

Is asso-avsfr.com legit? TrustSniffer's high-trust assessment: 100/100

asso-avsfr.com

Verdict

100

OUT OF 100

HIGH TRUST

asso-avsfr.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

French-language homepage for 'Asso-Vitale', a volunteer-run charitable association describing mission, projects (construction, aid, cultural exchange), news, team members, contact details and calls to donate or volunteer.

Evidence status and limitations

Evidence completeness:

UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Asso-Vitale is a French-language website for a volunteer-run charitable association that presents social-solidarity projects, humanitarian initiatives, cultural exchanges, donation appeals, and opportunities to volunteer. Its apparent model is nonprofit activity funded through donations, partnerships, and grants, with visitors directed toward learning about projects, contacting the organization, donating, or joining as volunteers.

Scam/Impersonation Risk

No contradictions were observed across the available evidence: there is no indication of phishing, brand impersonation, malicious behavior, or blacklist exposure. The homepage describes a coherent charitable purpose, including classroom construction in Gbagbe, Benin; solidarity and vocational projects in Abomey-Calavi and Ouèssè; food assistance in France; and an intercultural festival. These are specific, internally consistent activities rather than generic investment or prize claims, although donation requests inherently warrant confirmation that funds reach the stated organization. The domain is also long-established, which supports continuity of the web presence without independently proving the operator's real-world identity.

EVIDENCE

- The homepage identifies Asso-Vitale's mission as social welfare, solidarity, mutual assistance, and support for disadvantaged communities.
- The homepage lists concrete projects in Benin and France and provides calls to donate or volunteer.
- Registered 2013-03-11 (~13.45 years old), with registration through OVH, SAS.
- Available external checks recorded no malicious or suspicious detections, no phishing or blacklist result, and 0 abuse reports; coverage was partial.

Regulatory Verification Notes

The site's About, president's message, team, partners, and contact sections provide an apparent organizational structure and a recognizable nonprofit presentation. The available pages do not present a license or registration number, and the regulatory status of the association is therefore not independently established from the website; this is a transparency and verification point, not evidence of a scam. The site's apparent legitimacy is supported by stable technical operation, long registration continuity, and a valid transport-encryption certificate, while the real-world operator identity remains unverified. No matching third-party broker reputation record was identified, but that contextual result is not a legal or licensing determination.

EVIDENCE

- Served from AS16276 (OVH - OVH SAS, FR).
- TLS certificate issued by YE2, validation level DV, valid to 2026-11-18.
- The homepage was successfully served with substantive organizational content, including mission, projects, team, contact, donation, and volunteer sections.
- The site's legal and identity navigation does not display a license or registration number in the supplied pages.

What to Verify Next

Before payment or personal-information interactions, an independent check should confirm the association's legal registration and the intended donation recipient through the relevant national or local registry. Donation terms, refund treatment, payment-provider protections, and the association's physical or independently published contact details should also be confirmed through a separate channel rather than relying solely on the website. Any request for credentials or sensitive identity documents should be assessed against the stated charitable purpose and the verified organization identity.

EVIDENCE

- The site provides separate About, team, partners, contact, donation, and volunteer pathways that can be cross-checked against independent records.
- The homepage identifies the president's message and organizational mission as sources for confirming the claimed association structure.
- The supplied page analysis found no login form, sensitive form, hidden form, or untrusted form destination.
- The site behavior recorded 0 wallet-connect runs, 0 wallet-sensitive runs, and 0 clipboard-hijack detections.

Summary Verdict

The overall posture is high trust and low risk, with the available evidence consistent with an established, apparently legitimate charitable website. This classification supports ordinary browsing and standard site interaction, but it should not be interpreted as independent proof of the real-world operator's identity.

Infrastructure Integrity

The website is protected by CDN/WAF infrastructure, with observed edge addresses associated with OVH - OVH SAS in France and no origin candidate identified in the supplied infrastructure analysis. This provides a mitigating layer against direct origin exposure and is supportive of routine technical integrity, but protective hosting alone does not establish organizational legitimacy.

EVIDENCE

- CDN/WAF protection present; 2 observed edge IP addresses and 0 likely origin IP addresses.
- Edge IPs: 2001:41d0:1:1b00:213:186:33:3 and 213.186.33.3.
- Hosting country: FR; registry: RIPE NCC.

Closing Assessment

Prospective users should complete ordinary independent checks of the charitable entity, donation destination, payment protections, and official contact route before providing payment details or sensitive personal information.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of asso-avsfr.com.

- The request stayed on asso-avsfr.com. It was not redirected to another domain. CLEAR
- Registration is published under OVH, SAS. CLEAR
- DNS for this domain is served by ovh.net, across 2 name servers. NOTED
- The registration is paid up to 2027-03-11. NOTED
- The earliest public archive of this site is from 2013-07-04. CLEAR
- It is hosted on OVH, from a server in FR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about asso-avsfr.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
