Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

ASOBI STORE is Bandai Namco Entertainment's entertainment-commerce portal, presenting merchandise, packaged games, ebooks, CDs and Blu-rays, event ticketing, streamed events, community channels, and a paid premium membership offering coupons, advance ticket lotteries, exclusive products, videos, and loyalty benefits.

Scam/Impersonation Risk

No identity contradictions, brand impersonation, phishing behavior, or adverse threat-reputation signals were observed. The domain has a long, continuous history aligned with its current purpose, with no evidence of suspicious repurposing or a conflicting former business category. The site's behavioral profile was also consistent with an ordinary commerce portal: observed interactions produced no hidden forms, credential forwarding, cloaking, wallet access, clipboard manipulation, or suspicious inline scripts.

- The domain registration record shows registration in 2018 and an age of approximately 8.52 years.
- The web archive contains 137 snapshots spanning 2018-03-31 to 2026-07-26, covering 9 tracked years without material continuity gaps.
- External reputation checks recorded 0 malicious and 0 suspicious detections, no phishing indication, and no external threat-list hit.
- The domain holds a global traffic rank of 62,494, placing it within the top one million sites.

Regulatory Verification Notes

The homepage identifies Bandai Namco Entertainment Inc. and provides access to terms of use, a privacy policy, company information, and disclosures required for commercial transactions in Japan. The premium membership proposition is described with substantive consumer conditions: the monthly coupon is valued at ¥660, requires a purchase of at least ¥2,000 including tax, and excludes specified categories such as event tickets, streamed tickets, downloadable games, ebooks, and membership fees. No financial-services or investment activity is presented, so the absence of a financial regulatory licence is not an adverse indicator for this ecommerce business model.

- The homepage footer links to terms, privacy information, company information, and legally required commerce disclosures.
- The premium-membership content states the coupon value, minimum-spend condition, and product exclusions rather than presenting the benefit without qualifications.
- The site is served from AS16509 (AMAZON-02 — Amazon.com, Inc., US).

- The site's transport encryption uses a DV TLS certificate issued by Amazon RSA 2048 M01, valid until 2026-12-31.

What to Verify Next

For material purchases or membership enrolment, the applicable refund, cancellation, delivery, ticket-allocation, renewal, and coupon conditions should be reviewed at checkout because eligibility may vary by product. Official customer-service routes should be retained with the order confirmation, particularly for time-sensitive tickets or streamed events.

- The homepage provides a frequently asked questions area and a usage guide for transaction-related assistance.
- An inquiry form is identified as the route for coupon-related questions.
- The analyzed homepage contained no embedded sensitive-data form or form submitting information to an untrusted destination.

Summary Verdict

The website presents as a legitimate, established, and trustworthy official entertainment-commerce service. Its identity, historical continuity, public reputation, commercial disclosures, and observed behavior converge without contradictory or deceptive indicators.

Infrastructure Integrity

The website uses AWS CloudFront as its CDN/WAF, with all four observed addresses operating as Amazon edge servers. The origin server was not exposed during the analysis, which is a normal protective architecture that reduces direct infrastructure exposure but is not, by itself, proof of legitimacy.

Closing Assessment

Normal interaction—including account login, membership use, and standard transactions—is appropriate, subject to routine review of the applicable purchase conditions.

Written analysis generated 2026-08-03 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of asobistore.jp.

- The request stayed on asobistore.jp. It was not redirected to another domain. CLEAR
- DNS for this domain is served by awsdns-31.com, across 4 name servers. NOTED
- The registration is paid up to 2027-01-31. NOTED
- The earliest public archive of this site is from 2018-03-31. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about asobistore.jp at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
