

Is azbybrokerage.com legit? TrustSniffer's high-trust assessment: 90/100

azbybrokerage.com

Verdict

90

OUT OF 100

HIGH TRUST

azbybrokerage.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 70%.

WHAT THIS SITE APPEARS TO BE

AZBY Brokerage, Inc. is a Bronx-based independent insurance brokerage offering quotes and coverage comparisons for auto, homeowners/landlord, commercial, contractor, workers' compensation and business owner insurance. The site provides contact details, an address, phone, email, and a quote/contact form.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What azbybrokerage.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2003.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

AZBY Brokerage presents itself as a Bronx-based independent insurance brokerage that helps individuals, landlords, and businesses compare and obtain insurance coverage through carrier relationships and quote requests.

Scam/Impersonation Risk

No contradictions were observed across the available website evidence: there were no detected phishing, impersonation, malicious-content, or conflicting legal-entity signals. The site's content is consistent with a local insurance intermediary rather than a deceptive or high-risk financial platform. A shared data-centre address associated with the hosting provider has four abuse reports, but those reports apply to shared infrastructure rather than being attributed specifically to AZBY Brokerage; this is a limited infrastructure-reputation signal and

does not outweigh the broader evidence supporting an apparently legitimate site. The real-world operator identity remains independently unverified.

EVIDENCE

- The homepage identifies AZBY Brokerage, Inc. as a New York insurance brokerage and presents a local-business service model.
- Domain registration evidence records a creation date of 2001-04-27 and an age of 25.33 years.
- Historical records show 666 archive snapshots spanning 2003-07-27 through 2026-03-02, with 24 years tracked.
- The hosting address has 4 abuse reports attributed to shared Liquid Web infrastructure, with an abuse confidence score of 15.

Regulatory Verification Notes

The homepage describes coverage for auto, homeowners and landlord, commercial property and general liability, contractor liability, workers' compensation, and business-owner insurance. It states that the brokerage represents more than 20 insurance companies and has served New York customers for over 45 years. Those claims support an established commercial profile, but the available material does not independently verify the operator's legal identity or insurance licensing status. No license authority or license number is claimed in the supplied site analysis, so licensing remains a transparency and regulatory-verification point rather than evidence of misconduct. The site's transport security and long operating history provide supporting legitimacy context, while the use of a privacy-protected registrant is an administrative identity limitation.

EVIDENCE

- The homepage lists the business name, Bronx location, telephone contact, email contact, and a quote/contact form.
- The homepage states that the brokerage represents over 20 insurance companies and has served New York's five boroughs and lower Westchester for over 45 years.
- The site is served from AS36444, NEXCESS-NET — Liquid Web, L.L.C., United States.
- The transport certificate is issued by YR1, uses DV validation, and is valid through 2026-09-23.

What to Verify Next

Before credential or payment interactions, independently confirm AZBY Brokerage's legal identity and applicable New York insurance licensing through the relevant official registry. Confirm that the insurers and products referenced in any quotation are genuine carrier offerings, and obtain policy documents, exclusions, cancellation terms, and commission or fee information directly from the issuing carrier where appropriate. Contact details and payment instructions should also be validated through an independent channel before sensitive information or funds are provided.

EVIDENCE

- The homepage provides one contact and quote-request form, with no detected password or login form.
- The stated brokerage relationship with more than 20 insurers is presented on the homepage and should be matched to carrier documentation during onboarding.
- The site's primary interaction is requesting an insurance quote rather than submitting credentials through a dedicated account portal.

Summary Verdict

The overall posture is high trust and low risk, and the available evidence is consistent with an established, apparently legitimate insurance brokerage. No scam or impersonation contradictions were observed, although the connection between the website and a specific real-world operator has not been independently verified.

Infrastructure Integrity

The site resolves directly to a single hosting address, with no CDN or WAF detected and no separate edge-IP layer identified. Direct hosting is less protective than a managed edge service, but the observed infrastructure is stable and provides a clear hosting-provider attribution; it should be treated as a mitigating technical signal rather than proof of legitimacy.

Closing Assessment

Normal browsing and quote research are proportionate, while independent identity, licensing, carrier, and payment-protection checks should be completed before sensitive credentials or funds are exchanged.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Signals weighed against the site

- AbuseIPDB: 4 reports on hosting IP 8.29.155.239 (Liquid Web, L.L.C, Data Center/Web Hosting/Transit), 15% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about azbybrokerage.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
