

Is avalancheimpex.com legit? TrustSniffer's high-trust assessment: 80/100

avalancheimpex.com

Verdict

80

OUT OF 100

HIGH TRUST

avalancheimpex.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 70%.

What this site appears to be

Corporate website for Avalanche Impex Pvt Ltd, an importer and manufacturer of lubricant oils. Contains company mission, product list, contact phone numbers, email and physical address. No apparent forms, login, or financial solicitation present.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Avalanche
Impex Pvt. Ltd.

What avalancheimpex.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2017.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

Avalanche Impex Pvt Ltd is presented as an Indian corporate website for a lubricant-oil importer and manufacturer, offering information about its business, industrial product range, company mission, careers, and contact channels for prospective commercial customers.

Scam/Impersonation Risk

No contradictions were observed. The reviewed pages present a consistent corporate/manufacturer purpose, with no apparent login function, sensitive form, financial solicitation, wallet interaction, phishing behavior, or brand-impersonation indicator. One abuse report is associated with the hosting IP, but the attribution identifies shared infrastructure, the usage type as content delivery, and a confidence score of zero; it therefore does not establish abuse by this website. The site's historical continuity and stable page behavior further support a low scam or impersonation concern, while the operator's real-world identity remains independently unverified.

EVIDENCE

- The homepage and navigation identify “Avalanche Impex Pvt Ltd” as a lubricant manufacturer and describe importing and manufacturing activities; no phishing or impersonation indicator was detected.
- The behavioral assessment recorded no login form, hidden sensitive form, external POST activity, wallet-provider activity, clipboard-hijacking behavior, or cloaking.
- The domain was registered on 2017-05-01 and is approximately 9.31 years old.
- The archive contains 279 snapshots spanning 2017-07-04 to 2026-03-11 across 10 years tracked.

Regulatory Verification Notes

The About and Contact pages provide a business description, company name, telephone details, email contact, and a physical address, which is consistent with a conventional B2B manufacturer. The site does not state a license or registration number in the reviewed content; for an industrial importer and manufacturer, the applicable corporate, trade, or sector-specific credentials should therefore be confirmed independently. This is a disclosure and verification point, not evidence of scam activity. Registration records identify GoDaddy.com, LLC, and the site's transport encryption is valid, supporting the view that the web presence is established and operational. The available evidence is consistent with an established, apparently legitimate website, but it does not independently verify the real-world operator.

EVIDENCE

- Registration records list GoDaddy.com, LLC as registrar; the recorded creation date is 2017-05-01 and the expiry date is 2029-05-01.
- The site's hosting resolves to AS31898, ORACLE-BMC-31898 - Oracle Corporation, US.
- The site's TLS certificate is issued by YR2, uses Domain Validation (DV), and is valid to 2026-09-30T20:51:55+00:00.
- The reviewed company and contact pages contain business and contact disclosures but no stated license number or registration number.

What to Verify Next

Before a commercial engagement, an independent corporate or business-registry check should confirm the legal entity name, operating status, and physical address. Any applicable importer, manufacturer, environmental, product-quality, or sector-specific authorization should be checked with the relevant authority rather than inferred from the website. Contact details should be validated through an independently sourced channel, and any payment or account process should use documented commercial terms, clear returns or dispute provisions, and payment protection appropriate to the transaction.

EVIDENCE

- The About page supplies the company's stated establishment date and business description, providing specific details for an independent entity search.
- The Contact page provides telephone and physical-address information that can be reconciled against external business records.
- The reviewed pages contain no login or transaction form, so any later request for credentials or payment should be assessed against independently confirmed commercial documentation.

Summary Verdict

The overall posture is **high trust and low risk**, and no scam, phishing, impersonation, or identity-conflict indicators were observed. The website appears consistent with an established corporate presence, although the available evidence does not independently prove the identity of the real-world operator.

Infrastructure Integrity

The site resolves to a single likely origin on AS31898 operated by ORACLE-BMC-31898 - Oracle Corporation in the United States, with no detected edge CDN or WAF layer. This is a straightforward, attributable hosting posture; infrastructure protection is a mitigating operational signal only and is not proof of legitimacy.

Closing Assessment

Ordinary business browsing is proportionate to the assessed posture; before credentials, payment, or a material commercial commitment, the counterparty, applicable authorizations, contractual terms, and payment-protection arrangements should be confirmed independently.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Signals weighed against the site

- AbuseIPDB: 1 report on hosting IP 162.214.80.24 (Unified Layer, Content Delivery Network), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of avalancheimpex.com.

- The request stayed on avalancheimpex.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED
- The registration is paid up to 2029-05-01. CLEAR
- The earliest public archive of this site is from 2017-07-04. CLEAR
- It is hosted on ORACLE-BMC-31898, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about avalancheimpex.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
