Regulatory Verification Notes

The site presents corporate information, ordering guidance, delivery terms, and customer-support material consistent with an established consumer retailer. Registration information identifies OOO ATB-market, with Center of Ukrainian Internet Names (UKRNames) as registrar.

- The site's content includes corporate details, delivery information, customer support, and ordering policies.
- The domain was registered on 2002-01-09 and is approximately 24.58 years old.

What to Verify Next

For formal procurement or partnership onboarding, independently match the corporate details shown on the site with the applicable Ukrainian business registry and retain the published ordering, delivery, and returns terms for

transaction records. Confirm official support channels through an independently sourced company contact route before resolving account or payment disputes.

- The homepage provides delivery regions, delivery methods, store-pickup information, and ordering instructions.
- The site presents customer-support and corporate-information content for operational due diligence.

Summary Verdict

The website presents as a legitimate, established, and trustworthy consumer-retail service. Its identity, business purpose, technical controls, and clean reputation converge on a low-risk posture for ordinary use.

Infrastructure Integrity

Cloudflare CDN and WAF protection provide a mitigating layer around the service, with observed traffic terminating at Cloudflare edge addresses 104.18.6.58 and 104.18.7.58; the origin server was not exposed in the observed infrastructure.

Closing Assessment

Normal account login, ordering, payment, and standard account actions are appropriate, subject to ordinary transaction and procurement controls.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about atbmarket.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
