Key findings

- Automated classification: Not Scam.
- Public web-archive history exists since 1999.
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

ASTROSHOP is a German-language ecommerce website operated by NIMAX GmbH that sells telescopes, binoculars, microscopes, astronomy equipment, outdoor optics, accessories, and related services to consumers and businesses.

Scam/Impersonation Risk

No contradictions were observed across the site's identity, content, behavioral, and external-reputation signals. The homepage presents a coherent specialist retail model, with product categories, pricing, customer-service information, legal pages, shipping and returns, and no phishing, brand-impersonation, cryptocurrency, wallet, or deceptive financial indicators. The site's published customer-facing claims, including "7,500+ articles available from stock" and a 4.83/5 Trusted Shops rating, are presented within a normal ecommerce context rather than as unsupported investment or wealth claims.

- The homepage identifies ASTROSHOP as an astronomy retailer and presents telescopes, binoculars, microscopes, astrophotography equipment, and outdoor optics.
- Behavioral testing recorded no hidden forms, wallet activity, clipboard hijacking, cloaking, or suspicious inline scripts.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing finding.

Regulatory Verification Notes

The site provides legal information, customer-service details, shipping and returns information, and identifies NIMAX GmbH as its operating company. No financial-services licensing claim is relevant to the stated retail business model; the available evidence supports a conventional goods-sales operation rather than a regulated investment service. Regulatory confirmation is therefore limited to the seller identity and consumer-commerce disclosures presented on the site.

- The homepage and legal-information areas identify the operator as NIMAX GmbH.
- The domain was first seen on 1999-04-18 and has an authoritative age of 27.288158795345655 years.
- The site has 2164 archive snapshots spanning 1999–2026, covering 28 years.
- Transport encryption uses a DV certificate issued by WE1, valid until 2026-10-20T02:44:32+00:00.

What to Verify Next

For a high-value purchase, the prospective customer should reconcile the seller details on the site’s legal pages with an independent corporate registry and confirm payment, delivery, warranty, and returns terms before placing the order. Customer-service contact channels should also be confirmed through an independent route where transaction value or account sensitivity warrants it.

- The homepage links to legal information, customer service, shipping, and returns content.
- The site supports product purchases across a broad catalog and displays pricing and stock-related claims.
- The stated operator is NIMAX GmbH, providing a concrete identity for independent business verification.

Summary Verdict

ASTROSHOP presents as a legitimate, established, and trustworthy specialist ecommerce business. The convergence of long-term continuity, coherent commercial content, clean external reputation, and consistent technical operation supports normal interaction, including account login and standard transactions.

Infrastructure Integrity

The site is served through Cloudflare’s CDN/WAF infrastructure, with all observed addresses belonging to edge servers and no origin candidate identified. This provides a meaningful protective layer against direct origin exposure and common network abuse, while remaining a mitigation rather than proof of legitimacy.

Closing Assessment

Normal browsing, account use, and standard purchasing are appropriate, with independent seller and transaction checks reserved for unusually high-value orders.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of astroshop.de.

- The request stayed on astroshop.de. It was not redirected to another domain. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The earliest public archive of this site is from 1999-04-18. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about astroshop.de at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
