Full analysis

Overview

This Portuguese-language website presents AF Comunicações Criativas as a commercial creative agency offering consultancy, digital marketing, graphic design, portfolio work, packaged services, and client lead-generation through a contact form.

Scam/Impersonation Risk

No contradictions were observed. The site does not present phishing, brand-impersonation, financial-scam, or credential-harvesting indicators: its homepage contains no login form or sensitive-data workflow, and the observed behavior showed no hidden forms, wallet activity, suspicious scripts, cloaking, or external posting. Its sustained historical presence and consistent agency-oriented content are also consistent with an established site rather than a recently created impersonation page.

EVIDENCE

- Homepage content identifies AF Comunicações Criativas and describes consultancy, digital marketing, graphic design, portfolio, pricing, and contact functions.
- Homepage analysis recorded no login form, one contact form, no hidden forms, and no untrusted form destination.
- Behavioral testing recorded 0 external XHR requests, 0 non-whitelisted external XHR requests, 0 wallet-connect runs, 0 suspicious inline scripts, and 0 cloaking detections.
- Domain registration evidence: registered 2012-07-17 (~14.1 years old); archive evidence records 528 snapshots from 2013-08-30 through 2026-03-03, spanning 14 tracked years.

Regulatory Verification Notes

The site's identity and contact content presents a named creative-agency business with service descriptions, pricing examples, addresses, telephone information, email contact, and links to Instagram, Facebook, and X. The real-world operator identity is not independently verified, so these on-site claims should be treated as apparent rather than conclusive. No licensing claim or licensing number is presented in the supplied content; for a creative-services business this is a transparency and verification matter, not evidence of a scam. Available external reputation checks recorded no malicious or suspicious detections, no abuse reports, and no third-party broker match, although reputation coverage was partial.

EVIDENCE

- The site's contact and identity content publishes business contact details and social links alongside the AF Comunicações Criativas name.
- The site's available content contains no stated license authority or license number.
- Hosting is recorded as AS31898, ORACLE-BMC-31898 — Oracle Corporation, US.
- The transport certificate is issued by YR2 at DV validation level and is valid to 2026-11-10.

What to Verify Next

Before a commercial engagement, the prospective customer should independently confirm the agency's legal trading identity, obtain a written quotation or service agreement, and review cancellation, delivery, refund, and payment-protection terms. Any licensing or registration expectation applicable to the specific service should be checked with the relevant official registry, while contact channels should be confirmed through independently established social or offline business references before credentials or payment information are submitted.

EVIDENCE

- The homepage provides packaged prices of R\$199.00, R\$349.00, and R\$499.00 for consultancy, graphic design, and digital marketing services.
- The site provides a contact form but no sensitive form or login workflow was observed.
- Social links on the site reference Instagram, Facebook, and X as potential independent contact-reference points.

Summary Verdict

The overall posture is high trust and low risk, and the available evidence is consistent with an established, apparently legitimate service business. No scam, phishing, impersonation, or identity-conflict indicators were identified, but the operator’s real-world identity remains likely rather than independently verified.

Infrastructure Integrity

The site resolves through conventional Oracle-hosted infrastructure, with no CDN or WAF layer identified and no separate origin candidates observed. This provides a stable hosting context but is a mitigating technical observation only and does not independently establish the operator’s legitimacy.

Closing Assessment

Normal browsing and ordinary business enquiry are proportionate, with independent merchant-identity, contractual, and payment-protection checks completed before credentials or payment details are provided.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about artefatopro.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
