

# Is autostart-brasov.ro legit? TrustSniffer's high-trust assessment: 100/100

autostart-brasov.ro

## Verdict

100

OUT OF 100

HIGH TRUST

autostart-brasov.ro appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Official website for AutoStart driving school in Brasov (Romania). Contains course descriptions for multiple license categories, enrollment/contact form, contact phone numbers, address, and information about certifications and requirements. Appears to be a local service site with promotional offers and standard contact methods.

## Evidence status and limitations

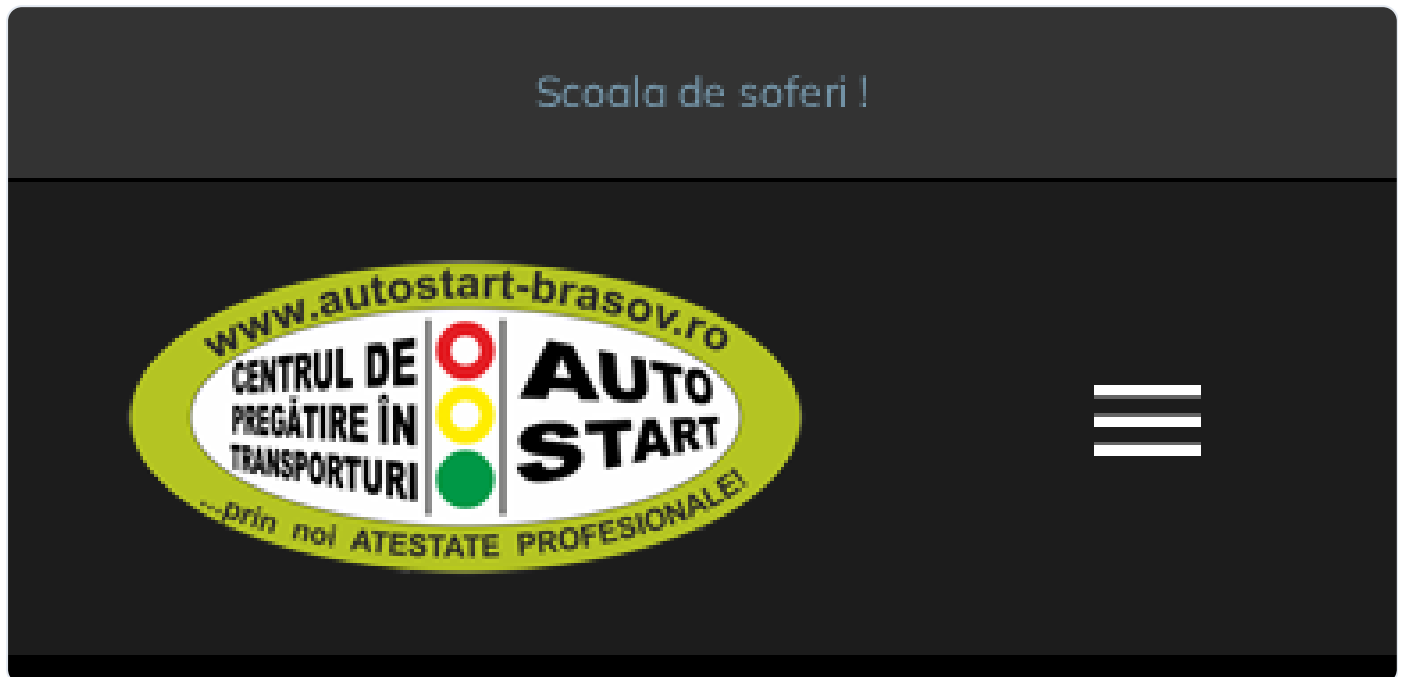

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
  - Module-level completeness metadata is unavailable for this legacy report.

What autostart-brasov.ro served when TrustSniffer captured it on 2026-08-20. The page may look different now.

## Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2010.
- No flags from the reputation services TrustSniffer consulted at assessment time.

## Full analysis

### Overview

AutoStart Brasov is a Romanian local-service website for a driving school in Braşov, presenting driving lessons across multiple vehicle categories, professional transport-certification courses, tariffs, enrollment information, instructor and facility details, and telephone-based or form-based registration.

