## Key findings

---

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2019.
- No flags from the reputation services TrustSniffer consulted at assessment time.

## Full analysis

---

### Overview

The website presents Atlas Livraison as a Moroccan logistics company serving individuals, businesses, and e-commerce merchants through parcel collection, storage, dispatch, nationwide delivery, shipment tracking, and remittance-return services, with revenue apparently derived from published delivery charges and associated logistics services.

### Scam/Impersonation Risk

No identity contradictions, brand impersonation, phishing behavior, or adverse threat-reputation signals were observed. The domain's long-established registration and continuous archival record support provenance, while the homepage presents coherent, content-rich logistics operations rather than deceptive financial or credential-harvesting propositions. Its established global traffic presence and clean external reputation provide additional evidence that this is a legitimate operating website.

- The domain registration record shows: Registered 2018 (~7.58 years old), with ARCANES TECHNOLOGIES as registrar and an expiration date of 31 December 2026.
- The web archive contains 94 snapshots spanning 2019–2026 (8 years tracked), with no detected suspicious repurposing or semantic drift.
- External reputation checks recorded 0 malicious and 0 suspicious detections, no malicious safe-browsing classification, no abuse reports, and no external blacklist finding.
- The domain is ranked 780,955 in the global traffic dataset and falls within its top one million sites.

### Regulatory Verification Notes

The homepage consistently identifies the business as Atlas Livraison, and the domain registration names "Atlas livraison" as the owner, providing direct alignment between the presented and registered identities. The available page content does not establish a formal corporate registration number, verifiable physical address, or licensing claim. For a general logistics provider, the absence of a licensing claim is not inherently anomalous, but the legal-entity and address details remain a minor disclosure gap for institutional due diligence. No matching broker profile was found; this has no material regulatory significance for a parcel-delivery business.

- The homepage describes Atlas Livraison as a Moroccan delivery company and explains its national express-messaging operations, customer groups, and service process.
- The registration record attributes the domain to "Atlas livraison," consistent with the identity used on the homepage.

- The reviewed page content did not provide independently verifiable legal-entity or physical-address particulars.
- The site's transport encryption uses a WE1-issued domain-validated certificate, valid to 5 October 2026.

### What to Verify Next

Before entering a material commercial relationship, institutional counterparties should confirm the company's legal name and registration directly through the applicable Moroccan corporate registry, validate its operating address and official contact channels through an independent route, and review the contractual terms governing custody, delivery liability, data processing, and remittance settlement. Prospective API customers should additionally establish authentication, access-control, and incident-support requirements before production integration.

- The homepage publishes city-specific delivery prices and estimated service times, creating concrete commercial terms that can be reconciled with a written agreement.
- The site navigation provides registration, account-login, and API entry points, indicating customer-account and systems-integration functions.
- The parcel-tracking interface invites customers to retrieve shipment status using a parcel or merchandise code.
- The service description includes collection, documentary management, delivery against acknowledgement of receipt, and return-of-funds handling.

### Summary Verdict

The website is legitimate, established, and trustworthy. Its consistent business identity, sustained provenance, substantive operating content, clean reputation, and stable technical behavior converge on a high-confidence assessment with no observed contradictions. Normal interaction, including account login and standard use, is appropriate.

### Infrastructure Integrity

The website is protected by Cloudflare's mainstream CDN/WAF infrastructure. All four observed addresses were Cloudflare edge servers, with no separate origin candidate exposed; this reduces direct origin-server exposure and provides a meaningful security mitigation, although protective infrastructure alone does not establish business legitimacy.

- The hosting infrastructure is served from AS13335 (CLOUDFLARENET — Cloudflare, Inc., US).
- Four CDN edge addresses were observed, comprising two IPv4 and two IPv6 addresses, all associated with AS13335.

### Closing Assessment

Prospective users may proceed with ordinary website, account, and service interactions; institutional or high-value engagements should follow standard counterparty onboarding and contractual due diligence.

Written analysis generated 2026-07-31 by the TrustSniffer Analysis Engine from the evidence in this report.

### What the analysis found

---

No rule findings contributed to this verdict.

## Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 50%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

## What TrustSniffer observed

First-party facts recorded during the assessment of atlaslivraison.ma.

- The request stayed on atlaslivraison.ma. It was not redirected to another domain. CLEAR
- Registration is published under ARCANES TECHNOLOGIES. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2026-12-31. NOTED
- The earliest public archive of this site is from 2019-01-06. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about atlaslivraison.ma at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
