

Is audionic.co legit? TrustSniffer's high-trust assessment: 80/100

audionic.co

Verdict

80

OUT OF 100

HIGH TRUST

audionic.co appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 75%.

What this site appears to be

Commercial product catalog for Audionic (audio products) targeted at Pakistan market: product grids, prices, discounts, product detail and spec/FAQ content, cart and login affordances, and promotional banners.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2012.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

This website is a direct-to-consumer retail storefront for Audionic, presenting a Pakistan-focused catalogue of audio products with product specifications, pricing, promotional discounts, account access, cart functionality, and checkout flows.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, malicious-content, or identity-contradiction signals were observed. The homepage has a coherent retail presentation, including product grids, specifications, FAQs, warranty and returns content, account functionality, and checkout initiation. Promotional claims such as “39 Coupons Left,” “Limited Stock,” “22k Sold,” and discounts on products including Airbud 735 Ion with ANC and Battlebuds NEO ANC Gaming Buds are commercially aggressive, but the supplied page analysis identified no associated fraud indicators. A reputation warning associated with an observed shared provider address is discounted because it applies to shared infrastructure, is whitelisted, and has zero confidence as a site-specific signal. The real-world operator remains independently unverified, so the apparent brand presentation should not be treated as proof of legal ownership or affiliation.

EVIDENCE

- The domain was registered on 2011-04-05 and is approximately 15.36 years old.
- The site has 276 archive snapshots spanning 2012-01-21 to 2026-07-31, covering 15 tracked years.
- The homepage contains no detected hidden forms, externally submitted password forms, wallet-drainer activity, clipboard hijacking, or cloaking.
- The observed shared provider IP has 180 abuse reports, but the reports are attributed to shared infrastructure, with the address whitelisted and confidence recorded as 0.

Regulatory Verification Notes

The site presents itself as an established consumer retail brand rather than as a regulated financial or investment service. Available content describes products, specifications, warranty and returns, support, and order tracking, but no licensing or corporate registration number was identified in the reviewed site material. This is a transparency item for ordinary merchant due diligence, not evidence of a scam. The available evidence is otherwise consistent with an established commercial website: the domain has sustained historical continuity, the page content is substantial and internally coherent, and external reputation checks did not identify malicious or

suspicious detections. Registration privacy is an administrative limitation and does not, by itself, create an identity contradiction.

EVIDENCE

- Hosting telemetry records AS13335, CLOUDFLARENET – Cloudflare, Inc., US.
- The transport certificate was issued by YE2 at DV validation level and is valid to 2026-10-31 16:40:03 UTC.
- The domain registrar is NAMECHEAP INC, with a recorded expiration date of 2028-04-04 23:59:59Z.
- The homepage provides product, specification, FAQ, warranty, returns, support, and order-tracking content, but no license or registration number was identified in the reviewed material.

What to Verify Next

Before credential or payment activity, an independent merchant-identity check should confirm the legal entity receiving funds and its relationship to the Audionic brand. The applicable returns, warranty, delivery, cancellation, and refund terms should be reviewed against the intended purchase, and payment should use a method providing documented buyer protection. Official support and contact channels should be confirmed through an independent route rather than relying solely on details encountered during checkout.

EVIDENCE

- The homepage exposes account login and registration functions alongside cart and checkout initiation.
- Product and support content includes warranty, returns, FAQs, and order-tracking pathways relevant to a retail transaction.
- The site's checkout flow provides the appropriate point at which the payment recipient, final price, delivery terms, and refund conditions should be checked.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture for its stated retail purpose. The classification does not independently verify the real-world operator's identity, ownership, or affiliation.

Infrastructure Integrity

The site is protected by Cloudflare CDN and WAF infrastructure. Observed edge addresses are 23.227.38.65 and 23.227.38.74, both associated with AS13335; no origin-server candidate was observed. This architecture is a mitigating control that reduces direct exposure of the underlying service, but it is not proof of legitimacy.

Closing Assessment

Normal browsing and ordinary retail consideration are proportionate, with independent merchant, returns, and payment-protection checks completed before credentials or payment details are submitted.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Signals weighed against the site

- AbuseIPDB: 180 reports on hosting IP 23.227.38.65 (Shopify, Inc., Content Delivery Network), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of audionic.co.

- The request stayed on audionic.co. It was not redirected to another domain. CLEAR
- Registration is published under NAMECHEAP INC. CLEAR
- DNS for this domain is served by registrar-servers.com, across 2 name servers. NOTED
- The registration is paid up to 2028-04-04. CLEAR
- The earliest public archive of this site is from 2012-01-21. CLEAR
- It is hosted on CLOUDFLARENET, from a server in CA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about audionic.co at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