### Scam/Impersonation Risk

No contradictions were observed. The homepage and course pages describe a coherent local driving-school business model, with ordinary educational services, contact methods, an address, and an enrollment form rather than credential-harvesting, investment, cryptocurrency, or other abuse-oriented functionality. The available technical and reputation checks recorded no malicious or suspicious detections, and there was no indication of phishing, brand impersonation, or a repurposed legacy domain. The site is therefore apparently legitimate and low risk for scam or impersonation concerns, although the real-world operator identity remains independently unverified.

#### EVIDENCE

- The homepage identifies the business as a Braşov driving school and provides course, enrollment, and contact information.
- The site offers one contact/registration form without a login or password-collection function.
- Domain registration: 2008-12-04; age 17.72 years.
- Historical records identify the domain from 2010-07-28 through 2025-11-13, with no detected category repurposing or semantic drift.

#### Regulatory Verification Notes

The website presents driving instruction and professional transport certifications, including categories for passenger and goods transport, taxi and rental transport, ADR, CPC/CPI, and instructor training. It also refers to certifications, requirements, tariffs, and enrollment procedures, which is consistent with a functioning vocational service. However, the supplied pages do not state a license number or identify a licensing authority; this is a transparency item requiring ordinary regulatory confirmation, not evidence of a scam. No independent broker-reputation match was identified, but that contextual signal is not a legal or licensing determination. The site's apparent business identity is evidence-consistent, while independent operator verification remains unresolved.

#### EVIDENCE

- The "Atestate profesional" and related course pages list professional transport and instructor-certification programmes.
- The "Contact," "Despre noi," and enrollment content provide business location, telephone, course, and registration details.
- Registered through Claus Web SRL; registration date 2008-12-04.
- Hosted on AS205275 (ROMARG - ROMARG SRL, RO); TLS certificate issued by YR1 using DV validation, valid to 2026-10-17.

#### What to Verify Next

Before credential or payment interactions, an interested party should independently confirm the operating legal entity and the authorization of the relevant driving-school and professional-certification activities through the applicable Romanian registry or transport authority. The stated address and telephone numbers should be validated through an independent offline or official channel, and any course payment should be supported by clear terms, cancellation or refund conditions, and payment protections appropriate to the transaction.

#### EVIDENCE

- The site separates course categories, tariffs, enrollment instructions, and contact information into identifiable service pages.
- The registration form is presented as a contact/enrollment mechanism rather than an account-login workflow.
- The homepage states that the school handles practical-exam scheduling directly from its premises.

Summary Verdict

Overall posture is **high trust and low risk**, and the available evidence is consistent with an established, apparently legitimate local service website. No scam, phishing, impersonation, or other contradictory signal was observed; the remaining qualification is that the real-world operator identity has not been independently verified.

Infrastructure Integrity

The site resolves to hosting operated by ROMARG - ROMARG SRL in Romania, with no CDN or WAF detected and a directly observable hosting endpoint. This is a conventional, identifiable hosting arrangement rather than a concealment signal; the infrastructure provides basic technical attribution but should be treated as a mitigating context, not proof of business legitimacy.

EVIDENCE

- Served from AS205275 (ROMARG - ROMARG SRL, RO), IP address 89.42.218.44.
- Infrastructure resolution identified 1 unique IP, 0 edge IPs, and 1 likely origin IP.
- TLS validation level: DV; issuer YR1; validity end 2026-10-17T13:07:10+00:00.

Closing Assessment

Normal browsing and ordinary service engagement are proportionate to the site’s assessed posture, subject to independent confirmation of the operator, applicable authorization, contractual terms, and payment protections before credentials or funds are provided.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 50%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of autostart-brasov.ro.

- The request stayed on autostart-brasov.ro. It was not redirected to another domain. CLEAR
- Registration is published under Claus Web SRL. CLEAR
- DNS for this domain is served by romarg.com, across 4 name servers. NOTED
- The earliest public archive of this site is from 2010-07-28. CLEAR
- It is hosted on ROMARG, from a server in RO. NOTED

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about autostart-brasov.ro at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
