## The page as captured

<https://asiansparrow.com/>

What asiansparrow.com served when TrustSniffer captured it on 2026-08-22. The page may look different now.

## Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

## Full analysis

### Overview

The website is a corporate creative-services site presented as “Asian Sparrow – Creative Digital Studio,” offering app and game development, 2D/3D art, animation, web development, and related digital production services from Fair Oaks, California. Its apparent business model is project-based agency work using portfolio materials, pricing ranges, custom quotations, and client-contact workflows.

### Scam/Impersonation Risk

The site presents a coherent creative-agency model and the reviewed pages contain no detected login form, credential-collection flow, wallet functionality, or overt financial solicitation. However, this otherwise benign page presentation is outweighed by confirmed external threat detections: the domain is blacklisted by multiple sources, including a source reporting nine malicious detections and one suspicious detection. No conflicting legal-entity names or direct brand-impersonation indicators were observed, so the principal concern is the domain’s external reputation rather than a demonstrated identity contradiction within the site. Sensitive interaction, credential submission, and financial engagement should therefore be treated as high risk.

#### EVIDENCE

- The homepage identifies Asian Sparrow as a creative digital studio and lists apps, games, digital worlds, design, and development services.
- The contact page provides a project-inquiry form rather than a login or payment-credential form.
- External reputation telemetry records 9 malicious detections and 1 suspicious detection, with the domain marked as blacklisted.
- Domain registration telemetry records 2021-10-27, with an age of 4.82 years; historical records show 571 snapshots across 6 tracked years, from 2021-11-26 through 2026-06-09.

#### Regulatory Verification Notes

The legal and contact pages identify Asian Sparrow LLC and associate the business with Fair Oaks, California, while the available evidence does not independently verify the operator behind that stated identity. The site describes ordinary creative and software-development services rather than a regulated financial product, and no license or regulated-status claim is presented. The legal disclosure is therefore relevant to contracting and merchant due diligence, but it does not resolve the external threat-reputation issue. A low authority signal and the absence of a broader recognized broker match provide additional context, not a regulatory conclusion.

#### EVIDENCE

- The legal and contact pages present the name Asian Sparrow LLC and a Fair Oaks, California location.
- The services and pricing pages describe project-based contracts, packages, custom quotes, and client invoicing.
- The site's hosting infrastructure is AS22612, NAMECHEAP-NET – Namecheap, Inc., US.
- The site uses a DV TLS certificate issued by YE1, valid through 2026-09-18T05:24:32+00:00.

#### What to Verify Next

Before any sensitive interaction, an organization should independently confirm that Asian Sparrow LLC is the intended contracting entity, validate the business and payment instructions through an offline or independently sourced channel, and establish that any proposed work order, invoice, or software-delivery arrangement originates from the intended organization. Licensing verification is not the primary issue for the stated creative-services model, but the legal entity and contracting authority should be confirmed before funds, credentials, proprietary files, or production access are exchanged.

#### EVIDENCE

- The homepage contains a single contact-inquiry form and identifies the site as a business or creative agency.
- The portfolio and case-study areas provide service examples intended to support project lead generation.
- The site contains legal and contact details but does not independently establish the real-world operator's identity.
- Browser testing recorded 2 successful runs, no hidden forms, no password-external forms, and no wallet-provider or wallet-drainer activity.

Summary Verdict

The overall posture is **critical trust risk**. The site’s professional presentation and coherent commercial model do not offset the confirmed external threat detections, and the available evidence does not independently establish the operator’s identity. Sensitive interactions should not be treated as trustworthy on the basis of the website content alone.

Infrastructure Integrity

The domain resolves directly to one US-hosted address on Namecheap’s AS22612 infrastructure, with no CDN or WAF edge layer identified. The valid DV certificate provides transport encryption, but that protection confirms encrypted delivery only and does not establish the legitimacy of the operator or content.

Closing Assessment

The appropriate institutional posture is to restrict sensitive interaction and require independent entity, channel, and transaction validation before any credential, payment, proprietary-data, or system-access exchange.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

  - The registration record withholds contact details for the operator.  
Registration and ownership rule:KF\_WHOIS\_HIDDEN
  - Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.  
Registration and ownership rule:KF\_WHOIS\_PRIVATE
- 02 Sensitive Interaction Risk

  - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.  
Analysis engine signal:direct\_threat
  - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.  
External reputation rule:EXT\_BLACKLIST\_CRITICAL

Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 25%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

## What TrustSniffer observed

First-party facts recorded during the assessment of [asiansparrow.com](https://asiansparrow.com).

- The request stayed on [asiansparrow.com](https://asiansparrow.com). It was not redirected to another domain. CLEAR
- Registration is published under NAMECHEAP INC. CLEAR
- DNS for this domain is served by [namecheaphosting.com](https://namecheaphosting.com), across 2 name servers. NOTED
- The registration is paid up to 2026-10-27. NOTED
- The earliest public archive of this site is from 2021-11-26. CLEAR
- It is hosted on NAMECHEAP-NET, from a server in US. NOTED

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about [asiansparrow.com](https://asiansparrow.com) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
