

Is aspidagames.com a scam? TrustSniffer's high-risk assessment: 0/100

aspidagames.com

Verdict

0

OUT OF 100

CRITICAL RISK

aspidagames.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

A multilingual (German/Portuguese) informational website titled 'Aspida Games' focused on finance, investments, and fintech awareness. Contains legal disclaimer stating no payments or deposits are required and that content is for informational purposes only. No visible forms, payment flows, or credential collection present.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

At a glance

What aspidagames.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2015.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

Aspida Games is a multilingual German- and Portuguese-language informational website focused on personal finance, investment education, financial technology, and general financial planning. Its presentation is editorial rather than transactional, positioning the site as a source of finance-related information rather than an apparent payment, brokerage, or account-management service.

Scam/Impersonation Risk

The site presents a significant security concern despite the absence of visible phishing forms, payment flows, or explicit brand-impersonation indicators in the captured page content. External security intelligence recorded multiple malicious detections, a further suspicious detection, and confirmed blacklist status; these are direct contradictions to the site's otherwise benign informational presentation. Runtime analysis also identified

suspicious inline scripts and substantial post-interaction DOM change, which increases concern about content or behavior changing after a visitor interacts with the page. No identity contradiction between distinct legal-entity names was observed, and the available evidence does not establish impersonation or phishing specifically; nevertheless, the confirmed blacklist and malicious detections warrant a security-forward posture. Evidence:

- External reputation telemetry recorded 5 malicious detections, 1 suspicious detection, and a confirmed blacklist result for the domain.
- The site's runtime behavior recorded 2 suspicious inline scripts and a maximum post-interaction DOM difference of 2881.
- The homepage was classified as informational finance content, with no visible login form, sensitive form, or payment flow.

Regulatory Verification Notes

The site links to privacy, contact, terms-of-use, and about pages, but the available legal and identity content does not show a licensing or registration number and does not independently verify the operator behind “Aspida Games.” This is a material transparency gap for a site discussing finance and investments, although the page content does not claim a specific financial license. The site's ownership and governance disclosures therefore remain opaque, and any financial-service interpretation should not rely on the site's presentation alone. A separate broker-intelligence dataset produced no name match; that result is contextual only and is not a licensing or regulatory determination. Evidence:

- The legal navigation exposes “Datenschutzrichtlinie,” “Kontakt,” “Nutzungsbedingungen,” and “Über Uns,” while no visible license or registration number appears in the supplied page content.
- The domain was registered on 2024-08-31 and is approximately 1.97 years old; the registrar is Dynadot Inc.

What to Verify Next

Before any sensitive interaction, an independent party should identify the legal operator through an authoritative corporate registry and confirm any claimed or implied financial authorization with the relevant regulator. Contact details should be validated through an independently sourced channel rather than relying solely on the website. Any subsequent page that requests credentials, payments, downloads, or financial information should be treated as a materially different interaction surface from the informational homepage and assessed separately.

Evidence:

- The site's legal disclaimer states that access to its content and the referenced products or services does not require payments, deposits, or other financial prepayments.
- The captured site recorded 0 forms, no sensitive form fields, and no visible credential-collection mechanism.

Summary Verdict

The overall posture is **critical risk for sensitive interaction**. The website's informational appearance is not sufficient to offset the externally confirmed threat contradictions, while the real-world operator remains unverified.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, and the observed addresses were CDN edge servers rather than independently attributable origin infrastructure. This provides a mitigating layer against direct exposure, but it does not establish legitimacy and does not resolve the possibility of rapid content changes behind the edge layer. Evidence:

- Hosted on AS13335 (CLOUDFLARENET — Cloudflare, Inc., US).
- TLS certificate issued by WE1 (DV), valid to 2026-10-21T21:41:32+00:00.

Closing Assessment

Activity should remain limited to passive review, with no login, credential submission, payment, or financial transaction unless the operator and any relevant authorization have first been independently confirmed.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The page rewrote itself after it was interacted with, so what a visitor first sees is not what they end up on.
Behaviour in a sandbox rule:BEHAV_DOM_DIFF_AFTER_INTERACTION
- The page carried inline scripts written in a style TrustSniffer treats as suspicious.
Behaviour in a sandbox rule:BEHAV_SUSPICIOUS_INLINE_SCRIPTS
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of aspidagames.com.

- The request stayed on aspidagames.com. It was not redirected to another domain. CLEAR

- Registration is published under Dynadot Inc. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-08-31. NOTED
- The earliest public archive of this site is from 2015-11-21. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about aspidagames.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
