

Is avonleaclinic.com.au safe? TrustSniffer's moderate-trust assessment: 65/100

avonleaclinic.com.au

Verdict

65

OUT OF 100

MODERATE TRUST

avonleaclinic.com.au is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Governance Risk

Dynamic Interaction Caution

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Official website for Avonlea Clinic, a Geelong-based obstetric and gynaecology practice listing services, practitioners, contact details and clinic hours. Content is informational and service-focused with patient-facing resources.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

The page as captured

https://avonleaclinic.com.au/

What avonleaclinic.com.au served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Governance Risk.
- Public web-archive history exists since 2019.
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

This website presents Avonlea Clinic as a Geelong-based obstetric and gynaecological practice, offering patient-facing information on obstetric care, gynaecology, menopause and women’s health, together with practitioner information, clinic contact details, fees, patient registration and questionnaires. Its apparent business model is the delivery of specialist clinical consultations, procedures and related healthcare services funded through patient fees.

Scam/Impersonation Risk

No phishing, impersonation, malicious-content, or conflicting-identity indicators were observed. The homepage and patient-facing content are consistent with a healthcare clinic rather than a deceptive financial, cryptocurrency or credential-harvesting operation; testing also found no login form, hidden form, wallet interaction or external password submission. Two suspicious inline scripts were observed during interaction testing, but this isolated technical signal was not accompanied by external network activity, cloaking, clipboard activity or other abuse behavior. Available external reputation checks did not identify malicious or suspicious findings, although coverage was partial.

EVIDENCE

- The homepage identifies obstetric and gynaecological services, practitioner information, clinic hours, patient resources and a Geelong address.
- Homepage interaction testing recorded 2 suspicious inline scripts, 0 external XHR requests, 0 hidden forms and 0 wallet-provider or wallet-drainer runs.
- Page analysis recorded no brand-impersonation, phishing or cryptocurrency indicators and assessed the page risk as 0.05.
- External checks recorded 0 abuse reports and no malicious or suspicious detections among the evaluated signals.

Regulatory Verification Notes

The available content provides a coherent clinical-service presentation and identifies the Avonlea Clinic name, address, telephone number and practitioner-related information. However, the supplied site content does not show a healthcare registration number, licensing statement or clearly identified regulatory authority; this is a verification gap rather than evidence of impersonation or fraud. The real-world operator identity remains unverified, so the site's apparent legitimacy should not be treated as independently proven. Domain registration is through Domain Directors Pty Ltd trading as Instra, with the registration record naming THE TRUSTEE FOR AVONLEA CLINIC UNIT TRUST; this is useful registration context but does not by itself establish the operating entity or practitioner credentials.

EVIDENCE

- The homepage title is "Avonlea Clinic – Obstetric and Gynaecological Services," and the page contains the clinic's service descriptions and patient resources.
- The domain registration record names Domain Directors Pty Ltd trading as Instra as registrar and THE TRUSTEE FOR AVONLEA CLINIC UNIT TRUST as registrant.
- The site's transport encryption uses a DV certificate issued by YR2, valid to 2026-11-17T02:48:40+00:00.
- The site is served from AS216180, WHG-AUS - WHG Hosting Services Ltd, GB.

What to Verify Next

Before sensitive or high-value engagement, independently confirm that the named clinic and practitioners correspond to current entries in the relevant Australian healthcare registration and professional-regulatory registers. Confirm appointment, billing and referral details through contact information obtained from an independent healthcare directory or offline referral source, and ensure that any payment request is consistent with the clinic's documented billing process. The clinic's fees, patient registration and questionnaire pages should be reviewed for clear handling of personal and medical information.

EVIDENCE

- The homepage provides the clinic address, telephone number and patient-facing service categories that can be cross-checked independently.
- The site includes “Fees + Billing,” “Patient Registration” and questionnaire resources requiring review before submission.
- Practitioner information is presented as part of the site’s “Our Team” content and should be matched against authoritative professional registers.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate healthcare website with a moderate trust posture. No contradictions or active threat indicators were observed, but the independent connection between the website and a verified real-world operator remains incomplete; normal informational use is reasonable, while sensitive or high-value engagement warrants independent confirmation.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, and the observed address was an edge address rather than an independently exposed origin. This provides a meaningful mitigation against some direct infrastructure attacks and origin exposure, but protective hosting is not proof of the clinic’s legitimacy or regulatory standing.

Closing Assessment

Ordinary browsing is proportionate, while independent identity, practitioner and payment checks should be completed before submitting sensitive information or committing substantial funds.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, behaviour in a sandbox.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Dynamic Interaction Caution

- The page carried inline scripts written in a style TrustSniffer treats as suspicious.

Behaviour in a sandbox rule:BEHAV_SUSPICIOUS_INLINE_SCRIPTS

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of avonleaclinic.com.au.

- The request stayed on avonleaclinic.com.au. It was not redirected to another domain. CLEAR
- Registration is published under Domain Directors Pty Ltd trading as Instra. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The earliest public archive of this site is from 2019-10-16. CLEAR
- It is hosted on WHG-AUS, from a server in GB. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about avonleaclinic.com.au at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
