusarai location and that the published contact channels belong to the institution. Any claimed education registration or school authorisation should be checked directly with the relevant Indian education authority. The unrelated homepage content should also be reported to the institution and monitored for removal before sensitive engagement.

EVIDENCE

- The homepage states “Power House Road, Begusarai - 851101, Bihar” and identifies an enquiry form as the primary prospective-family interaction.
- The site lists school events, weekly tests, facilities, and student results, but the supplied pages do not provide a licence or registration number.
- The Contact Us and About navigation provides the site’s stated routes for institutional contact and identity information.

Summary Verdict

The overall posture is **low trust with elevated risk for sensitive interaction**. The site may represent a genuine school-information operation, but the available evidence does not independently verify the operator and includes a serious external reputation contradiction alongside visible content-integrity concerns.

Infrastructure Integrity

The site resolves directly to a likely origin address rather than through a detected CDN or WAF, so there is no identified edge-protection layer mitigating exposure. Transport encryption is present, but a DV certificate confirms control of the domain connection rather than the legitimacy of the organisation operating it.

Closing Assessment

Use should be limited to passive review until the institution, contact channels, and relevant authorisation are independently confirmed; credentials, personal details, and enrolment-related commitments should not be provided while the current risk indicators remain unresolved.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about arkintschool.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
