

Is automaistv.com.br legit? TrustSniffer's high-trust assessment: 90/100

automaistv.com.br

Verdict

90

OUT OF 100

HIGH TRUST

automaistv.com.br appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 75%.

What this site appears to be

Auto+ TV is an established Brazilian automotive news and media site with editorial sections (news, reviews, columns, videos). The site uses a consent management platform and lists many advertising/analytics vendors; monetization is ad-driven.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2007.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Auto+ TV is a Brazilian automotive news and media website presenting vehicle news, reviews, market coverage, columns, videos, podcasts, maintenance content, and related features through an advertising-supported publishing model.

Scam/Impersonation Risk

No contradictions were observed. The homepage's editorial structure, extensive automotive content, and absence of login forms, sensitive input forms, wallet activity, cloaking, or hidden forms are consistent with a conventional media site rather than a credential-capture or impersonation operation. External reputation checks found no malicious or phishing detections, and the historical record shows sustained continuity without suspicious repurposing. The available evidence therefore supports an apparently legitimate, low-risk website, while not independently proving the real-world operator's identity.

EVIDENCE

- The homepage is titled "Auto+ TV - Seu Programa de Notícias Sobre Automóvel" and contains editorial sections for news, evaluations, motorcycles, sales and prices, columns, videos, podcasts, and related automotive features.
- The domain was registered in 2004 and is approximately 22.31 years old.
- The site has 642 archive snapshots spanning 2007–2026, covering 20 tracked years.
- The homepage assessment recorded no malicious or suspicious detections, no brand-impersonation indicators, no login form, and no hidden sensitive form.

Regulatory Verification Notes

The site presents itself as an advertising-supported media publisher rather than a financial, investment, or other regulated service. No licensing claim or license number is presented in the available business-model evidence; for this type of editorial website, that is a disclosure point to clarify rather than evidence of deception. The publisher identity remains unverified independently: a registration record names AUTO+ ENTRETENIMENTO LTDA, but the available evidence does not establish that this entity is the confirmed operator of the website. The clean reputation, established historical presence, and valid transport security materially support the site's apparent legitimacy, but they do not substitute for legal-entity verification.

EVIDENCE

- The site's stated business model is advertising-supported automotive publishing using advertising, analytics, and consent-management services.
- The registration record lists AUTO+ ENTRETENIMENTO LTDA as the registrant.
- Hosted on AS13335 (CLOUDFLARENET - Cloudflare, Inc., US).
- TLS certificate issued by WE1 with DV validation, valid to 2026-10-23 18:37:49 UTC.

What to Verify Next

Before any credential or payment interaction associated with the site, an organization should independently confirm that the publisher named in the site's legal or contact materials matches the relevant corporate records. Terms, privacy, advertising disclosures, and any transaction-specific conditions should be reviewed, and payment-protection arrangements should be confirmed where the site offers a paid service or commercial transaction. Official contact channels should be validated through an independent route rather than relying solely on a newly encountered page.

EVIDENCE

- Independent operator identity has not been established by the available evidence.
- The available assessment identifies an editorial media model and does not identify a regulated financial-service offering.
- The homepage capture contains no sensitive form or account-login workflow requiring immediate credential validation.

Summary Verdict

The overall posture is **high trust and low risk**, and the evidence is consistent with an established, apparently legitimate website. No scam, phishing, impersonation, or identity-conflict indicators were observed; the remaining qualification is that the real-world operator identity is not independently verified.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, providing a mitigating layer against direct exposure of the hosting environment. Observed addresses were CDN edge addresses, with no origin candidate identified in the infrastructure assessment; this protection supports resilience and reduces direct-origin exposure but is not, by itself, proof of legitimacy.

EVIDENCE

- Cloudflare CDN/WAF detected; 6 edge IP addresses observed and 0 likely origin IP addresses identified.
- Edge infrastructure included 104.26.0.232, 104.26.1.232, 172.67.70.6, and 2606:4700:20::681a:1e8, all associated with AS13335.

Closing Assessment

Normal browsing is proportionate to the assessed posture; before submitting credentials or making a payment, the prospective user should complete the ordinary independent identity, terms, and payment-protection checks described above.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of automaistv.com.br.

- The request stayed on automaistv.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-04-26. NOTED
- The earliest public archive of this site is from 2007-03-13. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about automaistv.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
