What arquitetomarciorodrigues.com.br served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2023.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

This is a Portuguese-language business and portfolio website for architect Marcio Rodrigues, presenting architectural and interior-design projects, construction oversight, property regularization, custom furniture, client testimonials, and local contact information for a service-fee and furniture-sales business in Foz do Iguaçu, Brazil.

Scam/Impersonation Risk

No contradictions were observed: the supplied evidence contains no phishing, impersonation, confirmed blacklist, malicious-content, or conflicting-identity indicators. The homepage presents a coherent small-business portfolio rather than a deceptive financial or credential-harvesting service; it has no login form, sensitive submission form, wallet connection, cloaking, hidden form, or suspicious script behavior. Seven abuse reports concern the shared provider IP 186.209.113.150, not the website specifically; the attribution is discounted because the address is shared infrastructure and the associated confidence score is zero. The apparent connection to the named architect is supported by the site's professional content and linked social presence, but the real-world operator identity remains independently unverified. Evidence:

- The homepage identifies the business as “Arquiteto Marcio Rodrigues” and provides architecture, interior, construction-supervision, property-regularization, and furniture-related content without detected red flags.
- The homepage’s behavioral examination recorded no login form, hidden form, wallet activity, clipboard manipulation, cloaking, or suspicious inline scripts.
- The domain was registered on 2022-03-23 and is approximately 4.41 years old.
- Web-archive telemetry records 93 snapshots spanning 2023–2025, covering 3 years.

Regulatory Verification Notes

The site provides a recognizable service description and identifies an apparent individual practitioner, with contact, business-hours, and location information presented on the contact-related content. The supplied pages do not show a license number, registration number, or independently verified professional-regulatory status. That is a verification and disclosure gap rather than evidence of wrongdoing. No broker-dataset match was identified, so there is no additional third-party reputational signal from that source. Evidence:

- The contact content states business hours and an address in Foz do Iguaçu, Brazil; the site also links to Facebook, Instagram, LinkedIn, and WhatsApp.
- The site’s hosting infrastructure is AS53107 - EVEO S.A., BR.
- The site’s TLS certificate is issued by YR2, uses DV validation, and is valid through 2026-11-11.
- The available content describes architecture and furniture services but does not display a license or registration number.

What to Verify Next

Before entering credentials or making a payment, independently confirm the practitioner’s identity through an official or offline channel, review the written scope of work and cancellation or return terms, and use payment methods that provide appropriate transaction protection. Any applicable professional authorization should be checked with the relevant Brazilian registry before contracting regulated work. Evidence:

- The site’s contact content supplies an address and business hours suitable for an independent identity check.
- The homepage provides service descriptions, testimonials, and social/contact channels that can be compared against independently obtained business information.
- The site has no sensitive form, so the principal pre-transaction checks concern identity, contract terms, and payment handling rather than on-page credential capture.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture. The classification is strong, while the real-world operator identity should remain described as likely rather than independently proven.

Infrastructure Integrity

The site resolves to one likely origin IP and has no detected CDN or WAF layer; it is hosted by EVEO S.A. in Brazil on AS53107. This is a straightforward hosting arrangement rather than a concealment finding, but it provides less distributed infrastructure resilience than a mainstream edge-delivery deployment.

Closing Assessment

Normal browsing is proportionate to the evidence; credential or payment interactions should proceed only after the ordinary independent identity, terms, and payment-protection checks have been completed.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Signals weighed against the site

- AbuseIPDB: 7 reports on hosting IP 186.209.113.150 (EVEO S.A., Content Delivery Network), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of arquitetomarciorodrigues.com.br.

- The request stayed on arquitetomarciorodrigues.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by emfoz.com, across 2 name servers. NOTED
- The registration is paid up to 2027-03-23. NOTED
- The earliest public archive of this site is from 2023-01-23. CLEAR
- It is hosted on AS53107, from a server in BR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about arquitetomarciorodrigues.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
