What autosalon-pal.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

## Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2006.
- No flags from the reputation services TrustSniffer consulted at assessment time.

## Full analysis

### Overview

Autosalon PAL is a regional used-car dealership website presenting passenger and commercial vehicles for sale, together with vehicle transport and financing options through leasing or credit; its apparent business model is conventional vehicle sales and related services.

### Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent dealership identity and business purpose, while the available page and behavioral checks found no phishing indicators, brand impersonation, hidden forms, wallet activity, or other high-risk abuse pattern. The site's historical record also supports continuity rather than suspicious repurposing, although this establishes domain provenance rather than independently proving the current operator's real-world identity.

#### EVIDENCE

- Homepage: dealership branding, vehicle-sale content, and ordinary business functions are presented consistently; no red flags were identified.
- Homepage behavior: one contact-request form was observed, with no sensitive form, login form, hidden form, password submission, or wallet interaction detected.
- Domain history: 228 archive snapshots spanning 2006-12-07 through 2026-06-09, covering 21 years tracked.

#### Regulatory Verification Notes

The available evidence is consistent with an established, apparently legitimate local business, but the operator's connection to a independently verified legal entity remains unconfirmed. The site does not claim a regulatory license or provide a license number in the supplied content. For a dealership offering leasing and credit options, this is a transparency and verification point concerning the legal entity, financing arrangements, and any applicable commercial permissions; it is not, by itself, evidence of scam activity. The available broker-reputation context contains no match, and no confirmed malicious or blacklist signal was identified.

#### EVIDENCE

- Domain registration: registered through ENOM, INC. on 2005-11-18 and approximately 20.76 years old, with expiration recorded as 2026-11-18.
- Hosting telemetry: served from AS200698, GLOBALHOST-BOSNIA-AS — Globalhost d.o.o., BA.
- Transport security: TLS certificate issued by YR1 at DV validation level, valid to 2026-09-18.

#### What to Verify Next

Before credential or payment interactions, an independent check should connect the Autosalon PAL trading name to its legal entity and confirm the applicable terms for any leasing or credit arrangement. Vehicle documentation, ownership or title records, delivery obligations, cancellation or return terms, and payment-protection options should be confirmed before funds are transferred. Official contact channels should also be confirmed through an independent route, particularly for high-value transactions.

#### EVIDENCE

- Contact page: publishes the business address, telephone numbers, and opening hours needed for independent confirmation.
- Vehicle listings: provide the inventory and vehicle-specific details relevant to document, ownership, and delivery checks.
- Homepage: states that leasing and credit purchase options are available, making financing terms a material verification item.

#### Summary Verdict

The site has a **high-trust, low-risk posture** and appears consistent with an established operating website rather than a scam or impersonation property. Legitimacy is apparent from the convergence of coherent

business content, sustained provenance, clean available reputation signals, and stable technical operation, while real-world operator identity remains unverified.

Infrastructure Integrity

The site resolves directly to a single hosting origin on AS200698, operated by Globalhost d.o.o. in Bosnia and Herzegovina, without a detected CDN or WAF edge layer. This provides a straightforward hosting path but limited intermediary shielding; infrastructure characteristics are therefore only a supporting technical consideration and not proof of legitimacy.

Closing Assessment

Proceed with ordinary commercial diligence before submitting credentials or making payment, with particular attention to independently confirmed merchant identity, transaction documentation, and available payment protections.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 25%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of autosalon-pal.com.

- The request stayed on autosalon-pal.com. It was not redirected to another domain. CLEAR
- Registration is published under ENOM, INC.. CLEAR
- DNS for this domain is served by au-globaldns.com, across 5 name servers. NOTED
- The registration is paid up to 2026-11-18. NOTED
- The earliest public archive of this site is from 2006-12-07. CLEAR
- It is hosted on GLOBALHOST-BOSNIA-AS, from a server in BA. NOTED

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about autosalon-pal.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
