Full analysis

Overview

The website presents AU Small Finance Bank's personal, business, corporate, and NRI banking services, with the apparent purpose of providing information and access to banking products for those customer segments.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or conflicting-identity signals were observed. The homepage identifies the institution as AU Small Finance Bank, while behavioral testing found no hidden forms, externally submitted password forms, wallet-drainer activity, clipboard manipulation, or cloaking. The available external reputation checks were clean, and no broker-reputation match was identified.

- Homepage title: "Personal, Business, Corporate, and NRI Banking | AU Small Finance Bank."
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist hit.
- Behavioral testing recorded no hidden forms, password-exfiltration forms, wallet-drainer runs, or cloaking.

Regulatory Verification Notes

The available evidence supports an established banking identity and does not reveal an identity contradiction. Licensing or registration status cannot be determined from the supplied page evidence; this is a verification point rather than evidence of misconduct. Registration is recorded through the National Internet Exchange of India, with NIXI listed as the organization.

- Domain registered 2005-02-17 and approximately 21.47 years old; expiration recorded as 2027-02-17.
- Web archive recorded 10 snapshots spanning 2025-10-30 to 2026-07-21, across 2 years tracked.
- Served from AS13335 (CLOUDFLARENET - Cloudflare, Inc., US).
- TLS certificate issued by WE1 at DV validation level, valid to 2026-10-29.

What to Verify Next

For regulated onboarding or high-value banking use, confirm the institution's current authorization and applicable product permissions through the relevant official financial-services registry, and validate any specific offer through independently sourced institutional contact details.

- The supplied page evidence establishes the banking-service identity but does not provide a licensing or registration number.
- The domain registration record identifies NIXI as registrar and organization.
- The TLS certificate is valid through 2026-10-29.

Summary Verdict

The website has a high-trust posture consistent with a legitimate, established financial-services entity. Its identity, clean reputation, long registration history, and normal observed behavior converge without contradictory indicators. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure and resolves to Cloudflare edge addresses rather than an exposed origin. This provides a meaningful mitigation against direct origin exposure, although protective hosting alone is not proof of legitimacy.

Closing Assessment

Proceed with normal use while applying the institution’s standard verification and transaction controls for regulated financial activity.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about au.bank.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
