

Is asacobn.com a scam? TrustSniffer's high-risk assessment: 0/100

asacobn.com

Verdict

0

OUT OF 100

CRITICAL RISK

asacobn.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-22 by automated analysis. Classification confidence 55%.

What this site appears to be

Minimal parked-domain page for asacobn.com indicating the domain may be for sale, containing basic links (Terms of Service, Privacy Policy) and an inquiry CTA. No login, commerce flow, or verification details present.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What asacobn.com served when TrustSniffer captured it on 2026-08-22. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2001.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

asacobn.com is a minimal parked-domain landing page presenting the domain name, general informational wording, Terms of Service and Privacy Policy links, and an inquiry call to action indicating that the domain may be for sale. Its apparent business model is domain-sale inquiries, with no visible active service, account system, commerce process, or financial offering.

Scam/Impersonation Risk

No conflicting legal identities or on-page brand impersonation were observed. However, the domain is subject to a confirmed blacklist result and multiple external malicious detections, including detections from major security providers; this is a material contradiction that overrides the otherwise passive appearance of the landing page. The single abuse report associated with the hosting IP is expressly attributed to shared provider infrastructure with zero confidence and is therefore not treated as evidence that the domain itself caused the reported activity. The page contains no login form, credential request, payment flow, or other active interaction surface, but that limited functionality does not resolve the external threat findings.

EVIDENCE

- The homepage is identified as a “domain parking / for-sale” landing page and states that the domain may be for sale.
- External reputation telemetry records 15 malicious and 2 suspicious detections from 22 evaluated results, with a confirmed blacklist status.
- The hosting-IP report concerns 103.224.182.253, is attributed to shared infrastructure operated by Trellian Pty. Limited, and carries a confidence score of 0.

Regulatory Verification Notes

The site provides only basic Terms of Service and Privacy Policy links and does not identify an operating company, responsible individual, license, registration number, or regulated service on the visible page. Because the site presents itself as a parked domain rather than a financial or commercial service, the absence of licensing claims is a transparency limitation rather than proof of unlawful activity; nevertheless, the real-world operator remains unverified. The available registration record identifies Spaceship, Inc. as registrar and places the domain within a relatively short registration period. A valid domain-validated certificate confirms encrypted transport only and does not establish ownership, authorization, or legitimacy.

EVIDENCE

- The homepage contains approximately 196 characters of visible text and provides only the domain-sale statement, Terms of Service, Privacy Policy, and inquiry call to action.
- The domain was registered on 2023-11-23 and is approximately 2.75 years old; the registrar is Spaceship, Inc.
- The site's TLS certificate is DV, issued by YR2, and valid through 2026-10-05.

What to Verify Next

Before any sensitive interaction, an institution should independently confirm whether the domain is intentionally offered for sale and identify the party controlling the inquiry channel through an offline or otherwise trusted route. The external detections and blacklist status should be resolved through a current, domain-specific technical review before the domain is allowlisted or incorporated into business workflows. If the domain is being considered for acquisition, the transaction should include independent control verification, documented ownership transfer, and a review of any historical security incidents.

EVIDENCE

- The homepage presents an inquiry path for a possible domain sale but does not identify the seller or operator.
- The visible site contains no login, sensitive form, commerce flow, or verification details.
- The page is classified as a parked-domain landing page rather than an active operating business.

Summary Verdict

The overall posture is **critical risk**, driven by converging external threat and reputation contradictions despite the site's limited, apparently passive presentation. The website's real-world identity is unverified, and the

available evidence does not support sensitive interaction or institutional trust.

Infrastructure Integrity

The site resolves directly to 103.224.182.253 on AS133618, operated by TRELLIAN-AS-AP — Trellian Pty. Limited, AU, with no trusted CDN or WAF identified and one likely origin address. This infrastructure provides no meaningful protective mitigation for the external reputation findings.

EVIDENCE

- The site is served from AS133618, TRELLIAN-AS-AP — Trellian Pty. Limited, AU, using IP address 103.224.182.253.
- Infrastructure resolution identified 1 unique IP, 0 edge IPs, and 1 likely origin IP.
- No CDN or WAF vendor was detected.

Closing Assessment

Sensitive actions should not proceed unless independent identity, control, and security checks produce a documented resolution of the external threat findings; in the interim, the domain should be restricted to controlled, non-sensitive observation only.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Signals weighed against the site

- AbuseIPDB: 1 report on hosting IP 103.224.182.253 (Trellian Pty. Limited, Content Delivery Network), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100

Identity verification confidence	50%
----------------------------------	-----

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of asacobn.com.

- The request stayed on asacobn.com. It was not redirected to another domain. CLEAR
- Registration is published under Spaceship, Inc.. CLEAR
- DNS for this domain is served by edoms.biz, across 2 name servers. NOTED
- The registration is paid up to 2026-11-23. NOTED
- The earliest public archive of this site is from 2001-04-19. CLEAR
- It is hosted on TRELLIAN-AS-AP, from a server in AU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about asacobn.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
