

Is asianews.it legit? TrustSniffer's high-trust assessment: 100/100

asianews.it

Verdict

100

OUT OF 100

HIGH TRUST

asianews.it appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-04 by automated analysis. Classification confidence 75%.

What this site appears to be

AsiaNews is an advertising-supported news site. The captured content is dominated by a consent-management declaration covering cookies, personalized advertising, profiling, geolocation, device fingerprinting, analytics, embedded media, and a very large third-party vendor ecosystem; no phishing, credential harvesting, investment solicitation, or brand impersonation is evident.

Evidence status and limitations

Evidence completeness: UNKNOWN

- Module-level completeness metadata is unavailable for this legacy report.

At a glance

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2006.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

AsiaNews is an established news and current-affairs website whose publishing model is supported by personalized advertising, audience measurement, and embedded media services.

Scam/Impersonation Risk

No identity contradictions, phishing behavior, brand impersonation, investment solicitation, or credential-harvesting mechanisms were observed. This conclusion is reinforced by a long-established domain, extensive and continuous archival coverage, a meaningful global traffic footprint, and clean results across the evaluated threat-reputation sources. The site therefore presents no substantiated scam or impersonation concern.

- Domain-registration records show that asianews.it was registered on 14 April 2003 and is approximately 23.32 years old; the registrar is Global Accelerationist Company s.r.l.s.
- Historical records contain 5,000 archive snapshots from 6 December 2006 to 8 March 2021, spanning 16 tracked years with no gap longer than one year.
- The captured English-language page contained no login form, hidden form, sensitive-data form, wallet interaction, investment solicitation, or detected brand impersonation.
- External reputation telemetry recorded no malicious or suspicious classification, while the domain held a global traffic rank of 51,673.

Regulatory Verification Notes

The captured material characterizes AsiaNews as a news publisher rather than a financial, brokerage, investment, or virtual-asset service. No regulated product or licensing claim was presented, so financial-services authorization is not material to the apparent business model. The principal digital-trust consideration is privacy governance: the consent interface discloses personal-data processing by 1,022 partners, including personalized advertising, profiling, precise geolocation, device fingerprinting, analytics, and embedded-media processing. These disclosures make the data model visible, although the scale of the partner ecosystem warrants careful consent management.

- The consent interface states that AsiaNews and 1,022 partners may process personal data for advertising, content measurement, audience research, and service development.
- The same interface offers consent categories and states that consent may be changed or withdrawn through the cookie declaration or privacy control.

- Hosting telemetry identifies AS212238, operated by CDNEXT - Datacamp Limited, GB.
- The site uses a DV TLS certificate issued by YE1, valid until 9 October 2026.

What to Verify Next

Prospective institutional users should review the current privacy and cookie notices to confirm that consent withdrawal, purpose selection, and partner-level controls operate as described. Organizations subject to restrictive privacy policies should assess whether precise-location processing, fingerprinting, and advertising-partner sharing are compatible with their internal requirements. Official editorial and contact channels may also be confirmed independently where attribution or formal engagement is important.

- The captured page provides separate controls for necessary, preference, statistics, and marketing cookies.
- The homepage consent disclosure states that privacy choices apply to the digital property on which they are made.
- The page identifies social presences on Twitter, Facebook, and YouTube, providing additional channels for identity corroboration.

Summary Verdict

AsiaNews is a legitimate, established, and trustworthy publishing website. Its long operating history, sustained public presence, clean security reputation, stable behavior, and coherent news-media purpose converge strongly in support of normal interaction, including account login and standard use where offered.

Infrastructure Integrity

The website is protected by CDN77 CDN/WAF infrastructure, with both an edge address and a potential origin candidate observed. This arrangement mitigates direct exposure and supports availability, but remains a protective control rather than independent proof of legitimacy.

Closing Assessment

Normal use is appropriate; privacy-conscious users and regulated organizations should configure consent choices in accordance with their data-governance requirements.

Written analysis generated 2026-08-04 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of asianews.it.

- The request stayed on asianews.it. It was not redirected to another domain. CLEAR
- Registration is published under Global Accelerationist Company s.r.l.s.. CLEAR
- DNS for this domain is served by bunny.net. NOTED
- The registration is paid up to 2026-07-31. NOTED
- The earliest public archive of this site is from 2006-12-06. CLEAR
- It is hosted on CDNEXT, from a server in GB. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about asianews.it at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
