

Is avlesbian.com safe? TrustSniffer's moderate-trust assessment:

55/100

avlesbian.com

Verdict

55

OUT OF 100

MODERATE TRUST

avlesbian.com is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Chinese-language site mixing cultural/organizational content about craft and arts with repeated adult-content keywords and cross-links. Contains company contact details and navigation but shows inconsistent branding and topic mixing (cultural institution copy alongside porn-related anchor text). No visible forms or JS indicators of credential harvesting in provided text.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What avlesbian.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Governance Risk.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2026.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This Chinese-language website presents itself as an informational cultural and organizational portal covering arts, craft products, company news, recruitment, public disclosures, and contact information, while its visible title, repeated adult-content keywords, and cross-links indicate an apparent advertising- or affiliate-supported content model with materially inconsistent subject matter.

Scam/Impersonation Risk

No confirmed phishing, impersonation, blacklist, or conflicting legal-identity signals were observed. The principal concern is **claim-evidence dissonance**: the site combines institutional language, including a claim of affiliation with Poly Group and a state-owned-enterprise structure, with repeated adult-content terms and links that are inconsistent with the stated cultural purpose. This weakens confidence in content integrity and brand continuity, but the supplied evidence does not establish a scam or impersonation operation. No login form, credential-harvesting form, wallet interaction, or hidden sensitive form was observed.

EVIDENCE

- Homepage: Chinese-language navigation and articles describe craft, arts, recruitment, public information, and product activity, while the same page contains repeated adult-content keywords and cross-links.
- Homepage behavior: no login form, hidden form, password-external form, wallet-provider interaction, or wallet-drainer activity was detected.
- Domain registration record: registered 2025-11-07 (~0.78 years old) through Gname.com Pte. Ltd.
- Archive record: 0 snapshots; first seen 2026-01-22 and last seen 2026-06-06.

Regulatory Verification Notes

The visible content includes company-style contact details and an About section making substantial organizational and ownership claims, but the supplied material does not independently verify the claimed real-world operator. The navigation includes legal and public-information sections, yet no licensing claim or license number is visible in the reviewed content. For an apparent content portal, this is primarily a disclosure and identity-verification matter rather than evidence of unlawful activity. A separate broker-reputation dataset produced no match and should be treated only as contextual context, not as a regulatory determination.

EVIDENCE

- About page: claims that the organization is a wholly owned subsidiary of Poly Group, belongs to the State-owned Assets Supervision and Administration Commission structure, and has operated in the arts-and-crafts sector since the early 1970s.
- Contact page/footer: publishes a Beijing business address, telephone and fax numbers, postal code, and a domain-based email address.
- Hosting infrastructure: served on AS13335, CLOUDFLARENET—Cloudflare, Inc., US.
- Transport encryption: TLS certificate issued by WE1, domain-validated (DV), valid to 2026-09-29.

What to Verify Next

Before sensitive account activity or material financial commitment, an independent check should establish that the organization named on the About and contact pages is the genuine operator of the domain. Any applicable corporate, advertising, content-distribution, or sector-specific obligations should also be checked against the relevant official registry, and the site's published contact routes should be confirmed through an independently sourced channel.

EVIDENCE

- About page: independently validate the stated corporate affiliation and historical operating claims against an authoritative corporate source.
- Legal and public-information pages: confirm the responsible legal entity, applicable terms, and any required registration or licensing disclosures.
- Contact page: confirm that the published business details are independently associated with the domain operator before sensitive engagement.

Summary Verdict

The website has a **moderate trust posture**. Available evidence supports ordinary informational browsing and shows no observed scam or impersonation contradiction, but the site's legitimacy remains apparent rather than independently proven because its institutional presentation is not fully corroborated and its content purpose is internally inconsistent.

Infrastructure Integrity

Cloudflare CDN/WAF protection places the observed service behind Cloudflare edge infrastructure on AS13335, with no origin candidate exposed in the supplied analysis. This reduces direct origin exposure and is a mitigating technical control, but it does not independently establish operator legitimacy.

Closing Assessment

Routine, read-only interaction is proportionate to the current posture; credentials, sensitive submissions, and high-value commitments should follow independent confirmation of the responsible entity and applicable obligations.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by registration and ownership.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of avlesbian.com.

- The request stayed on avlesbian.com. It was not redirected to another domain. CLEAR
- Registration is published under Gname.com Pte. Ltd.. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED

- The registration is paid up to 2026-11-07. NOTED
- The earliest public archive of this site is from 2026-01-22. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about avlesbian.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
