Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2024.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Armythlon India is an informational sports-organisation website presenting the World Armythlon Federation, physical-training programs, competitive events, rules, results, galleries, and registration routes for players and coaches. Its apparent business model is to organise training and competitions and potentially collect program or event-related registration fees.

Scam/Impersonation Risk

No contradictions were observed across the available evidence. The site presents a consistent Armythlon sports and competition identity, with no detected phishing, brand-impersonation, malicious-content, or high-risk abuse pattern. Its registration forms are for players and coaches rather than account credentials or financial access, and observed browser behavior showed no hidden forms, wallet interaction, external posting, cloaking, or suspicious scripts. The historical review found no semantic repurposing or category drift, supporting continuity of the presented purpose, although the real-world operator remains independently unverified.

EVIDENCE

- The homepage describes Armythlon physical activities, competitions, training, and federation objectives without investment or cryptocurrency claims.
- The player and coach registration pages contain two registration forms and no sensitive credential form or untrusted submission destination.
- Historical analysis found no repurposing or semantic drift; the recorded archive window is 2024–2025 across 2 tracked years.

Regulatory Verification Notes

The site provides organisational and event information, training details, contact information, results, and registration routes, but the available pages do not present a licensing authority or registration number. That is a transparency item for ordinary verification rather than evidence of deception, particularly because the site is a sports and event organisation rather than a financial-services platform. The registration record identifies Dreamscape Networks International Pte Ltd as registrar and Monika Garg as registrant, but the evidence does not independently establish that either is the operating entity represented by the website. Available external reputation checks found no malicious or suspicious detections and no adverse broker association; coverage was not complete. Overall, the content and technical signals remain consistent with an established, apparently legitimate site.

EVIDENCE

- Domain registration record: registered 2019-08-24 and approximately 7 years old; expiry is 2030-08-24.
- Registrar record identifies Dreamscape Networks International Pte Ltd and lists Monika Garg as registrant.
- The site's transport encryption uses a DV TLS certificate issued by YR2, valid to 2026-10-05.
- The About, Contact, and registration pages describe a sports federation and event-registration activity without a stated financial-services licence.

What to Verify Next

Before submitting personal details or paying any program or event fee, the organisation's legal operating name, event affiliation, fee schedule, cancellation or refund terms, and the responsible registration contact should be confirmed through an independently sourced channel. Where the organisation represents itself as a federation or conducts activities requiring local approval, the relevant sports or governmental registry should be checked directly. Payment should use a method offering transaction records and appropriate dispute protection.

EVIDENCE

- The About page identifies the organisation as the "World Armythlon Federation" and describes district, state, zone, national, and international competitions.
- The Contact page publishes operating hours and a telephone contact for independent confirmation.
- The player and coach forms indicate the types of information collected before registration or participation.

Summary Verdict

Available evidence supports a **high-trust, low-risk posture** for the website's stated sports and event-registration purpose. It is apparently legitimate and evidence-consistent with an established site, while the real-world operator identity is not independently verified; the assessment therefore supports normal informational use without treating operator identity as proven.

Infrastructure Integrity

The site resolves directly to infrastructure operated by PUBLIC-DOMAIN-REGISTRY - PDR, US, on AS394695, with no detected CDN or WAF layer and one likely origin address. The transport layer is protected by the valid certificate noted above; the hosting arrangement is a mitigating technical control, not independent proof of organisational legitimacy.

EVIDENCE

- Hosting infrastructure: AS394695, PUBLIC-DOMAIN-REGISTRY - PDR, US; resolved country recorded as SC.
- Infrastructure resolution identified 1 unique address, 0 edge IPs, and 1 likely origin address; no CDN was detected.

Closing Assessment

Ordinary browsing and event-information review are reasonable, while credential or payment interactions should follow the independent merchant-identity, terms, and payment-protection checks described above.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of armythlonindia.com.

- The request stayed on armythlonindia.com. It was not redirected to another domain. CLEAR
- Registration is published under Dreamscape Networks International Pte Ltd. CLEAR
- DNS for this domain is served by webhostbox.net, across 2 name servers. NOTED
- The registration is paid up to 2030-08-24. CLEAR

- The earliest public archive of this site is from 2024-09-04. CLEAR
- It is hosted on PUBLIC-DOMAIN-REGISTRY, from a server in SC. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about armythlonindia.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
