

Is avallone.net legit? TrustSniffer's high-trust assessment: 100/100

avallone.net

Verdict

100

OUT OF 100

HIGH TRUST

avallone.net appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Official website for Avallone Architectural Specialties, LLC. Provides company overview, divisions, product/service listings (doors, frames, hardware, specialties), contact information including phone and physical address, featured projects and team bios. No sign of login/payment flows or investment offers.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2000.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Avallone Architectural Specialties, LLC is a corporate website for a commercial architectural-specialties contractor, presenting doors, frames, hardware, facility services, access control, fire and life-safety products, specialty installations, company information, projects, and contact details.

Scam/Impersonation Risk

No contradictions were observed. The website's stated commercial business model is coherent with its content: it presents architectural products and installation-related services rather than investment opportunities, cryptocurrency activity, or consumer payment schemes. The available technical and reputation checks found no phishing, malware, impersonation, or confirmed blacklist indicators, supporting an apparently legitimate, low-risk posture.

EVIDENCE

- The homepage and service pages describe commercial doors, frames, hardware, facility services, access control, and related architectural specialties; no login, payment, or investment flow was identified.
- The site's page analysis recorded no phishing indicators, brand-impersonation findings, or content red flags.
- Domain registration: 1998-08-24; age 28.01 years.
- Historical coverage records first seen 2000-04-19 and last seen 2026-02-03, spanning 27 years tracked.

Regulatory Verification Notes

The site identifies itself as Avallone Architectural Specialties, LLC and presents an apparent operating history dating to 1976, together with company, team, project, and service information. That identity is evidence-consistent with an established local business, but the real-world operator has not been independently verified. The website does not present a licensing claim or license number; for a commercial contracting relationship, the applicable business-registration, contractor-licensing, and insurance position should therefore be confirmed independently. This is a disclosure and verification matter, not evidence of a scam. No matching third-party broker-reputation record was identified.

EVIDENCE

- The homepage title and About content identify "Avallone Architectural Specialties, LLC" and state that the company has served the Ark-La-Tex since 1976.
- The site publishes company divisions, featured projects, staff biographies, and commercial service descriptions.
- Registration is listed through Bluehost Inc.
- TLS uses issuer YR2 with DV validation and is valid to 2026-11-08.

What to Verify Next

Before a commercial engagement, independently confirm the company's legal registration, any contractor or trade licences applicable to the proposed work, and current insurance documentation. Contact details should be validated through an independent business directory or an offline source, and any quotation or purchase should use documented contractual terms, payment protections, delivery conditions, and applicable warranty or return provisions.

EVIDENCE

- The Contact page provides a telephone number and physical address that can support an independent business-identity check.
- The About and team material provides additional company and personnel context for comparison against external records.
- The site presents commercial services rather than an online self-service purchasing workflow, making contract and invoice validation the relevant control.

Summary Verdict

The overall posture is **high trust and low risk**, with the available evidence consistent with an established, apparently legitimate website. The classification supports ordinary business consideration, while not constituting independent proof of the operator’s real-world identity.

Infrastructure Integrity

The site resolves to a single likely origin in the United States and does not show a detected CDN deployment or multiple edge addresses. Hosting is provided by Network Solutions, LLC, and the direct hosting posture does not itself indicate malicious activity; the valid transport encryption is a positive integrity control.

EVIDENCE

- Hosted on AS19871, Network Solutions, LLC, United States; resolved IP 162.241.140.236.
- The infrastructure record shows 1 unique IP, 0 edge IPs, and 1 likely origin IP.
- TLS certificate issuer: YR2; validation level: DV; valid to 2026-11-08T05:45:23+00:00.

Closing Assessment

Engagement may proceed on a normal commercial basis, subject to routine independent checks of the counterparty, contractual documentation, and payment protections before credentials or funds are exchanged.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of avallone.net.

- The request stayed on avallone.net. It was not redirected to another domain. CLEAR
- Registration is published under Bluehost Inc.. CLEAR
- DNS for this domain is served by avallone.net, across 2 name servers. NOTED
- The registration is paid up to 2027-08-23. NOTED
- The earliest public archive of this site is from 2000-04-19. CLEAR
- It is hosted on NETWORK-SOLUTIONS-HOSTING, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about avallone.net at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
