

Is aseanairforce.org legit? TrustSniffer's high-trust assessment: 85/100

aseanairforce.org

Verdict

85

OUT OF 100

HIGH TRUST

aseanairforce.org appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Informational website for the 18th ASEAN Air Chiefs Conference and related ASEAN air force meetings, listing schedules, minutes, galleries, and service links. Content references Royal Thai Airforce and appears recovered via a Wayback Downloader snapshot.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2016.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This is an informational event and conference website presenting schedules, meeting information, minutes, galleries, videos, and related services for the 18th ASEAN Air Chiefs Conference and associated ASEAN air-force meetings. Its apparent purpose is organizational and public-service communication, including references to the Royal Thai Airforce, rather than commercial transactions or financial services.

Scam/Impersonation Risk

No scam, phishing, impersonation, or other contradictory signals were observed. The homepage presents a coherent conference-related purpose, including the 18th ASEAN Air Chiefs Conference in Bangkok and the ASEAN Air Forces Education and Training meeting, while the available content contains no login form, sensitive-data form, wallet connection, or payment workflow. The site therefore reads as an apparently legitimate informational resource, although the available evidence does not independently verify the real-world operator behind the domain.

EVIDENCE

- The homepage identifies the “18TH ASEAN AIR CHIEFS CONFERENCE,” conference dates, location, schedules, news, and related meeting activities.
- The homepage footer references “Royal Thai Airforce,” while the site navigation provides schedules, information, meeting minutes, galleries, videos, and documents.
- Interactive testing recorded 0 external XHR requests, 0 wallet-connect runs, 0 hidden forms, and 0 password-external forms.
- Archive provenance records a domain age of 9.94113620807666 years, with 55 snapshots spanning 2016–2025 and 10 years tracked.

Regulatory Verification Notes

The site's stated informational purpose does not present an obvious financial or regulated-service activity, and no license claim or regulatory number is supplied. The available About and conference material references an institutional subject, but it does not independently establish the legal entity operating the domain; this is a verification matter rather than evidence of fraud. External reputation context is favorable: no malicious or suspicious detections were recorded in the evaluated results, no abuse reports were reported for the observed CDN infrastructure, and no broker-dataset match was identified. The available evidence is therefore consistent with an established, apparently legitimate informational site, with operator identity remaining unverified.

EVIDENCE

- The homepage and navigation describe conference schedules, minutes, published information, galleries, videos, and documents rather than a regulated commercial offering.
- The site content contains no stated license authority or license number.
- The site's transport encryption uses a DV certificate issued by WE1, valid through 2026-11-11T04:45:17+00:00.

What to Verify Next

Before any future credential or payment interaction, independently confirm that the domain is an authorized communication channel for the conference or the referenced air-force organization, using an official institutional source rather than relying solely on the website. Any request that departs from the published informational purpose should receive separate scrutiny, including confirmation of the responsible entity, applicable terms, privacy provisions, and payment protections. Official contact channels should also be confirmed through an independent route.

EVIDENCE

- The public site describes conference administration and published information, providing a clear baseline against which any later request can be compared.
- The operator identity is not independently verified in the available evidence, making external institutional confirmation the appropriate identity check.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate informational website with a high-trust, low-risk posture. No contradictory scam or impersonation evidence was observed, but the classification should not be treated as independent proof of the real-world operator’s identity.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, and all observed addresses were CDN edge servers with no origin candidate identified. This reduces direct exposure of the underlying hosting environment and is a mitigating technical control, not proof of organizational legitimacy.

EVIDENCE

- Served from AS13335, CLOUDFLARENET — Cloudflare, Inc., US; observed edge IP: 104.21.71.9.
- TLS certificate issuer: WE1; validation level: DV; valid to 2026-11-11T04:45:17+00:00.
- Four observed IP addresses were CDN edge addresses, with 0 likely origin IPs identified.

Closing Assessment

Ordinary informational browsing is proportionate to the assessed posture. Independent institutional confirmation should precede any unexpected request for credentials, payment, or other sensitive action.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of aseanairforce.org.

- The request stayed on aseanairforce.org. It was not redirected to another domain. CLEAR
- Registration is published under NAMECHEAP INC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2026-12-19. NOTED
- The earliest public archive of this site is from 2016-09-09. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about aseanairforce.org at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
